THE FIREMAN WITHOUT A HOSE

FLAMES in a great tenement imprisoned scores of persons in the apartments above. The Fire-chief ordered a hose played on the blaze. His men jumped to obey. Their wagon was empty. The hose was missing.

A missing word is a missing tool. The man who can't express his thoughts can't convey his ideas. If you don't know words, and how to use them, you are as bad off in business or society as a fireman at a fire without a hose. What chance would you stand against the fires of competition if you could neither write nor speak?

You must keep pace with the language to keep up with the world. Education today is progressive—not confined to yesterday's language and activities. War in Europe and new discoveries have brought into general and proper use so many new words that all dictionaries published before this year are wholly out of date.

The Bismarck Tribune

Devoted to public welfare, campaigning for better education, always seeking to give men and women more opportunities for self-advancement, offers to its readers this new dictionary. Twenty-five dictionaries in one. Defines words used with special meanings in such activities as war, golf, yachting, music, baseball, etc. Full of information needed daily in home and office. Illustrated with pages and double pages of color and duotone. Large type, all new—easy on the eyes. Richly bound in flexible leather, lettered in gold.
