HOW HE QUIT TOBACCO

This veteran, S. B. Lamphere, was addicted to the excessive use of tobacco for many years. He wanted to quit but needed something to help him.

He learned of a free book that tells about tobacco habit and how to conquer it quickly, easily and safely. In a recent letter he writes: "I have no desire for tobacco any more. I feel like a new man."

Any one desiring a copy of this book on tobacco habit, smoking and chewing, can get it free, postpaid, by writing to Edward J. Woods, 1463 D Station E. New York City. You will be surprised and pleased. Look for quieter nerves, stronger heart, better digestion, improved eyesight, increased vigor, longer life and other advantages if you quit poisoning yourself.

Maxwell

\$595 Maxwell motor cars have demountable rims and the same size tires on both front and rear wheels.

F. O. B. DETROIT.

REMEMBER these important features, because they are not to be found on some of the lighter cars. Maxwell cars have 3 1/2 in. tires all around. This is a generous size. The tires are not overtaxed. They last longer and make riding easier. Tires of one size mean that you have to carry only one size casing and one size tube. Demountable rims, of course, are recognized as the best. They are on all good cars. Don't buy any car without demountable rims. If you do, you'll regret it. These two features—along with the other complete and up-to-date equipment; the economy and proved endurance of the Maxwell, make it the greatest automobile value in the world today.
