WOMAN AVOIDS OPERATION

Medicine Which Made Surgeon's Work Unnecessary.

Astoria, N. Y. — "For two years I was feeling ill and took all kinds of tonics. I was getting worse every day. I had chills, my head would ache, I was always tired. I could not walk straight because of the pain in my back and I had pains in my stomach. I went to a doctor and he said I must go under an operation, but I did not go. I read in the paper about Lydia E. Pinkham's Vegetable Compound and told my husband about it. I said 'I know nothing will help me but I will try this.' I found myself improving from the very first bottle, and in two weeks time I was able to sit down and eat a hearty breakfast with my husband, which I had not done for two years. I am now in the best of health and did not have the operation." — Mrs. JOHN A. KOENIG, 502 Flushing Ave., Astoria, N. Y.

Every one dreads the surgeon's knife and the operating table. Sometimes nothing else will do; but many times doctors say they are necessary when they are not. Lydia E.
