WILL WAIT FOR WILSON'S ADVICE

Washington, Dec. 6.—Congressional action upon food price legislation will await the recommendation of President Wilson and the cabinet. Such executive recommendations will be based upon reports from various government departments, some of which the president is receiving already. It is stated authoritatively that this plan will receive every ounce of support from the Democratic house and senate leaders.

ANTON GIEGER DEAD AT ODENSE

Anton Geiger, 65 years old, resident of Morton county since 1900, passed away at his farm home at Odense yesterday afternoon, at 1 o'clock, from gangrene poisoning. He was born in Russia, Nov. 5, 1851, and came to this locality in 1900, from the old country. He settled on a claim in the Odense district, where he had since resided. He leaves to mourn his loss six sons and one daughter, all of whom reside in the Odense district. Besides his children and the widow, he leaves two sisters, Mrs. Adam Wetstein of this city and Mrs. Jacob Renner of Richardson. The funeral will be held tomorrow, from the Catholic church at Odense.

"TEACHERAGE" FEMINE FOR TEACHER, HER IDEA

North Dakota gradually is becoming accustomed to the "teacherage," and it is clamoring for more and more of them. There remain a few, however, to whom the "teacherage" is a mystery. A young school ma'am who sent in her examination papers this week referred to the teacherage as "a great factor in the community because of her intimacy with the children and her supposed ability in leadership." Evidently, she had concluded that a teacherage was a teacher of the feminine gender. Others under the impression that, horror of horrors! the term teacherage refers to teachers who have eached the sere and yellow stage. As a matter of fact, a teacherage in pedagogy is as a parsonage in

GREATEST HORDE OF GOLD IN THE WORLD'S HISTORY

Washington, Dec. 6.—Gold coin and bullion to the amount of \$2,700,136,970 was held in the United States on Nov. 1, 1916, shows the annual report of Secretary of the Treasury McAdoo, submitted to congress today.

The secretary makes an earnest recommendation for the extension of another year of the bureau of war risk insurance, which expires by limitation Sept. 2, 1917, is made by the secretary. The bureau had written up to November 17, 1,684 policies covering a total insurance of \$163,395,637, and the surplus of premiums over losses paid amounted to \$2,367,23. The losses to date have aggregated \$823,924, from which salvage of \$59,055 has been recovered. The net amount at risk Nov. 17 was \$14,610,345.

Tribute to Federal Reserve. High tribute is paid in the report to the federal reserve system, without which, McAdoo asserts, our great prosperity could not exist.

Unestimable benefits, the report predicts, will come to the farmer through the federal farm loan act. Serious defects in the Harrison narcotic (drug) law are noted and remedial legislation suggested.

Against Omnibus Bill. The secretary again expresses the conviction that the omnibus method of constructing public buildings has resulted in the last 5 years in erection of many public buildings in small towns whose importance has not justified the expenditure.

ANOTHER FAMOUS CUB MACHINE COG RELEASED

Chicago, Dec. 6.—With the unconditional release of Montecel Brown, the three pitching marvel, another of the famous old Cub machine that swept everything before it, has passed. In his prime Brown was one of baseball's greatest hurlers and was as much beloved by fans as Christy Mathewson. President Weeghman of the Cubs made Brown's release unconditional, leaving him free to go where he chooses. While regretting the necessity of releasing Brown, Weeghman explained today that it is necessary to make a change in the pitching staff in order to give fans here a pennant winning team next season. With the exceptions of two seasons,
