

GOLF MEETING AT CHICAGO

Western Association to Hold Its Annual Session There This Week.

Chicago, Jan. 13.—Representatives of nearly every golf association in the United States will gather here this week, to attend one or both of the two biggest winter events on the game's program. On Friday night delegates to the annual meeting of the United States Golf association, the national organization, will assemble to elect officers and appoint places and dates for the annual championships it conducts, and the Western Golf association holds its annual election Saturday night.

It is expected that the officers nominated by committees appointed for that purpose will be elected with small, if any, opposition. Frank L. Woodward of Denver, renominated for president, leads the ticket named for the national body, with Howard Perrin, Marion Cricket club, first vice president; John Reid, Jr., St. Andrews Golf club, second vice president; Howard F. Whitney, Nassau Country club, secretary; Frederick S. Wheeler, Anawamsis club, treasurer; Eric Burn Country club; Walter B. Smith, Onwentsia club; Dr. Walter S. Harberg, Columbia Country club, and John S. Sweeney, Country club of Detroit, executive committee. In the nominations for officers all at present hold the positions except Mr. Wheeler, Percy H. Pyne of Princeton having declined renomination. A new nominating committee named in cludes Milton Dargan, Atlanta; William E. Stauffer, New Orleans; Albert R. Fish, National Links; George H. Walker, St. Louis, and Henry H. Wilder, Boston.

For the national amateur championship event, bids have been received from the Marion Cricket club, Philadelphia; Nassau Country club; Glen Cove, New York; and the Piping Rock club, Locust Valley, New York.

National Open Meet.
For the national open meet, offers were made by the Minikahda club, Minneapolis; Country club of Detroit; Englewood Country club, Englewood, N. J.; and the Kent Country club, Grand Rapids, Mich.

For the woman's national championship, bids were sent by the New Haven Country club, the Greenwich, Conn., Country club; the Belmont Springs Country club of Waverly, Mass., and the Baltusrol Golf club, Baltusrol, N. J.

Questions involving voting rights and amateurs may be discussed at the meeting of the national body. Constitutional amendments will be offered granting every club in the association a voice in the government. Hitherto only clubs which were active members have been allowed to vote, while allied clubs, comprising nearly three-quarters of the membership, have been without voice in the association's affairs.

The connection of golfers with sporting goods houses and its effect on their amateur standing may come up. It is possible, too, that there will be proposed a rule limiting state championships to residents of the district included.

Officers Nominated.
The Western Golf association's nominating committee renamed President George R. Balch of Cincinnati to head its ticket, which includes Franklin B. Boyd, Bellevue Country club, St. Louis, vice president; E. Hoover Bankard, Jr., Midlothian Country club, Blue Island, Ill., secretary; C. C. Paddelford, Flossmoor Country club, Homewood, Ill., treasurer; Horace F. Smith, Nashville Country club; William F. Brooks, Minikahda club, Minneapolis; E. S. Armstrong, Los Angeles Country club; William F. Foye, Omaha Country club, and Arthur B. Caldwell, Country club of Detroit, directors. A new nominating committee suggested consists of W. W. Harless, South Shore Country club, Chicago, chairman; A. W. Warren, St. Joseph Country club; Hamilton Vlear, Milwaukee Country club; Joseph S. Hall, Indianapolis Country club, and D. S. Henderson, Chattanooga Golf and Country club.

The Del Monte Golf and Country club of Del Monte, Cal., offered to arrange a special train to carry easterners to the coast; the Midlothian Country club and the Omaha Country club have asked for the western amateur championship and the Olympic Cup match, a team event which takes place a day ahead of the amateur meeting here.

The Hinsdale, Ill., Golf club bid for the junior amateur championship and the Blue Mound club of Milwaukee for the western open tournament.

DR. BAWDEN EXPLAINS EDUCATIONAL SURVEY TO COMMONS CLUB

Fargo, Jan. 12.—Three things are involved in an educational survey, a careful study of the historical development of whatever is studied; working out of a constructive program, and helpful recommendations that are not too far in advance so that they would be impracticable.

Dr. W. T. Bawden of Washington, educational expert who with Professor Coffman of Minneapolis, and Dr. Craighead, recently from Montana, are making a survey of the State educational institutions of North Dakota, gave the above as the rules governing their work in his address at the Commons club last evening.

Their Work Constructive
Dr. Bawden speaks easily, fluently and is familiar with every phase of his subject and held the audience in close attention as he narrated some experiences and showed what could be done by practical educational surveys. He said nothing of what the commissioners propose to do in North Dakota further than to assure his hearers that their work is not critical but constructive. Professor Coffman listened to the address but Dr. Craighead is confined to his room with a gripe.

Tells of Survey in Richmond.
Dr. Bawden prefers to call it a study rather than a survey, and he told an interesting story of the work carried on in Richmond under the initiative of the city school board, assisted by other organizations and public spirited bodies. A total of 27 people were employed at different times, some for a few days and others as long as six months. The industrial life of the city was studied and the relations of the public schools to the workers in order to improve the schools and bring them to fit the needs of the people more perfectly.

Questioner of Children and Workmen.
The children were presented with a questionnaire calculated to bring to the commissioners the facts of their families as to children engaged in work; their intentions as to going on to school, what they would do after leaving, etc.

Visiting the meeting places of the workmen they would secure several at a time and submitting questions to them discover their educational needs and wherein the schools might be made more practical and helpful.

As a result of this several classes were organized from among these men, in night schools, it having been developed by the practical investigation just what their needs were and what their wishes were. The union iron moulders and the steamfitters

and some others were thus assisted to studies which will make them more competent.

Another survey or study was conducted at Butte, Mont., for a few days in the public schools; the idea being to discover how to make them more efficient. Dr. Bawden explained the methods of testing the children and comparing them, giving for illustration the Thorndyke test in handwriting which was applied in Butte and enabled them to compare the efficiency of the schools of that city with that of 22 other cities.

The attendance was large at the club meeting, which was held at the Gardner hotel, dinner being served in

ST. PAUL'S OUTDOOR SPORTS CARNIVAL JAN. 27 TO FEB. 5

THE CARNIVAL GIRL AND HER SKIS.

The activities of the big Outdoor Sports Carnival, to be held in St. Paul Jan. 27 to Feb. 5, will revolve about toboggan slides, ski jumps and large sheets of ice, where curling, skating and hockey matches will be featured.

The background for these various lines of athletic activity will be the numerous marching, toboggan and snowshoe clubs, equipped in their highly colored blanket suits, trimmed with fur. Bugle bands, drum corps and the merry tinkle of sleigh bells will accompany the marchers during their parades, and on their club "hikes."

The carnival is to be a gala occasion. The city will be turned over to visitors, who are expected from all over this country and Canada. Brilliant illuminations and decorations

will predominate, while spectacular fireworks will light up the ice fort at night. The storming of the fort will be one of the most spectacular features of the frolic. The marching clubs will be divided into an attacking and a defending party and the brilliant colored lights against the transparent wall of ice will rival the most exaggerated Fairyland scene.

The main factors in St. Paul's winter recreation come from widely different sources. The ski is a Northern European invention; the snowshoe was contributed by the American Indian; the sleigh comes from the Esquimaux; the skate is an English addition to the common stock, while curling is the great Scotch game. "Make It a Hot One," is the slogan of the carnival association and the sponsors for the frolic intend to live up to it.

A Jamestown man while, under the influence of liquor, attacked and brutally beat his four-year-old daughter. Interference of neighbors probably saved the little one's life. The man has been put on probation by the officials and must report monthly. In the meantime he must eschew the pleasures of the flowing bowl.

PHILLIES' STAR BATTERY MAY BE UNABLE TO PLAY IN 1916

Killifer (left) and Alexander.

Reports are current that both ends of the Phillies' star battery—Alexander and Killifer—are in bad physical condition and neither may be able to play in 1916. Alexander, who hurt his arm nearly a month before the end of the 1915 season, has had considerable trouble with it ever since. Killifer's shoulder went to the bad some time before the end of the season and has not shown any improvement since.

POLO INTEREST GROWS

Players Increase in Numbers In All Parts of Country.

Season Has Been One of Most Successful in Recent Years, Says Chairman Herbert—Planning for Many New Trophies.

"In spite of the general business depression in the early part of the year and the disturbance caused by the war, the polo season has been one of the most successful in recent years." This statement was made by H. L. Herbert, chairman of the Polo association in New York.

"One of the most gratifying features of the last season," said Mr. Herbert "is the number of young men who have taken up the sport and the skill they have displayed. This more particularly applies to the young members of the Long Island and Pennsylvania clubs, which are exceptionally fortunate in having such promising material to draw upon."

"With an idea of further encouraging competition among the clubs, the officials of the Polo association are outlining the conditions for a number of new trophies to be played for under most attractive conditions. The full particulars of these cups will be laid before the members for approval at the annual meeting, which is held in February."

The outstanding feature of the last season was the tournament which was held at the Panama-Pacific exposition, starting in March and closing May 1, or sixty days of actual play, in which time thirty-seven matches took place and many handsome trophies were awarded.

The entry of the Boise (Idaho), Portland (Ore.), with the many California teams, and the presence of leading eastern and Chicago players, with a strong aggregation from the United States army, made the tournament a success.

Polo in various sections of the country has increased wonderfully with the institution some two years ago of the Polo association circuit cups. These trophies are played for by clubs within a certain radius of one another, and in every case last season drew five and six entries.

NEW QUEEN OF LAWN TENNIS

Molla Bjurstedt of Norway, Captures National Women's Championships—Defeats May Sutton.

Miss Molla Bjurstedt of Christiania, Norway, now a resident of New York, has swept everything before her in the tennis events of this past summer, capturing the women's national indoor championship and outdoor championship, along with many other significant titles. And if any doubts remained in the minds of the tennis players relative as to whether or not her wins might be due to the fact that America's foremost women exponents were unable to participate in these national events, they were, no doubt, dispelled when this Norwegian girl, on invading the territory of the world-famous Mrs. May Sutton Bundy, scoring a straight set defeat on the latter before a representative California gallery.

If consistent winning ability is the true test of superior play, then Miss Bjurstedt can well be looked upon as

commanding a championship game, since she has decisively defeated the rank and file of women players throughout the country.

The Norwegian player also has the distinction of being the only foreigner who ever won the United States tennis championship, just as Mrs. May Sutton Bundy has the distinction of being the only American who ever won the English championship, which feat she accomplished in 1904 and 1906.

Bob Curtis With White Sox.
Bob Curtis, who pitched for the Battle Creek team of the Southern Michigan league before that circuit broke up, and then joined the independent Rail Lights of Toledo, which defeated several major league teams in exhibition games, will, it is reported, get a trial with the Chicago White Sox in the spring.

KEY FURNISHED TO TREASURE HOUSE

How Best Aid to Wonderful Information May Be Secured.

What vast and mighty treasures of words full of rich meaning lie locked up in our language—hidden away from common use, and enjoyed only by the learned few. It is as if, possessing the mineral wealth of Mexico, mined and smelted and ready for the mint, we turned scornfully aside, revealing in a voluntary poverty.

A dictionary constitutes the treasure house of a language. As a people, we needlessly deprive ourselves of the helps at our command. In our daily tasks, not one of which can be performed without the use of words, we possess only the most primitive tools, when we might be equipped with the keenest and most efficient.

If the dictionary in the barred and bolted treasure house we have mentioned, then the coupon we print daily in his paper is its key.

The coupon will appear only a few more times. This marvelous distrib-
