## MAN FORCED HER TO ELOPE WITH HIM, IS CHARGE

### Empey Arrested at Mandan for Threatening 14-Year-Old Girl with Murder

## ANGELA KARY WAITS FOR FATHER'S ARRIVAL

### Couple Caught While Making for Minneapolis on Northern Pacific Train

Joe Empey was arrested yesterday at Mandan, on a complaint sworn out by States Attorney Langer, charging him with forcing a 14-year-old girl, Angela Kary, to elope with him against her will. The maximum penalty for the offense is ten years in the state prison.

The couple was captured on No. 8. The father of the girl, Philip Kary of Elgin, had telephoned Mr. Langer, giving a description of both.

### Search Train

The states attorney, with W. D. Dopping of Bismarck, state parole officer, searched the train, finding the two sitting in different seats.

Empey was employed by the girl's father. He became infatuated with the girl and was bound to marry her. Her parents did not realize the situation.

### Threatens Death

Empey threatened to murder the girl if she did not elope with him, it is alleged, which forced her to give her consent. In a hired automobile, the pair got away Friday about midnight.

The girl declares that she did not know where they were bound for. They arrived at Glen Ullin at 2 o'clock Saturday morning, but as there was no train coming soon and Empey did not dare to stay in town, it is charged, he forced her to walk to a station two miles this side of Glen Ullin, called Kurtz. There they hid in a box car, officials declare, until No. 8 came along in the morning.

The girl told Mr. Langer that she was "kicked to death to get away from him."

She appeared frightened and looked worn and tired out.

Empey is about 2 years old. His preliminary hearing will be held Monday, before Judge H. L. Henke. He declares that his folks live at Waso, Minn., and that they will take care of him.

A net was drawn around the elopers, with Sheriff McDonald of Morton county watching at McLaughlin, S. D., Sheriff Hayward of Corson county, on guard at McIntosh, S. D., and Mr. Langer, at Mandan.

The state's attorney declared last night that Empey had declared that he would plead guilty.

## FIRST ENTERTAINS SCHOOL TEACHERS

Mercedes, Texas, Sept. 16.—It has been a week of excitement. It might almost be called a week of social gaieties for the North Dakota regiment. The school teachers of Hidalgo county, Texas, 350 strong, have held their county institute here, and the North Dakota men have been their hosts.

The 11,000 men of Llano Grande also did their best to pose as hosts to the pretty educators, but with three miles disance between them and the institute, and drills and hikes and camp regulations interfering, they did not have half the chance of the Dakotans.

Major F. S. Henry and Captain A. B. Welch were appointed as masters of entertainment, and a regimental parade and a formal guard-draw were among the features which drew the battalion of "school ma'ams" to the Dakota drill field. The school teachers cheered the soldiers and the North Dakotans cheered the teachers.

## MORE GUARDSMEN WILL BE SENT TO MEXICAN BORDER

### Men Now in Mobilization Camps Will Believe Those Who Have Been in Federal Service.

## LACK OF FUNDS MAY STOP PLANS

### Men Now in State Camps Are Equipped And Ready to go to Mexico.

Washington, Sept. 16.—All national guard organizations which have been held at state mobilization points since they were mustered into the federal service are scheduled to start for the Mexican border soon. Officials indicated today that they probably would go within two weeks.

Secretary Baker is personally supervising all guard movements. He is determined that every guard unit undergo border training before it is discharged and intends to use the troops in state camps to relieve those on the border, so that the latter may return home and be mustered out of the federal service.

One thing may alter his policy, though officials think it will not. That is the lack of funds available for transportation. If the guard movement continues it will be necessary to have an urgent deficiency appropriation bill put through as soon as congress meets in December.

Exclusive of the North Carolina organization ordered to the border today, there are 18,000 guards who have been held in their state camps. They are scattered throughout Alabama, Mississippi, Florida, Virginia, West Virginia, Wyoming, Minnesota, Michigan, District of Columbia, California, Maryland, with several small units in other states.

Reports to the war department received during the past few days show that these units have been properly equipped, recruited and prepared for duty.

## HELGESON TRIES TO DEFEND HIS EIGHT HOUR DAY VOTE

Fargo, N. D., Sept. 16.—Congressman H. T. Helgeson, just returned to the state, declared tonight in an interview here, that Wilson's failure to handle the railroad strike situation when it first came to his attention, a full year ago, and failure also of Chairman Adamson of the house interstate commerce commission was without defense. The issue that goes before the American public as a result of the passage of the Adamson bill is that of whether we shall have compulsory arbitration or compulsory legislation.

"I believe they favor compulsory arbitration," he said. "I voted for the Adamson bill because it afforded a way out of a strike and the strike would be of tremendous seriousness in the congested districts of the east, and far more serious than we of the west can appreciate. Within a week, people would have been dying of starvation and probably, when a few tens of thousands had died, we would have had civil war. And I do not speak in a figurative sense, either. Helgeson is confident of Hughes' election, declaring the candidate of the Republicans made a great in Maine.

A report that the Inter-Borough Rapid Transit company and the New York Railway company contemplated legal action against union leaders in the event of a sympathetic strike of union workers allied with the carmen, called for a statement tonight by Theodore P. Shonts, president of both companies, that "if others suffer through a sympathetic strike, it is the business of some people other than the Inter-Borough to take it up."

## 1,700 GERMANS MADE PRISONER BY THE BRITISH

### Offensive of General Haig's Forces on Somme Front Is Continued Effectively

## ATTACKS AGAINST COMBLES REPULSED

### Roumanians are Meeting With Stiff Resistance From Kaiser's Troops

London, Sept. 16.—General Haig commander of the British forces on the Somme front, reports the capture of additional German prisoners to the number of 1,700, making the total number of captures for the last two days more than 4,000.

The continuation of the battle is reported in the British official statement in "certain localities" south of the Ancre river. The British proceeded methodically with their attack, which was started on Friday, and the Germans responded with heavy counter attacks, both against the British and French.

Comparative quiet, however, reigned along the French Somme front, although the French report some progress north of Bouchavesnes and the capture of a front northeast of Bery. Large Villages Lost.

Berlin admits the loss of the large villages of Courvellette, Martinpuich and Flers, but declares that strong British attacks against Combles were ineffective. It is estimated by the Germans that 20 divisions or about 400,000 men took part in the Anglo-French drive Friday. Berlin says the British made progress and that the French attacks north of the Somme were repulsed.

Bulgarian troops, assisted by Germans and Turks, have regained from the Roumanians virtually all of that part of Dobudja taken by Roumania during the second Balkan war. Under the leadership of Field Marshall von Mackensen, the forces of the Central Powers have driven the Russians and Roumanians back to a line running from north of Silistria, on the Danube, to Mangaria, on the Black sea front. The Roumanian advance in Transylvania, Berlin reports, is meeting with stiff resistance from the Austro-German forces. Attempt of the Roumanians to cross the Alpa river, were checked at Hagitz. Dounianian positions were taken.

Italian troops have succeeded in their new offensive toward Trieste, Rome says. Several important positions were taken from the Austrians and the Italians also captured more than 1,000 prisoners.

According to the Entente allies, the advance of the French, British and Servians against the German-Bulgarian forces continues successfully. The most violent fighting is taking place west of Lake Ostro, where the Servians are said to have routed the troops of the Central Powers. The Servians have advanced northeast of Florida and have captured 32 cannon.

## INDIANS PRACTICED SEED CORN SELECTION

Jamestown, N. D., Sept. 16.—"The Indians on the Fort Berthold reservation have raised corn longer than the oldest members of the tribe can remember. One field located near the old village where the three tribes—Mandan, Gros Ventre and Arikarae—lived together for years, has been under cultivation for at least 72 years. One of the important operations in Indian corn culture is the curing of the seed. An Indian on the reservation was once asked how he tested his corn. He said that he did not test it because it was good and would grow."

These are just timely sentences or excerpts from a communication being sent out by E. W. Hall, county agent of Williams county, urging early seed corn selection and most important that dry corn be selected.

"The Mandan Indians once had a 'keeper of corn,' states the communication. A daughter of their former chief holds the office at present on the reservation and it is her sacred duty to preserve the seed from year to year. She cultivates her field very faithfully and cures the seed and preserves it very carefully. This is a splendid example to the white man."

### All Villa Followers Captured Immediately Put to Death; General Trezino Wounded in the Arm

## SPECIAL TO THE TRIBUNE.

El Paso, Texas, Sept. 16.—Villa attacked Chihuahua City today with 600 men, penetrated part of the city but was driven out with heavy losses by the Constitutional army. The captured Villa followers were immediately put to death. General Trezino was wounded in the arm. This news was received in Juarez late tonight immediately upon the establishment of telegraphic communications with Chihuahua. During the afternoon the operator at the station of Sauz, on the line between the Mexican Federal railway, 25 miles south of Chihuahua, reported that cannonading could be heard. Dispatches from Chihuahua received here yesterday reported that a feature of today's Hidalgo gay parade would be 24 field guns. General Trezino said last week that scouts, who had interviewed ranchers on Villa's line of march, learned of a boast by Villa that he would celebrate Independence Day at Chihuahua.

The hour that the attack was made is not known here, as tonight's dispatch to the Mexican officials in Juarez lacked details. It told briefly of the repulse of Villa's 600 men, the capture of those who penetrated the city and the wounding of General Trezino.
