

JUDGE AMIDON WILL TRY CASE IN CITY AUG. 16

Judge Charles F. Amidon, of federal court, will hear a case involving a large number of cattle of the Burnstead herd on August 16. It is announced in information received here.

There will be no jury in the case, and it is not expected that other cases will be taken up by Judge Amidon while here.

The suit was begun by the St. Paul Cattle Loan company seeking to foreclose a chattel mortgage against C. P. Burnstead, of Logan county. Between 200 and 300 purebred cattle are said to be involved in the suit. There was a controversy as to the arguments before Judge Amidon in Fargo and parties to the suit agreed to try it in Bismarck.

The court is said to be desirous of settling the matter as early as possible because the expense of keeping them is very large.

PLAYGROUND AT SWIMMING POOL

Other Improvements Planned By City Body

A sand playground for kiddies is to be added to the swimming pool within the next few days by the city commission.

The sand will be dumped in the corners at the north end where the little tots can play in shallow water and then in the sand outside the water. The city commission committee also plans to put benches outside the fence for the convenience of spectators, which have become very numerous in the evenings.

Other improvements will be made as the need arises for them. The crowds at the pool continue to be very large, bathers being in the pool until it closed at 10 o'clock last night. The water is kept fresh by the constant outlet and inlet of water.

ACTORS PERFORM FOR BENEFIT OF STATE CONVICTS

Convicts at the state prison were given a real treat last evening when the Marcus Loew vaudeville company, which has been playing at the Rex theater, visited the prison on invitation of Warden Stair and gave an improvised vaudeville entertainment for the convicts. Enthusiastic applause of the convicts in the big prison auditorium brought encores until the actors were reluctantly forced to cut their show in order to return to the Rex theater for the evening performance.

The skits were arranged by Roy Gordon, director of the vaudeville company, and included songs by him and Joyce Lando, a whistling specialty by Maude Hensley, singing and dancing by Cotton Allen and Mae Moore. This is the first vaudeville show that has visited the prison in months, although movies are shown during the winter. Baseball forms, the chief sport in summer.

Aims of Rotary Form Luncheon Discussion

Informal talks relative to Rotary and how the members can give vital service to the community characterized the Wednesday luncheon of the club on the McKenzie hotel roof.

H. P. Goddard presided in the absence of Burt Finney, president of the club. George Duemeland gave an inspiring four minute talk on the purposes of Rotary and his speech furnished the inspiration for the informal discussion.

Addresses were given by Judges Christanson and Nuesse, P. R. Field, William Crawford, former district judge at Dickinson, N. D., and Geo. Duham. J. C. Taylor of the International Harvester Co., and Dr. V. J. LaRose of the Quain & Ramstad clinic were the new members received.

In addition to Judge Crawford of Dickinson, there were present as guests of honor, J. L. Pitton, Chicago, western sales manager of the International Harvester Co., and A. H. Thompson of Lilydale, N. Y.

Ward County Enters Federal Road Project

Minot, Aug. 3.—The Ward county board of county commissioners have taken action that will mean the expenditure of \$960,000 and the building of 130 additional miles of fine, hard, graveled roads in the county in the next four years under the federal highway law. H. K. Craig, project engineer of the state highway commission, has been in the city this week conferring with the commissioners and the matter was practically decided upon Thursday with final ratification deferred until today when the entire board could be present. Commissioner A. S. Spicher was absent yesterday, but all the other commissioners were agreed in favor of the project.

The plan is to apply for \$480,000 of federal aid to be distributed over the next four years. The county must add an equal sum to this under the federal law. The state will help the county's part of the enterprise to a certain extent, at least \$6,000 a year, it is understood, and it is hoped \$10,000 the first year. The work under this new project will begin next year.

TRIBUNE WANTS—FOR RESULTS

ROSEMARY, MILLIONAIRE!

ROSEMARY BAUR'S DADDY MADE HIS FORTUNE OUT OF SODA WATER, AND ROSEMARY IS PROUD OF IT!

ONLY \$40 A DAY

But Little Millionaire Can Have Her Sodas

By R. J. Gibbons
Chicago, Aug. 3.—From now on Rosemary Baur may have all the ice cream sodas, dolls and lollypops her ten-year-old heart can possibly crave. IF—

A monthly allowance of \$1250—\$40 a day—proves sufficient.

Rosemary is worth something in excess of \$1,500,000.

The estate was left by her father, Jacob Baur, a wealthy soda water manufacturer.

Rosemary has an ardent taste for sodas and pink slippers.

Such simple wishes will be easy to gratify with \$1250 coming in steadily 12 times a year.

The allowance was made by the Probate Court here on request of Rosemary's mother, who says it costs that much to maintain her daughter "in the same kind of home her father did when living."

Last year Rosemary was cramped with an income of only \$68,384.75.

Visitors without credentials are not permitted to see the heiress.

"We're afraid of kidnappers," says her social secretary, who relieves the heiress of those irksome little duties such as sending out invitations.

"Rosemary," she said further, "is very democratic. She is most generous and kind, and we are trying to keep her free from the thought of money."

Nice, eh—to have a million and a half and not even to have to think about it?

GUEST FROM WILTON.
Mrs. C. W. Howe of Wilton is visiting in the city, a guest at the A. J. Arnot home.

HERE ON BUSINESS.
H. A. Armstrong of Hazelton was in the city on business yesterday.

VISITING HERE.
Father John Holloran of Stanley, N. D., is visiting in the city.

GERMANY AND CHINA MAY SIGN SEPARATE PEACE

Berlin, Aug. 3.—Germany's refusal to subscribe again to the Versailles Treaty in its negotiations with the Chinese government has led to the completion of an agreement between the two governments which is designed to re-establish commercial relations pending the drafting of a permanent pact.

China's request that German reiterate its adherence to the Versailles Treaty was regarded by many here as somewhat remarkable, inasmuch as the Peking government refused to sign the treaty because of the shantung provisions. It became known when the documents leading to the China-German agreement were laid before the Reichstag that Germany had refused to comply with China's request for a re-affirmation of Germany's adherence to the Versailles Treaty because Germany took the stand that such action might prejudice her position in case of a revision of the treaty.

In advising China of the unwillingness of Germany again to formally acknowledge the Versailles Treaty, Foreign Minister Simons wrote: "In agreement with the instructions of my government I have the honor to declare to you again that the German government cannot acknowledge the Versailles Treaty in general terms again, for such a step would be synonymous with the self-imposed acceptance of the treaty by Germany and would prejudice its later revision. But Germany will make no objections if China avails itself of Articles 123 to 134 of the treaty, also of certain other rights of the treaty, which are of importance for China, in the present form or in an altered form, in case a revision takes place."

The articles mentioned, 123 to 134, refer especially to China and provide that Germany shall surrender all con-

THE U. S. NOBBY TREAD

Where the going is specially heavy with snow, mud or sand, in hilly country where maximum traction on the road is a factor, no other tire tread yet devised is quite so effective, or so wholly approved by motoring opinion, as the U. S. Nobby Tread.

In its very simplicity—three rows of diagonal knobs, gripping the road—is the result of all the years of U. S. Rubber experience with every type of road the world over.

If every one listened to experience, how much they'd save

STOP and talk to the next man you see with U. S. Tires on his car. Ask him why.

Most likely you'll hear an interesting story about his tire experiments—before the answer was found. Money wasted. Promises unkept. Trouble on the road—humorous to every one except the man who went through it.

Finally U. S. Tires. And U. S. Tires ever since.

Perhaps it's the experience of U. S. Tire buyers that makes them more emphatic in their preference than ever this year.

When these men have tried most

everything by the way of "staggering bargains", "hurrah discounts", "discontinued lines at less" and so forth they know what not to get.

They want a fresh, live tire. With a good reputation. That's everything it says it is. With the people behind it who back it up.

There are 92 U. S. Factory Branches.

Your local U. S. Dealer is drawing upon them continually to keep his stocks sized up, complete—to give you service.

Whenever he gets one or a hundred tires from a U. S. Factory Branch, they are newly made this season's tires.

Sold to you at a net price. Full values. Square-dealing. A reputable maker. A reputable dealer. The whole transaction as befits the leadership of the oldest and largest rubber organization in the world.

"Stop and talk to the next man you see with U. S. Tires on his car."

Employment Is Showing Increase

BY ALBERT APPLE.
The number of employed is steadily increasing in Detroit, one of the cities hardest hit by depression. This is shown by reports from the Detroit Employers' Association, whose 79 members were employing 136,974 workers July 1, against 58,700 in Jan-

uary. Four-fifths of these workers are in the auto industry.

The rubber tire industry is increasing its payrolls.

Office Jobs.
Office employes now are as badly hit by unemployment as are factory workers. Fewer office workers are indicated by decreased street car traffic in large cities.

Typewriter sales are 55 per cent less than a year ago. This indicates something of the extent of curtailed business activity in offices, typewriter sales being considered a good gauge.

More Jobs.
The woolen industry is employing 104 workers for every 100 employed a year ago.

Labor outlook in the general textile industry is very bright. Gingham manufacturers have enough orders to keep their help working full time until April, 1922.

Indicators are that unemployment will gradually decrease in the steel industry. Manufacturers expect no steel boom this year, but inquiries and orders are improving gradually. Number of employed steel workers, country over, now 40 per cent less than a year ago.

Survey by Bureau of Labor in 13 selected industries shows 568,595 workers employed in factories that employed 761,663 a year ago. These industries are believed to mirror national conditions, which means that 73 workers now are employed in the United States out of every 100 a year ago. Many of the jobless have gone back to the farms.

HARDING FINDS SECLUSION IN HAMPSHIRE HILLS

Lancaster, N. H., Aug. 3.—President Harding found seclusion today. As a guest of Secretary Weeks at his country home on the summit of Mount Prospect the President and Mrs. Harding, with a party of friends, began a day of rest, of a vacation which is to last until the end of the week at least. A closed private road is the only approach to their retreat and a telephone four miles away at the foot of the mountain is the nearest connection with the outside world. The President, however, expects to give attention only to such public business as will not permit of delay.

CONVICT TAKEN BY OFFICERS

Frank McCool Escaped in Minnesota Captured

Waseca, Minn., Aug. 3.—Frank McCool, under 30 years sentence following conviction of murder in the third degree in connection with the death of George Connelly, who escaped from the state hospital at St. Peter, Monday night was captured between New Richmond and Albert Lea by state parole officer Frank Whittier and R. D. Nelson, secretary to Warden Sullivan, shortly after 10 a. m. today.

According to Nelson, McCool did not offer resistance when taken. Nelson said he and Whittier were driving between Albert Lea and New Richmond when it was reported a man answering McCool's description had been seen. Overtaking a man walking along the highway the two officers ordered him to surrender which he did. When questioned regarding where he

had been refused to talk. He is held in a local jail and will be returned either to St. Peter or to Stillwater prison tonight.

AMERICANS ARE GIVEN FREEDOM

Riga, Aug. 3. (By the Associated Presses).—American prisoners in Russia already have been released from confinement according to unofficial reports at the Bolshevik legation press bureau today but there was no word as to the number released or when, how or where they will be delivered across the border.
