

BIRTH CONTROL IS RACE PRESERVATION

Dr. S. A. Knopf Gives Interesting Address at Big Meeting of Medics

URGES ESTABLISHMENT OF FREE CLINICS

Cincinnati, O., Oct. 28.—"Judicious birth control is not race suicide, but race preservation," said Dr. S. Adolphus Knopf, professor of medicine at the New York Post Graduate Medical School and Hospital, in an address here Friday before the American Public Health Association. Vigorously urging repeal of federal and state laws prohibiting circulation of information as to birth control, Dr. Knopf pleaded for the establishment of free clinics directed by regular physicians of high repute, paid by city or state, who would be competent to give information as to birth limitations in cases where they deemed such instruction advisable.

At the conclusion of his paper Dr. Knopf gave the answers to a number of letters of inquiry sent to leading clergymen, jurists, sociologists and political economists and their opinions were, he said almost unanimous with those expressed by him.

Dr. Knopf pointed out that in the

IS YOUR HEALTH WORTH \$5.00?

Woman Tells How Lydia E. Pinkham's Vegetable Compound Restored Her Health.

Lima, Ohio.—"I was all broken down in health from a displacement. One of my

lady friends came to see me and she advised me to commence taking Lydia E. Pinkham's Vegetable Compound and to use Lydia E. Pinkham's Sanative Wash. I began taking your remedies and took \$5.00 worth and in two months was a well woman after three doctors said I never would stand up straight again. I was a midwife for seven years and I recommended the Vegetable Compound to every woman to take before birth and afterwards, and they all got along so nicely that I surely is a godsend to suffering women. If women wish to write to me I will be delighted to answer them."

—Mrs. JENNIE MOYER, 222 E. North St., Lima, Ohio.

Women who suffer from displacement, weakness, irregularities, nervousness, backache or bearing-down pains, need the tonic-strengthening properties of the roots and herbs contained in Lydia E. Pinkham's Vegetable Compound.

If you want special advice, write to Lydia E. Pinkham Medicine Co. (Incl. 10¢ seal), Lynn, Mass.

WOMAN TO BE IMPORTANT WITNESS IN MISSOURI MURDER MYSTERY CASE

Mrs. DAGMAR KRUCKER

Mrs. Dagmar Krucker is expected to be an important witness in the case of Oscar McDaniels, prosecuting attorney of Buchanan, Mo., charged with the murder of his wife, at their St. Joseph, Mo., home.

Mrs. Krucker was divorced the same day Mrs. McDaniels was found dead in her home. She is said to be a close friend of McDaniels.

McDaniels is busy fighting his case by day and taking the stump every night in his campaign for re-election as county prosecutor.

Bart M. Lockwood, who was a bosom friend of McDaniels while studying law, is the special prosecutor conducting the state's case against McDaniels.

majority of cases the larger the family the more congested will be the quarters they live in and the more unsanitary the environment.

"With the increase of the family," he said, "there is rarely, if ever, a corresponding increase of the earnings of the father or mother, and as a result, malnutrition and insufficient clothing enter as factors to predispose to tuberculosis and other diseases. In the larger families it is usually the latter born who contract tuberculosis most frequently. Fifty thousand children die annually from tuberculosis in the United States, and the morbidity and mortality of this disease is highest among the poor where the number of children is greatest."

"The economic loss to families and communities by the deaths of wives and children because of transmitted infectious diseases, cardiac and renal affections, to which has been added excessive child-bearing, goes into millions. These vast sums and untold physical sufferings could have been saved by judicious birth control, as exercised in Holland, where, since the establishment of birth control clinics, the population has increased in physical stature and well-being. The average birth rate in three principal cities of Holland was 33.7 per thousand in 1881, when birth control clinics were started. In 1912 it had fallen to 25.3 per thousand. The general death rate, however, had dropped during the same period from 24.2 to 11.1 per thousand."

The records of the charity organizations prove that, as a rule, the larger the families are that apply for relief, the greater is their distress, according to Dr. Knopf. The larger the family of the poor, the more there is child labor, the more disruption and irregularity, and the more frequently one finds a lower standard of life and morals in general, he said. In Holland, among families of the laboring class, as a better personal and general hygiene and a finer moral and intellectual development since the establishment of birth control clinics, he asserted, young people marry earlier, and illegitimacy, venereal diseases and prostitution have become more and more rare.

Dr. Knopf said that as a result of deep study he believes in birth control based on medical, sanitary, moral and economic reasons. He believes in it, he declared, because with aid of it man and woman could decide when to have a child, could work and prepare for its arrival, welcome it as the fulfillment of their hearts' desire, and watch over it tenderly, care for and educate it, and raise it to be happy, healthy and strong in mind, body and soul.

Dr. Knopf is convinced, he said, that by following the example of Holland the life span of the American people would be lengthened.

PILGRIMAGE OF DIMES BACK FROM MILL CITY; LOCAL WOMEN VICTIMS

Many little dimes are coming back to Bismarck women from Minneapolis—so many in fact that they reach a total of many dollars. These dimes are a portion of a league of dimes—that has passed the 30,000 a day mark—which is swamping the Minneapolis postoffice due to the success of a "chain letter petticoat" plan of the mythical National Mail Order Brokerage exchange, the operators of which left that city for the "tail and uncut" before they had a chance to reap the harvest they had planted.

Many women of Bismarck are ten cents richer because the postal authorities are on the job guarding the interests of the public and little ten-cent pieces are arriving by every mail with a "fist" stamped on the face. It's an index finger pointing to the return card in the corner and the legend "return to writer."

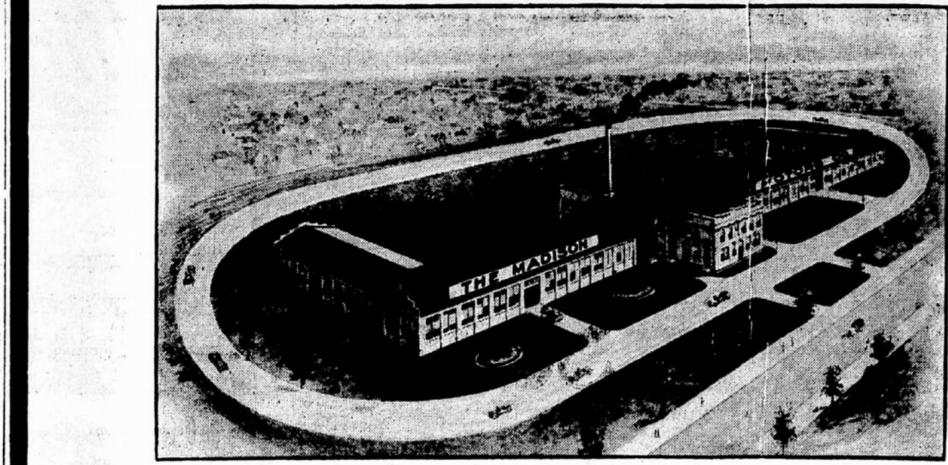

The Minneapolis postal authorities are facing a serious problem and the stream of dimes is swelling daily. At the present more than 285,000 dimes have been received at the office there, enclosed in letters, 60 per cent of which bear return cards and 40 per cent of which will have to be sent to the dead letter office before they can be sent back. The cost of handling these letters in the Minneapolis office is estimated at \$50 a day for clerk hire.

Now all this came about because a Minneapolis "concern," six weeks ago started a "chain letter," in which it promises each woman a silk petticoat for 10 cents if she would send copies of the letter to ten of her friends for "advertising purposes." The first woman did send ten letters to friends and then sent a dime to the company at Minneapolis. The ten women wrote to 100 women and sent in 10 dimes. The 100 women wrote 1,000 letters and sent in 100 dimes. And so on indefinitely.

The crop became so great that the "officers" and clerks of the brokerage concern had to give up the harvest and hastily disappeared. They could

not stop the crop of dimes from growing. Neither could the government do anything to hold back the deluge, and it is still growing.

While numerous Bismarck women are getting their double dimes back, thousands of women in other parts of the country are still sending them in to Minneapolis, and the real crop from the more distant states has just begun to arrive at the office in that city.

The New Home of the

Madison Motor Cars

at Anderson, Indiana

The Madison Motors Company has recently increased its capitalization from \$250,000 to \$2,000,000

DOES THIS MEAN ANYTHING TO YOU, when you consider what a corporation this size can do in the manufacture of motor cars?

| Standard Seven Passenger | \$1150 | De Luxe Seven Passenger | \$1250 |

SPECIFICATIONS

MOTOR—RUTENBER high speed type, 40 H. P. six cylinder motor L head, cast en bloc, 3-1-8 inch bore, 5 inch stroke, Cylinders and upper crank case of special high grade iron, valves enclosed. Push rods and valve lifters of the type accessible for easy adjustment.

WHEEL BASE—7 Pass., 124 inches; 5 Pass., 115 inches.

STARTER—The starter consists of the Remy starting motor in connection with the Bendix drive which automatically meshes the drive pinion with the engine fly wheel when starter switch is closed and automatically disengages when the engine runs under its own power.

LIGHTING—Remy system, two bright headlights, two dim lights, tail and dash light.

IGNITION—Remy distributor is used, being mounted directly on the generator and is driven through a worm gear from generator to shaft. Willard Storage Batteries are used.

CARBURETOR—Rayfield type "M" having automatic air intake and cold weather dash adjustment.

TRANSMISSION—Selective gear; three speeds forward, one reverse.

REAR AXLE—Pressed steel full floating with Brown-Lipe nickel steel spiral cut gears making an exceptionally quiet operating axle. Large annular bearings are used.

COOLING—Modified "V" type cellular radiator in connection with centrifugal water pump.

DRIVE—Hotchkiss type drive through double universal dust-proof joints.

STEERING—T. W. Warner's irreversible worm and full gear 18-in. corrugated rim. Right or left drive optional.

GASOLINE FEED—Stewart-Warner Vacuum system, 16 Gallon tank with gauge, one rear.

WHEELS—Artillery type 34x4. RIMS—Demountable, one extra.

TIRES—Goodyear 34x4, all weather, non-skid on rear. Clincher tires if specified.

SPRINGS—English Manganese double heat treated steel. Front, semi-elliptic; Rear, 3-4 elliptic; underslung.

EQUIPMENT—One man top, made of famous "Neverleek" guaranteed material. Electric horn; Stewart-Warner speedometer; ventilating and rain vision wind shield; tire carrier; foot antirub rail; tools; pump; jack; and trouble lamp.

WE WILL BE GLAD TO DEMONSTRATE TO YOU AT ANY TIME—PHONE OR WRITE

We have some territory open and can give very liberal contracts to dealers.

Western Vaudeville Road Show No. 2

Williston, N. D., Oct. 28.—Farmers of Williams county, staunch converts to the cause of better farming, will hold a big convention in Williston, Dec. 12 to 15, the purpose being to review progress of the last year, and map plans for work during the coming year.

Through the county agent, work conducted in Williams, this county, bids fair to become one of the greatest mixed farming districts in the state, rapid progress already being made along that line.

WILLISTON HOST TO FARMERS

Practical farmers, right off the sod, and students in agricultural problems, will be speakers at the conference. Another feature will be the department given over to mutual elevator company owners.

MOTT MAN BUYS SHOP
Ed. Bannon of Mott, the new owner of the McKenzie barber shop, is

now on the job. Mr. Bannon is a pioneer Mottite, one of the men who assisted in making the spot famous. He already has many friends in the city, and it is said of him that he has never yet cut a friend.
