#### SUGGEST ANOTHER DIVISION PLAN

Another county division plan has been proposed for Morton county. This provides for its division along lines favored by the towns to the west of Mandan, and it is proposed to create Washington county out of the west section. This division plan leaves Mandan the county seat of a 27-township county. All the rest of the county is to be thrown into Washington county, and the parties pushing this plan are holding out inducements to the people of the southwest section of a new county for them, to be created two years hence, perhaps.
