HOLD UP GRAIN FINANCE PLANS UNTIL MEETING

U. S. Grain Growers Inc. to Decide Matter at Meeting to be Held in March, 1922

GRAINS SALES UNAFFECTED

War Finance Revival Aids In Solving Credit Problem

(Special to The Tribune.) Chicago, Sept. 19.—Development of the Farmers Finance Corporation, the financial subsidiary of the U. S. Grain Growers, Inc., and the consummation of permanent contracts with selling agencies will be held in abeyance until the first annual convention of the U. S. Grain Growers, Inc., in March, 1922. It was announced here today by President C. H. Gustafson and Secretary Frank M. Myers.

Financial Plans Unnecessary.

"Revival of the War Finance Corporation with an agricultural relief amendment has made immediate action on the farmers financial plans unnecessary and will give time for a more thorough consideration of such plans and a formal expression of the membership.

"Sales of grain for U. S. Grain Growers members will not be affected by the fact that permanent contracts with selling agencies are not to be consummated at this time. Vice President J. M. Anderson, acting in the capacity of chairman of our sales committee, already has handled more than two million bushels of grain for U. S. Grain Growers members on the St. Paul market under authority given by our executive committee.

NATIONAL UNITY COUNCIL FORMED TO COMBAT THE KLU KLUX KLAN

Organization Headed By Former Governor of Illinois Declares War on Secret Organization

(By Roy Gibbons) Chicago, Sept. 19.—Ku Klux Klanism is expected to be dealt its death blow by a new national organization being perfected to fight racial animosity and religious bigotry and to promote comity and unity.

EDWARD F. DUNNE

This organization is headed by Edward F. Dunne, former mayor of Chicago and governor of Illinois, and it will conduct a membership drive throughout every state in the union. Dunne and his aids expect 1,000,000 enlistments within a short time.

The principal charge against the Klan is that while advertising itself as the agency of 100 per cent Americanism it has proved itself totally un-American in its every aspect and action.

"My information is that the Ku Klux Klan is largely a commercial enterprise exploiting sectional and racial hatreds for its own enhancement," says ex-Governor Dunne.

The Ku Klux Klan, however, has not let these attacks pass by unnoticed. In five years this organization has grown from 34 charter members to a total variously estimated at from 500,000 to 800,000.

In the south it has attracted most attention, for there night riders wearing the habiliments of the Klan have tarred and feathered, lashed at the post and otherwise mistreated men and women against whom their wrath was directed.

In a recent issue of the Searchlight, the official organ of the Klan, printed at Atlanta, Ga., the national headquarters, the founder and head of the organization, William J. Simmons, known as the emperor of the Klan, says:

Operator of Bombing Shop Alleged to Confess He Supplied Labor Unions

Chicago, Sept. 19.—Fourteen hundred sticks of dynamite three inches in diameter and ten inches long and 100 sticks of TNT were seized today by police today following the capture of five dynamiters in the act of bombing a shoe repair shop.

One of the prisoners was wounded by police who surrounded the shop for hours following a tip that it was to be bombed. Richard Burke, 23, the wounded man, was carrying the bomb when five approached the shop.

Forty detectives hidden in neighboring buildings surrounded the bombers and ordered them to surrender. Instead Burke threw the bomb and the explosion tore the entire front out of the store, threw David Krenan, the owner and his family, from their beds and broke windows for blocks around.

Michael Hughes, chief of detectives, caught Burke and the other four surrendered. Search of a house where the prisoners lived disclosed the bomb-making plant and explosives.

Burke, who is believed dying told police he supplied bombs for several labor unions and also the men to throw them. Police said he made a detailed statement of bomb outrages undertaken for the shoe repairmen's and janitors unions.

Pete Hughes said the arrest would clear up scores of bomb explosions during the last six months and involve a number of union officials.

CONDITIONS IN INDIA SERIOUS REPORTS SHOW

Rebels Found Difficult to Control by British Troops

London, Sept. 19. (By The Associated Press.)—Official investigation of conditions in India show the situation is more serious than was at first believed. Military forces sent into the troubled district of the Malabar coast are experiencing difficulty owing to the rebels and the nature of the country. Formidable bands of rebels are scattered through the forest covered hills.

Two thousand rebels are said to be massed in the Pandular hills northeast of Calicut where an action is imminent and another band is endeavoring to join these rebels. A Simla dispatch to Reuters Limited says that at a council of states held there it was declared that the lives and property of non-Muslims were unsafe except in the vicinity of garrisons and near railways. It was said the insurgents controlled certain areas and that immediate reestablishment of authority is impossible.

TRADING POST DAYS RECALLED BY PLAN OF BIG DOLLAR DAY SALES

The Big Dollar Day Sales to be held in Bismarck September 28 and 29 brings back to an old resident here pictures of old trading post days in pioneer times, when settlers used to flock into Bismarck, then more of a trading post than a village, to purchase provisions, swap stories of chase provisions, swap stories of chase provisions, swap stories of chase provisions and enjoy a real community day before returning to their lonely prairie posts when neighbors were far distant.

On the Dollar Days it is expected that hundreds of people from long distances will visit in Bismarck, take advantage of the special sales offerings and meet old friends whom perhaps they have not seen in years, haps they have not seen in years.

The plan of having the Dollar Day sales on two days has met with favor. Many people want to come to Bismarck from great distances, and feel that they cannot complete all their shopping in one day. By having the two days they are offered plenty of time to make all of their purchases and to visit and enjoy themselves in the city.

Dollar Day pennants were to be ready in a day or two. They will be the sales flag and will be seen in all of the merchants windows. Special decorations are being prepared by the merchants. The Dollar Day sales will open with the blast of whistles.

ASSERTS RECALL BALLOT FORCED BY POLITICIANS

Recall Candidate For Governor Proposes Naming of a Committee in Speech Today

HITS THE ADMINISTRATION

Charges it Has Been "Political Administration" and Leaders "Drunk with Power"

(Special to The Tribune.)

Christine, N. D., Sept. 19.—"For the purpose of intelligently carrying out the program and the platform promulgated by the Devils Lake convention of representatives of Independent forces of North Dakota as embodied in the resolutions and in the constitutional amendments and initiated laws, I shall first of all make the appointment of a non-political committee made up of taxpayers who are thoroughly familiar with the raising, marketing and selling of grain and who have the confidence of the farmers of our state, and have them make a study of the mill and elevator situation at Grand Forks and Drake, determining for the Grand Forks plan the proper amount needed for the completion of the project, the amount required for working capital, the best method of creating a market for and selling the flour and to make such recommendations for the running of the mill at Grand Forks as shall, make it less expensive and of the greatest service to the farmers and taxpayers of the state," said R. A. Nestos, recall candidate for governor in a speech here today opening his pre-election campaign tour.

Denounced Administration.

Mr. Nestos said that for this committee to honestly and intelligently perform the functions he would assign to it if elected governor, would be an essential preliminary to the determination of the amount of bonds to be sold and "also in securing the money already invested."

Mr. Nestos, in his speech, denounced the Nonpartisan league administration vigorously, declaring the administration had been wholly political in character and had not properly managed the business affairs of the state.

"Drunk With Power."

He talked about some men "who are drunk with power," said it was a "bad form of government" and declared the recall was intended as the cure.

In attacking the activities of the league administration he especially scored its leaders for alleged deceit of farmer followers in the state in that they led farmers to believe, he said, that it was necessary for them to give up their organizations that were started by the league leaders, such as the Consumers' stores and newspapers.

A Busy Campaign.

Mr. Nestos will campaign during the week in southeastern North Dakota, concluding with an address at Valley City Saturday night at which independent forces propose a big demonstration.

S. Johnson, candidate for attorney general, will be on the stump within a short time and J. A. Kitchen, candidate for commissioner of agriculture and labor also will be out nearly every day until October 28.

Mr. Nestos while here expressed satisfaction over the progress of the independents.
