HOW APPENDICITIS CAN BE PREVENTED. Bismarck people should know that a few doses of simple buckthorn bark, glycerine, etc., as mixed in Adlerika, often relieve or prevent appendicitis. This simple mixture moves such surprising foul matter that ONE SPOONFUL relieves almost ANY CASE of constipation, sour stomach or gas. A short treatment helps chronic stomach trouble. WESTERN CITIES READY TO FIGHT FARGO'S PLAN TO GRAB OFF BUSINESS

Application of Gate City Jobbers for Rates Favorable to Them Only Contested

Dickinson, Mandan, Bismarck and Jamestown, and other inland jobbing centers are prepared to contest the North Dakota Manufacturers' association's application for a horizontal slash in all freight rates in North Dakota of fifteen per cent on a spread of 300 miles. Secretary Keniston of the Bismarck Commercial club, representing the four cities named, is of the opinion that this application if granted, in conjunction with Senate Bill No. 77, would materially compound the embarrassment of shippers in this district. On behalf of these cities he has petitioned the state railway commission to withhold its decision until a hearing shall be held in each of these jobbing centers. Almont, Grand Forks and Valley City have made similar requests, and President Andrad has assured them that no decision will be made until all the towns affected have been given an opportunity to be heard. Dates for the proposed hearings will, it is anticipated, be announced in the near future.

MRS. FLORENCE AUSTIN CHASE

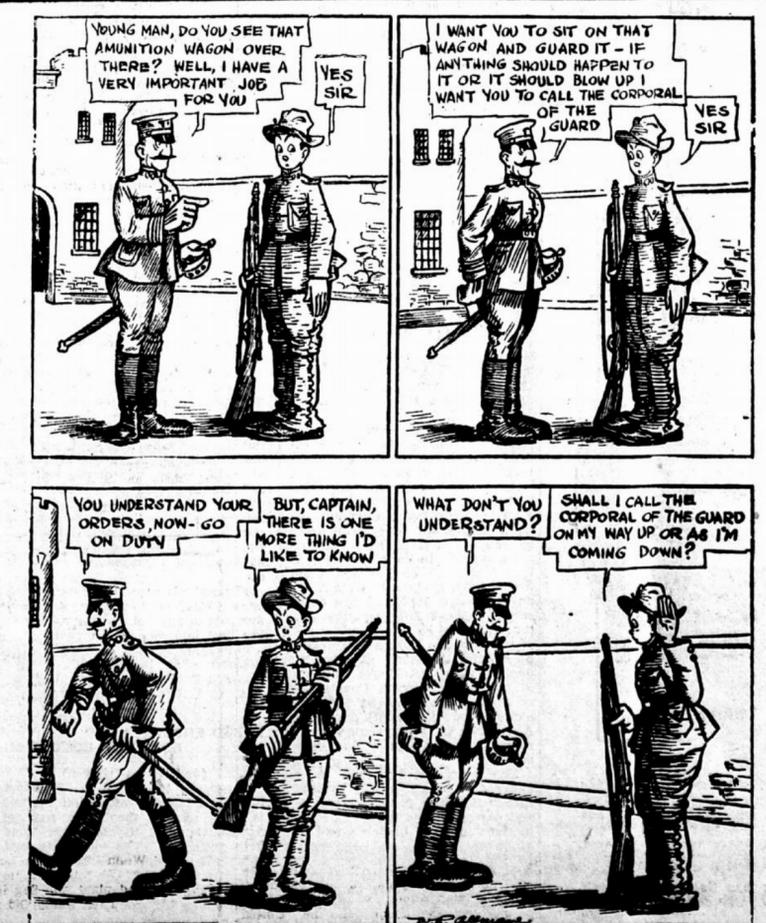

MRS. FLORENCE AUSTIN CHASE GIVES ADVICE TO HOUSEWIVES

One of America's Foremost Authorities on Scientific Cooking and Pure Foods

Thousands of women are daily guided in their cooking by the advice and suggestions of this most eminent authority. Mrs. Chase has shown these housewives how to materially reduce the high cost of living and secure better results in every branch of cooking—she has given them the benefit of her scientific methods—she has shown them how to avoid impure foods. A graduate of the University of Chicago—a domestic science lecturer of national fame—she knows which is best through exhaustive experiments and the constant study of scientific cooking and pure foods. One of the subjects nearest her heart—one which she has given endless study—one which she considers of vital importance—the baking and baking powders. Like every other domestic science lecturer, I am interested in reducing the high cost of living and am interested in Calumet because it is sold at a moderate price. The wholesomeness of the ingredients which are used in the manufacture of Calumet is attested by the Reimsen Reference Board, appointed by the President of the United States and also by the medical profession. "In my work on the lecture platform, I must use a baking powder which is wholesome beyond question and which is absolutely dependable, and Calumet meets all my requirements." An endorsement by Mrs. Chase of any particular product is without dispute absolute proof that that brand is superior to all. She has found through tests, as you will find the first time you use Calumet, that Calumet is the one baking powder that absolutely insures uniform results—that its wonderful leavening strength produces the lightest, most beautiful, tastiest bakings—that its wholesomeness makes all bakings nourishing and delicious. She has found that Calumet is pure in the can and pure in the baking—her tests prove conclusively, as do those of millions of housewives who always use Calumet, that it goes farther than other baking powders. If you now judge baking powder according to price, you are making a vital mistake. Get a can of Calumet at once on the money-back guarantee—test it every way—bake everything with it. If it does not beat your present favorite brand in every way, your grocer is authorized to refund your money—you risk absolutely nothing. Begin now to enjoy real bakings—to save money. Remember, Calumet is used by millions of housewives and domestic science teachers everywhere.
