OVER MILLION IS TAKEN IN SOUTHERN CITY

Swindle Included Atlanta, Georgia, and Many Other Cities

Atlanta, April 27.—That Atlanta, with a record of \$1,500,000 losses here, was only a stopover place on the way to Florida for international bunco operators, that Floyd Woodward known here as the "master mind," was only the local agent, and that Albert Thompson, son-in-law of the late Mayor Carter Harrison of Chicago, was one of the ringleaders, were declarations made here recently by federal officers, who claim that the total amount sheared from victims by the gang will reach a staggering amount. Victims from Philadelphia, Reading, Pa.; Indiana, Memphis, South Carolina, Maryland, Mississippi and other points were included in the Atlanta list.

The federal search for additional members of the ring now centers on Thompson. Inspection officials state that Thompson is wanted in several cities as the ringleader of the syndicate. They characterized Thompson as one of the cleverest of all confidence men and said that he spent much of his time in Florida resorts, "trimming" wealthy tourists. It was said he made a hasty getaway from his \$25,000 home in Duck Shoals, N. C. between Asheville and Hendersonville, several days ago, when he learned inspectors were on his trail. Inspectors said a squad of sleuths are hot on his trail. His arrest before the end of the week is predicted.

LOCAL BUREAUS OF IMMIGRATION BEING FORMED

P. O. Williams Arranges For Series of Ten Meetings in State

The state immigration department has assigned P. O. Williams the task of organizing local immigration and development societies in the various counties of the state, particularly in the western part, and in some of the larger towns.

Mr. Williams has arranged for a series of ten meetings to be held in counties west of the Missouri river in the interest of this work. Several communities already have organized associations to carry on the work.

A series of dates, calling for 10 different meetings, in as many counties west of the river, have been arranged by Mr. P. O. Williams of the department, with a view to effecting an organization in each county, in the interest of immigration and local development. In each of these counties he will deliver an address, relating some of his experience in the active field work of the department, some impressions gathered from his contact with multitudes of tenant farmers throughout the middle-west states and, perhaps explain some of the many reasons for his unflinching confidence in the future of North Da-

Garden Flowers

"Beautify Your Home"

kota, the western half especially and, that there never was a time in the history of the state when organized effort along this line was more imperative or, had greater promise of large returns.

He says: "During the next two years there will be tens of thousands of good, vigorous, American people, compelled to remove where there is (figuratively speaking), room to breathe and, where their limited means can be invested in fertile lands, with a large degree of safety, building homes for themselves and their families," says Mr. Williams. "It has been officially stated by the Canadian Immigration Bureau that they expect to bring 10,000 American citizens into their country during the present season of 1921. Why should not we determine to materially reduce this great loss to our state and country? And, there is another 10,000 that by all means ought to come here and, will, if we are properly organized and, are willing to spend some money to get them."

GLEN ULLIN'S FIRE LADDIES GIVEN PRAISE

Gave Good Example of Pluck in Fighting to Save Town

Had it not been for real bravery upon the part of the Glen Ullin volunteer department a large section of the town would have burned in the fire which did nearly \$100,000 damage early Monday morning, according to J. B. Saylor, district manager of the Thompson Lumber Yards Inc., who returned to Bismarck after checking up losses sustained by the lumber concern.

With the lumber yard burning 35 feet across the street from a row of business buildings, the Glen Ullin volunteers carried box car doors to the middle of the street and using these as a protection against the intense heat, poured water into the lumber yard to prevent the flames leaping to the business blocks. The heat was so intense, Mr. Saylor said, that solder was melted off on the hotel building. The fireman who battled the flames suffered from the heat but stuck to their posts.

The Thompson Yards, an elevator, and a warehouse were totally destroyed. The cause of the fire had not been determined, Mr. Saylor said.

THEATER OWNER TO TEST SUNDAY LAW

Grand Forks, N. D., April 27.—A. J. Kavanaugh, proprietor of the New Grand theater, was arrested upon complaint of Rev. F. Halsey Ambrose, pastor of the First Presbyterian church of Grand Forks, on a charge of operating a motion picture show on Sunday in violation of the state law.

The complaint was sworn out by States Attorney T. B. Elton, after Rev. Ambrose had insisted upon stopping Sunday benefit shows. When it was announced that the local committee for Irish relief work was to hold a meeting Sunday afternoon at which motion pictures were to be shown, Rev. Ambrose made complaint to States Attorney Elton, saying that "This had to be stopped."

The first complaint was made several weeks ago following a benefit performance at the Metropolitan theater.

The Irish relief committee has retained counsel. It has been announced that the matter would be made a test case and taken to the state supreme court, upon stipulation of facts, for an interpretation of the law.

FARM PROPERTY SHOWS INCREASE IN MERCER CO.

Hazen, N. D., April 27.—A farm census report for Mercer county has been received by the Enterprise from the census bureau and contains the following facts:

In Mercer county there were 1,084 farms in 1920, against 869 in 1910, or an increase of 26 per cent. White farmers operated 1,055 against 846 in 1910.

In 1920, 947 were operated by owners and 137 by tenants.

The acreage in farms in 1920 was 540,359, against 286,775 in 1910, or nearly 89 per cent increase.

Land and buildings were valued at \$15,851,171 in 1920, against \$5,964,418, in 1910, an increase of 149 per cent.

The county had 1,055 farms reporting domestic animals in 1920, against 829 in 1910. In 1920 there were 12,075 horses, mules 28, cattle 22,468, sheep 6,712, swine 5,879. Horses, mules, cattle and swine nearly doubled in number since 1910, while the number of sheep is practically the same.

One of the only two white kangaroos known in the world has been sent to England from Australia.

NAME ZONES FOR MARKETING PLAN

St. Paul, April 27.—The Twin Cities will be headquarters for one of eight sales zones in which the country has been divided for the co-operative marketing of crops, by the United States Grain Growers, Inc., according to J. M. Anderson, chairman of the sales department who returned Monday from Chicago, where he spent a week attending the first business meeting of the directors of that organization.

Mr. Anderson expects that about 200,000,000 bushels of grain will be

handled by the St. Paul-Minneapolis office this year, though no effort at perfecting a sales force will be attempted until the organization work, which is to start in about two weeks, has signed contracts which will assure the office of at least 25,000,000 bushels.

The marketing zones follow:

Zone 1—Spokane, with branch offices at Seattle, Portland and San Francisco.

Zone 2—St. Paul, Minneapolis, with at least one branch at Duluth.

Zone 3—Omaha, with a branch at Denver.

Zone 4—Kansas City, with branches

at St. Louis, Wichita, Hutchinson and possibly Memphis.

Zone 5—Fort Worth, Texas, with branches at New Orleans, Galveston and Oklahoma City.

Zone 6—Chicago, with branches at Peoria, Ill., Sioux City, Indianapolis and possibly Lansing, Mich.

Zone 7—Cleveland, with branches at Toledo, Buffalo, Cincinnati and Pittsburgh.

Zone 8—New York.

The government has accepted a newly-invented fireproof cover for the gasoline tanks of its airplanes.

ST. PAUL ROAD CUTS SHOP TIME

Dubuque, Ia., April 27.—Effective May 1 the shops of the St. Paul railroad at Dubuque will be working but 10 days a month.

SPRING'S HERE, TRA-LA! St. Petersburg, Fla., April 27.—In spring a young man's fancy—you

know! Anyway, benches placed along the waterfront by business men were all filled the first night.

CHICAGO HUNTS RADIUM. Chicago, April 27.—Solemn men are hunting treasure with a rod with two gold leaves attached. They seek a \$6,000 tube of radium. Radium makes the gold leaves "shimmy."

S. E. Bergeson & Son

To the motorist who has quit guessing about tires —

ALONG about this time of year a man finds his motor- ing neighbors getting anxious about their tires. With folks expecting old tires to "pop" any minute, there comes the question of what kind of new ones to buy. U. S. Tires are answering a lot of questions like this nowadays.

The U. S. Tire following embraces two kinds of tire buyers.

Those who started with quality first, and have never bought anything else but the quality standard tire.

Those who came to quality first only after dabbling with "bargains," "rebates," "job lot" and "surplus stock" tires.

Getting one hundred cents value on the dollar in tire buying is a straight-forward business proposition—not guess-work or a game of wits.

The most essential man for you to know today is the local U. S. Tire dealer who is concentrating on a full, completely sized line of U. S. Tires.

He gets his U. S. Tires straight from his neighboring U. S. Tire Factory Branch—one of 92 such Branches established and maintained all over the country by the U. S. Tire makers.

He is the man who can give you fresh, live tires—not stuff shipped to him from some point where it did not sell, but new tires of current production.

Giving the same quality, selection and price-advantage to the owner of the medium weight car as the big car owner gets. With equal service and buying opportunity whether he lives in the smaller localities or the greater centers of population.

THE U. S. NOBBY TREAD

Where the going is specially heavy with snow, mud or sand, in hilly country where maximum traction on the road is a factor, no other tire tread yet devised is quite so effective, or so wholly approved by motoring opinion, as the U. S. Nobby Tread.

In very simplicity—two diagonal rows of oblong studs, interlocking in their grip on the road—is the result of all the years of U. S. Rubber experience with every type of road the world over.

"The most essential man for you to know today in the tire business is your local U. S. Tire Dealer."
