MANDAN PLANS GOOD TEAM ON BALL DIAMOND

Drive On By Fans To Raise \$2,500 To Back The Organization

FOR BISMARCK GAMES

Mandan will put a baseball club in the field this year.

A drive is being put on today for funds. It is expected by the board of five men, none of them baseball players, which will manage the team affairs, that about \$2,500 will be raised to back the team.

Erickson, coach of Mandan high school athletics, who also is a good baseball player, has been engaged as player-manager. He probably will catch or play in the infield.

It is the announced intention of the management to use home players as far as possible, Mandan having some exceptionally fast local players. It is probable that a couple of good pitchers will be hired.

The Mandan management looks with favor upon a proposal to have a number of twilight games with Bismarck during the summer, as it will be a financial benefit to both teams and give the fans a chance to see real baseball. It is held probable that Mandan time will be changed from Mountain to Central time May 1, and if this is done, it will permit playing twilight games in Mandan.

WILTON TO PLAY PRISON'S TEAM HERE ON SUNDAY

Wilton will play the prison team at the prison on Sunday, it is announced today.

Wilton will have in the field its regular line-up for the coming year, with the exception of the first baseman, who suffered an injury. Cunningham is slated to pitch for Wilton. It was reported that Cunningham had been offered a place with the Lisbon team.

Art Bauer, who is handling the prison team, says it is improving daily.

JAMESTOWN NOT TO HAVE TEAM

Jamestown, N. D., April 20.—Jamestown will not have a city baseball team in the field this year, it was decided by fans.

Pittsburgh 7, Chicago 2.

The Insider Says

Poor hitting, fair fielding, good pitching and a better frame of mind make up the equipment with which Connie's A's started.

Centre College without Bo will not figure much in the gridiron-fiddling next fall.

Tex Rickard's \$50 day's sports are all out of step with the financial condition of our country.

"Chick" Galloway of the Athletics cannot explain why he is called "Chick."

Rookie Parallel

The records of Louis Fonseca and Riggs Stephenson, the two rookie second basemen breaking in with the Reds and Indians respectively, were exactly the same for opening day. Each had 4 times at bat and made

HOLDOUT REDS WANT \$41,000 AND GARRY SAYS THEY ARE NOT WORTH IT

ED ROUSH, THE FARMER

By Newspaper Enterprise.

Cincinnati, April 20.—The services of Ed Roush, Heinie Groh and Larry Kopf are not worth \$41,000 to the Cincinnati Reds, thinks Garry Herrmann.

"That is the combined amount which the three prize holdouts of the major leagues are reported to have asked."

But Garry's hold on the bank roll will not loosen to that extent.

Roush, the highest-paid player of the National League—with \$15,000, wants \$20,000, it is said.

Groh received \$10,000 last year and is reported to have asked for \$12,000.

Kopf's salary was \$8,000. He would be satisfied with \$9,000.

"There is a limit to the worth of a ball player," says Garry.

The directors of the club have gone further and announced that none of the holdouts would be traded.

So it's a case of come in on reasonable terms or stick to civics.

Roush owns a farm in Indiana. He may spend the summer there.

Groh owns a pool and billiard business in Rochester, N. Y. He can while away the long summer days shooting pool.

Kopf is a stock and bond salesman. None of the holdout Reds can make in business anything near what he could get out of baseball.

Both Roush and Groh have been sought by the New York Giants. But even Gotham would not pay such salary demands. Yet the acquisition of either would make the Giants look like a cinch pennant winner.

Their Substitutes.

Pat Moran has plugged the holes with young blood.

But Sammy Dohne is not a Heinie Groh at third. Sam Crane is not a Larry Kopf at short. Charley See doesn't class with Ed Roush in the outfield.

2 hits. Neither had a chance in the field.

Tom Gibbons is accused of picking "soft ones." A good man makes any opponent look that way.

Penn's baseball team worked the first double squeeze play of the baseball year. That's one reason why big league scouts are shadowing collegians.

No hidden mines have been struck in New Jersey such as usually follow announcement that a pair of heavy knuckle pushers plan to move in.

Unless all signs fail Dutch Reuther, under the fatherly handling of Uncle Robbie, will be a game winner this season.

Life has suddenly become worth while to the baseball fan once more.

Over a million dollars went through the betting machines at the Kentucky Derby in 1920.

Eight heavyweight championship fights in the past 22 years drew a total of \$925,277. Rickard thinks the Dempsey-Carpenter show will pull a million.

FORMATION OF GUARD COMPANY IS BEGUN HERE

Enrollment of a company of the National Guard is proceeding in Bismarck under the direction of a committee composed of Fred Graham, Herman Brocupp and P. G. Harrington. Over half the necessary quota is enrolled.

A petition was received by the city commission last night asking that all of block 90 of Williams Addition be exempted from taxation because the proposed Company A desires to maintain an athletic field for athletic sports for the benefit of the company and for the public generally.

SUNLIGHT IS STRANGER.

Butte, Mont., April 20.—Recent closing of the copper mines has resulted in bringing to the surface horses and mules, some of which have not been above ground for 15 years. The sunlight dazed them for several days.

A starch molecule, one of the largest known, contains about 25,000 atoms.

An electric lamp attached to the collar helps the hunting dog pursue his game into their burrows.

CAT ADOPTS TWO OF MOUSE FAMILY

Eats Three Before Maternal Love Got the Better of Her Appetite.

Boston.—Probably the most surprised pair of mice in Greater Boston are two which were recently adopted and nurtured against their will by a Westchester cat that ate three of their family before maternal love got the better of her appetite.

The self-appointed mother, M. Teddy (short for Theodora), a four-year-old cat owned by Mrs. Besse Dickey of 12 Harvard avenue, West Medford, Teddy's affections were badly torn by the execution of four of her five latest kittens, and it was apparently to fill up her depleted family that she adopted the mice.

Mike and Ike, the kidnapped twins, are in many respects unsatisfactory as

substitute kittens, since they are grizzled veterans of a long career of mousy sin and are nearer their second childhood than their first. They have become resigned to their occupancy of the home box, however, and submit patiently to being patted and to having their hair smoothed by their new mother's tongue.

Since a milk diet does not apply to them, they are fed by the Dickey family. Their occasional efforts at escape have been nipped in the bud by the vigilant Teddy, who brings them home by the nape of the neck.

Teddy has had a great reputation as a mouse and rat exterminator. At last, however, her mother nature has won out, although she caught, killed and ate three mice early the same morning that she adopted her present proteges.

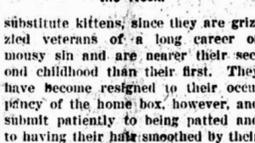

Brings Them Home by the Nape of the Neck.

RAIN GENERAL OVER WESTERN PART OF STATE

Clouds Moving From Western Part Eastward Bureau Reports

The rain which drove Bismarck indoors today was a general over the state, according to weather bureau reports.

The rain just started this morning at Williston, and was general over the western half of the state. It was not raining at Jamestown at noon, but the rain appeared to be bearing eastward.

At Bismarck at 3 o'clock this afternoon thirty-five hundredths of an inch had fallen, and there was not indication of an early cessation of the rain. The rain is declared to be of immense benefit to the state, especially since a large part of the seeding has been completed.

Dr. Wolverton and Mrs. Wolverton were in from Linton yesterday.

CAPITAL CITY SELECTED FOR ART EXHIBIT

Madame Priscilla Demonstration Company to Show at Webb's Dept. Store

Ladies of Bismarck will be exceptionally interested to learn that the Madame Priscilla Demonstration Company of Chicago has selected this city as one of four points in the state of North Dakota in which they will give an exhibition of the famous Parisian Art Embroidery needle.

The demonstration will be held in the Webb Department store commencing tomorrow morning and concluding Saturday evening. Bismarck will mark the last stop in this state, Billings, Mont., being the next city chosen.

The New Perfected Parisian Art Needle has completely revolutionized embroidery fancy work. It consists of four separate needles in one set, particularly designed to use any size thread from a silk thread to a carpet rag.

The fourth point, the largest, is built especially for the making of rag and wool rugs, thus enabling one to utilize all the discarded silk and cotton garments and sweaters and make, in your own home, beautiful rag and wool rugs.

Owing to the fact that many inquiries were received from Bismarck ladies who attended the first northwest demonstration of this needle at the Minnesota State Fair last fall, it was decided to demonstrate here in order that all might have an opportunity to see muslin lunch sets, table runners, pillow tops, bed spreads and other useful household articles.

Mr. Gentling of the Madame Priscilla Company will superintend the demonstration and he will be assisted by Miss Erickson.

CUT SCHOOL TO NINE MONTHS

Bismarck school children will go to school nine months next year instead of nine and one-half months.

This is the decision of the school board, announced today.

The new state law governing school and maximum and minimum salary prescribes a nine months school. The salary maximums will be observed at the local schools.

SMALL BOYS IN POLICE TOLLS FOR ROBBERIE

Several boys, ranging in ages from 11 to 16 years of age, are in the toll of the police as a result of numerous thefts in the city. Three of the boys were caught Sunday night around the Bismarck Machine Shop by Pat Ganche, owner. An investigation which was started has resulted in the recovery of a rifle stolen from the machine shop once before, a camera stolen of the automobile of R. M. Bergeson goods from the Army and Navy store and material stolen from several private garages last fall.

None of the boys have been formally placed under arrest by the police. There is a considerable amount of stolen goods which has not been returned. The boys return it, it is probable that authorities will place them on probation; if not, they probably will at that the boys be sent to the state training school.

START DIVORCE ACTION.

Velva, April 20.—S. O. Sampson Upham, former sheriff of McHenry county is defendant in a divorce action started by Mrs. Sampson. The couple were married after Sampson retired from office.

Performing an Imperative Service

THE total number of motor cars registered in the United States for the year 1920 records a gain of 17.16% over 1919. There is an automobile for every 12 persons throughout the country.

In the representative states served by the Standard Oil Company (Indiana) the percentage of gain is 23.43%. In South Dakota there is an automotive vehicle for every 5.24 persons in the state.

The increases over 1919 in the states served by this Company are:

State	1919	1920	Percentage of Increase
So. Dakota	104,625	122,040	16.64
Iowa	363,000	442,200	21.81
Minnesota	259,743	323,572	24.57
Missouri	229,577	295,817	28.85
Kansas	228,601	265,385	16.09
No. Dakota	82,885	90,840	9.59
Michigan	296,378	412,275	39.10
Wisconsin	236,974	303,246	27.96
Indiana	277,255	332,207	19.82
Illinois	478,438	569,127	18.97
	2,557,476	3,156,709	

Sixty percent of the new cars sold in the ten states served by the Standard Oil Company (Indiana) during 1920 were bought by farmers. These figures indicate one reason why the demand for petroleum products was so insistent in this territory. The farmer had to conserve his time, and the automobile was the only solution for this problem.

Another reason was the increase of automotive machinery on the farm, for these machines were the deciding factor which insured the phenomenal crops harvested during 1920.

The efficiency of this motor driven equipment was due in a large measure to the efficiency of the Standard Oil Company (Indiana) system of distribution, which assured the farmer that his needs would be supplied and his time conserved.

The Standard Oil Company (Indiana) is an essential economic factor in the national life. It contributes a definite quota of imperative service to society. It is especially organized to render this service. It operates in an environment of the most intense competition; it survives because it is efficient.

Punished for Wet Feet, Boy Committed Suicide

Joseph Grichvich, five years old, of Detroit, Mich., committed suicide by shooting himself in his head, according to a statement to the police by his father, Daniel Grichvich.

The boy had been punished for coming home with wet feet and had been sent to the kitchen to dry them, Grichvich said. A moment later the family, at dinner, was startled by a pistol shot, and found the boy dying on the kitchen floor.

Aged Recluse Fell Heir to \$100,000.

Tiffin, O.—Found at the old shack where he has eked out a scant living by gardening, Valentine Scherer, a seventy-one-year-old recluse, was notified a few days ago that he had fallen heir to a fortune of \$100,000 through the death of a brother in California.

LUCK IN THIS HORSESHOE

In Looking for a Place to Dispose of It in Filivver, Wad of \$300 is Discovered.

Little Falls, N. Y.—A Little Falls man went to New York to buy a second-hand automobile. He found one that suited him very well, and paid cash for it. He had his wife with him, and they started home by the broad highway. As they were coming into the Mohawk valley the wife saw a horseshoe lying in the road and demanded that it be picked up for good luck.

After a brief argument as to superstitions and such things, the husband returned to the horseshoe and brought it back to the car.

"Now where'll we put it to insure the most good luck?" he demanded.

"Under the back seat," she said.

He raised the back seat and tossed the horseshoe under it. As he did so he discovered a bill fold, which he picked up and tossed to his wife, remarking:

"Well, there's your good luck!"

She opened it and found in the little old money carrier \$300 in currency.

"I told you so," she said, "Horseshoes always bring good luck!"

It was the custom of the ancients to bury their young at dawn.

The word "mob" was considered slang 200 years ago.

"Perhaps You Don't Know" says the Good Judge

How long a little of the Real Tobacco Chew will last. Nor how much genuine chewing satisfaction the full, rich real tobacco taste will give. Ask any man who uses the Real Tobacco Chew. He will tell you that this class of tobacco will give more satisfaction—and at less cost—than the ordinary kind.

Put up in two styles

W-B CUT is a long fine-cut tobacco

RIGHT CUT is a short-cut tobacco
