READERS' COLUMN

THE LAST WORD. Napoleon, N. D., Feb. 28, '17. Editor The Bismarck Tribune, Bismarck, N. Dak. Dear Sir: I wish to acknowledge the courtesy of The Tribune in replying to my questions which were submitted to it in a letter which was published in a previous issue. I understand your viewpoint, yet you haven't convinced me that your answers are logical because they are conclusions drawn from a result, the cause of which is assumed as a fact, but not established as a fact. I do not agree with you as to the reason of, nor to our obligations involved in the result of President Wilson's emphatic endorsement at the polls last November; as to the reason of the endorsement I do not say that my conclusions are any more substantial than yours are, but yet I believe they are somewhat tenable. You must remember that our people had other consequences to consider than Wilson and his foreign policy. You must remember that the people had only two chances in the presidential issue, so it was either one or the other. It was Wilson with his un-American policy, or Hughes with his still more un-American policy with the renegade Roosevelt to boot. The result of last November's election was not an endorsement of President Wilson's foreign policy but it was a repudiation of the Roosevelt clique. As a general rule the common people do not pay much attention to campaign orators unless it is to consider which of them are preaching the biggest lies. The people seemed to take it for granted that the president had kept the country out of war and that was about as much as they could set about as the truth. As to our obligations in backing the president to the limit because we elected him, he has already reached the limit, and bumped up against our constitution. We don't elect a president to make an absolute dictator out of him; if we do, then we should dispose of our congress and our constitution, because if we are to have absolutism, we should not be masquerading in the guise of a republic. Whenever our congress has enough American snap and backbone about it to outline a policy that is strictly neutral; a policy that will demand protection of the inalienable rights of all our citizens and not a certain class of them; a policy that will demand the observation of international law with equal doggedness, of all beligerents, and not just one of them, and hand it over to our president, with undisguised admonition towards all concerned, then the whole American nation, except the real traitors, will be right at his back and we'll fight a dozen wars if it is necessary, and without any reticendum either. That is what the American people want, a fair fight or none.

HOSTILE INTENT.

President Wilson has revealed to the nation the urgency of his request for power and full authority to defend the Republic. Germany's proposal of an alliance with Japan and Mexico is hostile. Those who have hesitated in their loyalty should feel their responsibilities to this nation quickened. Whether Germany plans, directly or indirectly, the destruction of the Republic is immaterial; her motive is bared. Wilson has taken Congress into his complete confidence, as well as the nation. Surely he has quieted his critics! There is nothing left now but to stand by him and exert every power in the defense of the Republic and in the preservation of democracy upon the American continent against the machinations of Prussian autocracy.

NEEDS CONGRESS.

President Wilson's determination not to call an extra session is largely responsible for the dilatory tactics of Congress. With a crisis impending, he needs the advice, as well as the check the legislative body affords. The power that holds both the sword and the purse should remain in Washington. It would seem at a critical time like this, that the duty of Congress is to remain at the seat of government, prepared to act as emergency dictates. President Wilson should be clothed with power to protect the rights and honor of the nation, but he needs Congress to concentrate quickly behind him all factions and all parties if the worst comes to happen.

ANOTHER INVESTIGATION.

We are to have one more investigation of old high cost of living, and the house of representatives has appropriated \$400,000 to make it. At the news one long groan of inexpressible weariness will resound from ocean to ocean in a much-tried country. If there is anything in the world we don't seem to need it is any more expert conversation on this subject. It has been investigated to death. What we need now is not any more seven-volume reports, but some kind of action. Nevertheless, let us try to cheer up. Further waggling of the industrious jaw will not bring down the price of potatoes, but there is just a chance that this time the investigators may quit sand dancing around the fringes of the subject and take a slant at the nub. Floyd Gibbons, the Chicago Tribune reporter, who was on the Laconia, merely emphasized the fact that it is the duty of all good newspaper men "to be on the spot when hell breaks loose."

WITH THE EDITORS

MULTIPLYING MAN POWER. (From the Prairie Farmer) The increased scarcity of hired men makes it necessary for each man on the farm to work more land. The increased demand for farm products makes it necessary for him to farm his land better. There is only one way that he can do these two things, and that is by using more and larger machinery. Where he has been driving four he will have to drive four or five. Where he has been driving four he will have to drive six or eight. In many cases he will have to bring still more power under his control by using a tractor. No farmer can now afford to pump water or shell corn by hand. These and other tasks can be done by machinery, and machinery will have to do them. The farmer must buy machinery judiciously, for he can easily bankrupt himself by buying what he does not need. But whenever a machine can be made to do work that a man has been doing before, or wherever a machine will enable one man to do the work of two, that machine is a profitable part of the farm equipment. American farmers lead the world in the use of machinery. That is one of the principal reasons why they lead the world in prosperity. We must make a still wider use of machinery to meet the needs of the future, for only in this way can we multiply the work that one man can do, and thus solve a large part of the farm labor problem.

Prepare This for a Bad Cough-It's Fine

Cheaply and Easily Made, but Does the Work Quickly. The finest cough syrup that money can buy, costing about one-fifth as much as ready-made preparations, can easily be made up at home. The way it takes hold and conquers distressing coughs, throat and chest colds will really make you enthusiastic about it. Any druggist can supply you with 2 1/2 ounces of Pinex (50 cents worth). Pour this into a pint bottle and fill the bottle with plain granulated sugar syrup. Shake thoroughly and it is ready for use. The total cost is about 54 cents and gives you a full pint of a family supply of a most effective, pleasant tasting remedy. It keeps perfectly. It's truly astonishing how quickly it penetrates through every air passage of the throat and lungs-loosens and raises the phlegm, soothes and heals the inflamed or swollen throat membranes, and gradually but surely the annoying throat tickle and draughted cough will disappear entirely. Nothing better for bronchitis, spasmodic croup, whooping cough or bronchial asthma. Pinex is a special and highly concentrated compound of genuine Norway pine extract, combined with guaiacol and is known the world over for its prompt healing effect on the throat membranes. Avoid disappointment by asking your druggist for "2 1/2 ounces of Pinex" with full directions and don't accept anything else. A guarantee of absolute satisfaction or money promptly refunded goes with this preparation. The Pinex Co., Ft. Wayne, Ind.

Legislative Routine

IN THE SENATE.

House Bill 305, Hendrickson-Concurrent resolution referred by Fourteenth legislative assembly for amendment to constitution, requiring four-fifths decision from supreme court to hold law unconstitutional. H. B. 280, O'Connor-Granting supreme court power to prescribe rules for issuance of writs of error in inferior courts. H. B. 259, Hoghaug-To legalize execution and acknowledgment of certain deeds, mortgages and other instruments, by executors, administrators, deputies, officers or attorneys in fact, and making same, or certified copies thereof, admissible in evidence. H. B. 126, Tennesson-Defining swindling, through cards, gambling devices, sleight of hand, etc., and requiring conductors, hotel keepers, etc., to eject any person known or believed to be a three-card monte man or swindler. H. E. 878, Geiger-Making perpetual all county mutual insurance companies now organized or hereafter organized. (Laid over until today.) H. B. 154, Magnuson-Providing that domestic insurance companies may pay dividends only from surplus profits and that such profits shall be determined after a sum equal to 40 per cent of the amount of premiums on all unexpiring risks has been reserved. H. B. 292, Geiger-Providing that in addition to all the purposes already designated in Sec. 4836, revised codes 1913, insurance companies may be organized for "insurance upon automobiles, covering in one policy or in separate policies fire, theft, property damage, liability and collision insurance."

statement of corporations failing to report to secretary of state. H. E. 284, Kelly-Regarding that motor vehicles be equipped with "non-glare" lamps. H. B. 248-Regarding to transient merchants and peddlers. H. B. 362, Blanchard-Amending and re-enacting Section of compiled laws of 1913 prescribing manner of payment of appropriation for state educational institutions for maintenance and other purposes. H. B. 351, Blanchard-Regarding to construction of spurs to coal mines located more than two miles from the nearest side-track, providing such mines give a bond to ship within one year after completion of spur not less than 100 cars of coal. H. B. 184, Traiter-Regulating shipment of cases or boxes containing bottles; requiring agent receiving same for shipment to note any breakage apparent, on bill of lading and freight receipt. H. B. 101, Liederbach-Creating Klidder Mountain Park commission to investigate advisability and cost of purchase by state or federal government of Klidder mountains, in Dunn county, for purpose of establishing there park and game and fish preserve. H. B. 428, Lazier-Providing that no territory more than three miles distant from the central school shall be attached to any school district, except on petition of two-thirds of the school voters residing in the territory which is at a greater distance than three miles. H. B. 315, Larson-Providing for the establishment of game preserves for the domestication and propagation of deer, elk and antelope; providing that no animals now running wild in this state shall be captured or placed in such game preserve, except with the express permission of the state game and fish commission. Animals in such private game preserve shall not be subject to the game laws of the state. H. B. 269, Lazier-Empowering game and fish commission may issue permits to breed or domesticate mink, muskrat, skunk and raccoon. H. B. 233, House Appropriations Committee-Appropriating \$30,000 to reimburse owners of animals slain for bovine tuberculosis. H. B. 213, Appropriations-Appropriating \$3,000 for benefit of North Dakota Firemen's association, to assist in holding annual tournaments. H. B. 404, Marshall-Appropriating \$300 for improvement of White Stone battlefield. H. B. 241, Appropriations-Appropriating for current expenses of and permanent improvements to state reform school at Mandan. H. E. 208, Appropriations-Appropriating \$250 to reimburse Alfonso Tolley for lands used by state reform school at Mandan. H. B. 206, Appropriations-Appropriating \$62,500 for current and contingent expenses of and making permanent improvements and additions to state hospital for the insane. H. B. 348, Appropriations-Making appropriation to carry state tuberculosis sanatorium over to July 1, 1917, carrying H. C. of L. emergency. H. B. 304, Appropriations-Providing funds for necessary equipment and tests of clay at school of mines, carrying emergency. H. B. 236, Appropriations-Making an appropriation for purpose of encouraging immigration. H. B. 292, Appropriations-Making appropriation for compensation and expenses of board of trustees of state livestock sanitary board. H. B. 217, Appropriations-Making appropriation for institution for the feeble-minded at Grafton. H. B. 218, Appropriations-Making appropriation for maintenance, improvement and repairs at state tuberculosis sanatorium at Donahut. H. E. 77, Mackoff-Providing for construction of cattleways, was defeated on third reading. H. B. 191, Stinger-Providing for appraisal and sale of improvements on leased school lands which are offered for sale. H. B. 245. H. B. 119, Mees-Prescribing powers and duties of state board of equalization. H. B. 125, Renaud-Regarding to redemption of lands sold for taxes. H. B. 181, McManus-Regarding to duty of county auditor and requirements of transfer of real property. H. B. 120, Mees-Creating a state board of levy and defining its powers and duties. H. E. 123, Bailey-Regulating and licensing manufacture and sale of patent and proprietary medicines. H. E. 325, Olson of Bowman-Abolishing office of fire marshal as distinct department and conferring duties on deputy in office of commissioner of insurance. H. B. 225, Appropriations-Appropriating \$2,000 for expenses of state budget board. H. B. 415. H. B. 356, Whipple, Hagen and Hoghaug-Appropriating \$15,000 to finance an investigation by the governor of the location of a state-owned terminal elevator, saw mill and packing plant within the state, and the cost of buildings and sites. H. B. 222, Appropriations-Providing for transportation of prisoners and insane persons. H. B. 146, Erb-Creating office of president emeritus of the agricultural college and electing John H. Worst thereto. H. B. 147, Harding-Regarding to office of superintendent of public instruction; defining qualifications therefor. H. B. 288, Walton-To provide for the issuance of warehouse certificates on packing house products. Senate Bills Returned. Chief Clerk A. E. Bowen yesterday returned from the house, senate bills indefinitely postponed as follows: 307, 215, 292, 114, 47, 159, 258, 73, 268, 167, 101, 219, 251, 106, 179, 374, 100, 143, 123, 54, 265, 247, 204, 71, 38, 292, 196, 187, 223, 58, 52, 109, 24, 4, 26, 27, 29, 32, 60 and 61, forty in all. The house messaged to the senate the following senate bills, which had been passed unchanged: 132, 175, 204, 239, 108, 152, 139, 250, 177, 142, 324, 193, 209, 235, 317. Senate bills 137, Sunday baseball;

The Girl Whose Smile is Known in Every Home. See June at the Orpheum Tonight in "A Modern Cinderella."

MANDAN NEWS

Mesdames O. M. Larson and J. F. Williams entertain the members of the Presbyterian aid at the Larson home this afternoon.

Mrs. W. G. Hoffner of Solen, who had been a patient in the Mandan hospital a few days, was discharged from that institution yesterday afternoon and last evening was taken to her home near Solen. Mr. Hoffner arrived on the Mott train yesterday afternoon to take his wife home.

Mrs. G. A. Wolf, wife of G. A. Wolf, popular Mandan blacksmith, underwent a very serious operation at the Mandan hospital yesterday morning.

Martin Klein, postmaster and prominent business man of St. Anthony was in Mandan yesterday and this morning on business. He returned this afternoon.

Miss Laurette Backus of Fort Rice left yesterday morning for Stevens county, Wis., where she will attend college.

Mrs. Jacob Heinert, who was a patient in the Mandan hospital for several days, was discharged this morning.

The Finnegan Motor company has received a carload of Velie automobiles.

Conductor Ed. Nichols, who has been attending the legislature in the interest of the O. R. C., passed through Mandan yesterday enroute to Glendive to resume his duties as passenger conductor on the Northern Pacific between Glendive and Billings.

Miss Mattie Center of the Flasher district was in Mandan a few days, the guest of her sister, Miss Helen, who is attending high school here.

Mrs. V. J. LaRose of Bismarck was in Mandan Sunday, the guest of the Misses Florence and Cecelia Connolly.

Steve Birch, well-known Fargo contractor, was in Mandan yesterday on a short business mission.

Miss Julia Caddell of Fort Rice, was in Mandan Sunday visiting with her brother, Cornelius.

Mrs. H. O. Waldo was hostess this afternoon to the members of the Episcopal guild.

WILSON RETURNS. Robert Wilson, second lieutenant for Co. F, returned to Mandan Tuesday night on No. 1 from Washington, D. C., where he has been for several weeks looking after affairs in connection with his position at the Northern Great Plains Field station as the head of the shelterbelt work. Mr. Wilson left Mandan for the border with the Mandan militia over seven months ago, and while there did excellent work as a lieutenant. He received considerable recognition from army officers, and was very popular among the members of his own company. Mr. Wilson says he is glad to be home and at his desk again ready for a new year's business. B. E. Cobb, also employed in the shelterbelt department of the Northern Great Plains Field station, returned Tuesday night on No. 1 from Washington, D. C., where he has been for several weeks.

WILL ENTERTAIN. Mrs. W. M. Thompson will entertain the members of the Mandan Reading club at her home in Bismarck a week from today, Thursday, March 8. Mrs. Thompson joined the Mandan Reading club while she resided in this city and after moving to Bismarck she still retained her membership. The members of the Mandan Reading club will go to Bismarck Thursday afternoon on No. 8 and remain until No. 1 that evening.

McKAIG RETURNS. Ray McKaig, master of the state grangers, returned recently from Colorado, Idaho and other middlewestern states, where he has been making a series of speeches in the interest of the Nonpartisan league movement. In an interview with Mr. McKaig yesterday, he stated that the farmers in the states in which he spoke are greatly enthused with the farmers' movement. And when asked how they liked the way business was transacted at the present session of the legislature, Mr. McKaig replied that the only thing the farmers in these states have to complain of is that the only thing the matter with the present personnel of the North Dakota legislature is that the league does not control the senate. Mr. McKaig says that every place he has been to speak on the farmers' movement he has found the farmers taking a great interest in the North Dakota legislature, and its work. He predicts that it will not be a matter of just a few short years, but more than three, that the farmers will be thoroughly organized in every state in the middle-west.

CADDELL TO LAND "PLUM" Walter Caddell, enthusiastic Nonpartisan league worker, and farmer of the Fort Rice locality, is among the fortunate ones to be recognized by the official arena of the state, and has been given a real "plum." This information was given to a reporter yesterday afternoon by one of the leading Nonpartisan workers of the state. The appointive position which Mr. Caddell has been given has not been announced yet but the informant declares it will be known in the next week.

INTERESTED IN FOREIGNERS. Superintendent H. K. Jensen of the Morton county schools is greatly interested in the school for foreigners and today announced his intention of having rural school teachers give a little of their time to teaching foreigners to read, write and cipher. It is believed that this work can be successfully carried on in the rural schools on Saturdays.

IMPORTANT MEETING. Next Monday evening an important meeting of the city board of education will be held, at which time the annual election of teachers will be held. It is understood that most of the members of the faculty in the three city schools have applied for positions in the local school the ensuing term.

GUEST OF HONOR. Wednesday evening a delightful social function was held at the home of Mrs. A. R. Glasmann of Second avenue northeast, at which time Miss Barbara Barris, chief operator of the local telephone exchange, was the guest of honor at a parcel shower given in honor of her approaching marriage to E. H. Roby, cashier of the Bank of Golden Valley. The party was given by the telephone girls of the Mandan exchange. Refreshments were served and music and games furnished the evening's diversion.

An important meeting of the Mandan Athletic club was held last Sunday afternoon in the M. A. C. hall, at which time its regular annual meeting was held. Election of officers took place and annual reports were read by the secretary and the treasurer. The announcement of the result of the meeting was not announced by the officers of the club, however, until yesterday morning. The officers are as follows: President, T. G. C. Kennedy; vice president, Wm. Sullivan; financial secretary, Ed. Tobin; recording secretary, R. W. Kinshella; treasurer, H. H. Williams; trustees, James E. Regan, L. S. Royer and Otto Bauer.

LINGERING CRUCIFIXION. "I know that county of Schuykill, Pa. I lived there as a boy. A youngster there has two chances to work-down in the ground where it is almost criminal to send a child, or in the breakers where I worked as a boy. It is not living to work in those breakers; it is a slow lingering crucifixion. Talk of the mothers! 'Good God! Hasn't the State of Pennsylvania heart enough to provide for these mothers without depriving the children of their chance in the world.' -Representative Lewis of Maryland, chairman of the labor committee, in a speech in the house of representatives.

See William Farnum in "The Price of Silence" at the Grand theater tonight and see how the question is solved. Every legislature member should see this powerful photodrama on the question of child labor. Crowded houses was the last night of the Orpheum and Bismarck theaters to see this remarkable picture. Your last chance to see it will be tonight at the Grand theater at 7:30 and 9 o'clock.

INCORPORATION OF NEW ENGINEERING FIRM IS OF INTEREST LOCALLY. Local interest attaches to an announcement just received from Cleveland of the incorporation of the Watson Engineering company. Wilbur J. Watson, president and chief engineer, spent several days in Bismarck and Mandan last fall, at the request of the Bismarck and Mandan commercial clubs, in inspecting the proposed site for the wagon bridge spanning the Missouri river. Mr. Watson was engaged to return from San Francisco, where his plans for a \$21,000,000 bridge spanning the bay to Oakland, had been accepted. He estimated roughly that a bridge across the Missouri at this point capable of sustaining ordinary interurban traffic, including switching of freight cars, would run between \$250,000 and \$300,000. In the new organization, Mr. Watson, who has built some of the most famous bridges in the middle west, has associated with him prominent engineers from all parts of the country.

BISMARCK ASTONISHED BY SIMPLE MIXTURE. Bismarck people are astonished at the INSTANT action of simple buckthorn bark, glycerine, etc., as mixed in Adler-Ika. ONE SPOONFUL relieves almost ANY CASE constipation, sour stomach, ANY CASE Adier-Ika acts on BOTH lower and upper bowel, a few doses often relieve or prevent appendicitis. A short treatment helps chronic stomach troubles.

Sure! High Heels Cause Corns But Who Cares Now Because style decrees that women crowd and buckle up their tender toes in high heel footwear they suffer from corns, then they cut and trim at these painful pests which merely makes the corn grow hard. This suicidal habit may cause lockjaw and women are warned to stop it. A few drops of a drug called freeze-one applied directly upon a sore corn gives quick relief and soon the entire corn, root and all, lifts out without pain. Ask the drug store man for a quarter of an ounce of freeze-one, which costs very little but is sufficient to remove every hard or soft corn or callus from one's feet. This drug is an ether compound and aries in a moment and simply shrivels up the corn without inflaming or even irritating the surrounding tissue or skin. Clip this out and pin on your wife's dresser.

NEGROES OF CITY ARE FORMING A BAPTIST CHURCH. As a result of a two weeks' revival services conducted by Rev. Mrs. O. S. Snelgro of Los Angeles, Cal., in the home of Mrs. Spriggs, 310 Eighth street, the colored people of the city have organized a church membership of 18 and have already paid \$100 down on a piece of property in Eighth street. G. H. Coleman, W. A. Marshall, Thomas Lee and Henry Oliver have been elected trustees and work of soliciting funds to pay for the property, which will be used as a church, is now under way. The church will be known as the Second Baptist or Union church. When they have raised sufficient money to remodel the house on the property services will be held in it. Rev. Mrs. Snelgro will remain in the city and conduct meetings until the organization is more perfected. As the negro population is small in the city they are asking for donations outside of their people and have received a number of substantial ones. Mrs. Laura Warren, Mrs. Jessie Coleman, G. H. Coleman, Henry Oliver, William Marshall, Mrs. John Millet, Mrs. John Spriggs and Thomas Lee have been appointed to solicit funds. The following donations have been given: Senator C. D. King \$20.00. Mr. Mason, secretary to the governor 10.00. S. C. Thompson, messenger to the governor 5.00. Lee Bell 5.00. G. H. Coleman 10.00. Charles Wright 10.00. Henry Oliver 5.00. Mrs. Laura Warren 5.00. Mrs. J. Millet 5.00. Mrs. Jessie Coleman 5.00. Mrs. John Spriggs 2.00.

SENATE CONFIRMS TWO SETS OF APPOINTMENTS WITHOUT ONE WRIGGLE. Without a wriggle, the senate yesterday confirmed two sets of appointments nominated by Governor Frazier - the very first concession which has been made by the senate to the chief executive during the present session. The appointments were: A. C. Crane, president of the Minot normal school; President Fred G. Smith of the Bottineau school of forestry; C. T. Cavette of Lisbon, superintendent of Ramsey county schools, and Dr. A. A. Whittemore of Bowman county, two members of the state board of education, of which President McVey of the state university, Dr. Ladd of the agricultural college, State Superintendent of Public Instruction Macdonald, State Inspector of Rural Schools Ed. Erickson of Grafton and State High School Inspector E. B. Edwards of Jamestown are ex-officio members; and Dr. C. J. McGurran of Devils Lake to be president of the state board of health. The confirmation of these appointments was announced in open session yesterday afternoon.

ARE YOU BEING SLOWLY POISONED? The most eminent physicians recognize that uric acid stored up in the system is the cause of gout and rheumatism, that this uric acid poison is deposited in the joints, muscles, or nerve-tissue. By experimenting in Buffalo, N. Y., Dr. Pierce discovered a combination of native remedies that he called Anuric, which drives out the uric acid from the system, and in this way the pain, swelling and inflammation subsides. If you are a sufferer from rheumatism, backache, pain here or there, you can obtain Anuric (double strength) at any drug store and get relief from the pains and ills brought about by uric acid. Swollen hands, ankles, feet are due to a dropsical condition, often caused by disordered kidneys. Naturally when the kidneys are deranged the blood is filled with poisonous uric acid, which settles in the tissues of the feet, ankles, wrists and backs as uratic salts; or under the eyes in bag-like formations. It is just as necessary to keep the kidneys acting properly as to keep the bowels active to rid the body of poisons. The very best possible way to take care of yourself is to take a glass of water before meals and an Anuric tablet. In this way it is readily dissolved with the food, picked up by the blood and finally reaches the kidneys, where it has a cleansing and tonic effect. Step into the drug store and ask for a 50-cent package of Anuric, or send Dr. Pierce 10c for trial pkg. Anuric - many times more potent than lithia, eliminates uric acid as hot water melts sugar. A short trial will convince you.

RHEUMATISM usually yields to the purer blood and greater strength which SCOTT'S EMULSION creates. Its rich oil-food enlivens the whole system and strengthens the organs to throw off the injurious acids. Many doctors themselves take Scott's Emulsion and you must stand firm against substitutes. Scott & Bower, Bloomfield, N. J.
