## FRISK AND NOVAK AT GRAND TONIGHT

Helena, Montana, Grappler Will Try Conclusions With Local Wrestler.

Joe Novak and Bud Frisk of Helena, Mont., will meet in a finish wrestling match at the Grand theater tonight. This will doubtless be the last match to be staged in the capital city for some time, as Novak leaves following the match for a tour of the western and southwestern states.

Frisk arrived in the city Monday and stated that he was in first-class

condition for the bout and was confident that he will be able to win from Frisk, as a loss at this time would mean cancellation for a number of his prearranged matches. Good preliminaries have been arranged and will commence promptly at 8 o'clock. The main bout will start at 9 o'clock.

### DISTRIBUTING HOUSE TO LOCATE BRANCH HERE

George D. Brown Will Locate a Distributing House Here for Farm Machinery.

Bismarck, with her central location and good railroad facilities, is fast being recognized by eastern firms as the right place for distributing houses, and it is understood that George D. Brown, who has a large plant at Fargo, has decided to put a house in also at Bismarck, to care for his heavy trade in western North Dakota and eastern Montana.

This firm distributes the Bull Trac-

tor engines, Regal motor cars, threshing machines, corn shredders, ensilage cutters, silo fillers, feed grinders, engine plows and a big line of farm machinery; also, extra parts and accessories, and already have some of their traveling men on the territory, and more will soon be added.

The Bull Tractor company has made great progress in putting an engine on the market that will do the work on the farm much cheaper than horses, and the North Dakota farmers are glad to welcome this engine, as the Bull Tractor company is headed by P. J. Lyons as president, and all old timers remember Pat, and are glad to know that he has made such a success in the tractor business.

H. C. McCartney is sales manager, and will be remembered as being interested with Tom Marshall in the banking business at Oakes and other points for many years.

George D. Brown is well known in these parts, having served several sessions in the state senate here from the Tenth district, and has visited Bismarck occasionally during the last few years.

### OLD-TIME COLD CURE—DRINK HOT TEA!

Get a small package of Hamburg Breast Tea, or as the German folks call it, "Hamburger Brust Tee," at any pharmacy. Take a tablespoonful of the tea, put a cup of boiling water upon it, pour through a sieve and drink as tea cup full at any time during the day or before retiring. It is the most effective way to break a cold and cure grip, as it opens the pores of the skin, relieving congestion. Also loosens the bowels, thus breaking up a cold.

Try it the next time you suffer from a cold or the grip. It is inexpensive and entirely vegetable, therefore safe and harmless.

### EIGHT NEW INMATES FOR PENITENTIARY

State Transportation Agent D. J. McGillis delivered eight men at the state penitentiary this week, bringing them all in on one trip.

The prisoners were: Pete Duratti, Mexican, six months, bootlegging; Burt Nofsinger, six months, bootlegging; A. P. Anderson, first degree murder, 25 years,—all from Mountrail county; Chas. Twicke, Tom Nicholas, John Andrews and Edward Severson all for Highway robbery, and George McElroy for Grand Larceny, the last five being from Barnes county.

An insane patient was delivered to the state hospital for the insane at Jamestown on the same trip. Deputy E. Larson of Valley City accompanied Mr. McGillis from Valley City.

### GOOD ROADS BOOSTER WORKING FOR RESULTS

Civil Engineer T. E. Griffith, who has been stirring up the good roads advocates in Hettinger and Morton counties, and who has been doing great work throughout the state has originated a system of keeping exact tab on the cost of road work.

The system is called an "Actual Cost Data Sheet," and is a complete life history of each piece of work brought up to date, the last item being maintenance costs.

There are three main points in the system.

First, a definite and permanent rec-

### REHEARING ASKED ON ELEVATOR SITES

A petition was filed with the clerk of the supreme court yesterday by Attorneys Watson & Young of Fargo, fulfilling the requirements set forth above, as the first main object of the better roads movement.

Second, something reliable from which the commissioners may estimate, with a degree of certainty the cost of and select new plans for proposed work.

Third, and what is probably the strongest point,—a direct check on efficiency of the foremen, since each item is placed directly below all other items of a similar nature. If his costs run high, it will show if his costs are low, it will also show and he may be proud of it and in general will strive to keep them low, thereby keeping the efficiency of the construction crews to a high degree and thus

asking for a rehearing of the industrial site case recently decided by the court.

The case has to do with elevator, lumber yard and oil tank sites located on a railroad right of way. It involves the right of the state to tax such sites.
