ROGERS' HAWAIIANS AT GRAND MONDAY

Manager Wolf of the Grand Theatre, keen for the amusement seekers of Bismarck, has booked at the pretty Grand for two days, commencing Monday, Rogers' Royal Hawaiian

Troubadours, the most elaborate and pretentious act of its kind in America and the only act of its kind that gives the entire show over the Sullivan & Considine circuits.
The company of artists give the most unique musical program of its kind ever heard, each member being an artist in his particular line. Quartets and sextets, both musical and vocal, are on the bill, and they

are entertainers that one never gets tired of.

The singing of their national airs and the popular American ragtime are one of the hits of the bill.
Last spring Manager Wolf had a company of Hawaiians for two days and all records of the theatre were broken. Manager Fowler of the Grand, Fargo, wired him that this act surpasses anything of its kind ever played at the Fargo Grand and it held the immense crowds spellbound at all shows.
There will be the usual three shows with a most elaborate picture program.

WALTON LEAVES FOR VALLEY CITY
Jamestown, N. D., Sept. 9.—R. Walton, who for the past month has been in Jamestown looking over the newspaper field, with a view to locating here, left today for Valley City to become associated with the Daily Times-Record. It is understood that he will purchase a half interest in the paper at the end of the month.

WHIRLED TO DEATH BY FLY WHEEL OF ENGINE
Jamestown, N. D., Sept. 9.—Slipping and falling onto a fly-wheel of engine, William Kuhlman, of Wimbledon, was whirled to death on the Nick Flager farm, north of that town, according to word brought here today.
The young man climbed on the top of a threshing engine and was in the act of pouring water into the radiator when he fell between the fly-wheel and the engine. He died shortly after being released. Several bones were broken and he was injured internally. He was 24 years old.

GORDON HATS

The name Gordon in your hat means this—that the quality is perfect, the color fast, the style authentic—it means today the same that it stood for when you bought your first Gordon.

Satisfaction

The owner of a Buick Valve-in-Head motor car obtains from his investment a Satisfaction which grows in completeness as his car continues in service. He marvels at the manner in which the matchless Buick motor retains its snap after thousands of miles of use. He is pleasantly surprised to discover that his car improves with age, and that it runs with an ever-increasing smoothness. And his satisfaction is increased and intensified when he finds out that the value that is built into Buicks is the lasting value of carefully chosen and rigidly inspected materials. There can be no more satisfactory possession than a Buick Valve-in-Head motor car.
