### A Cotton Crop Report.

Dr. J. F. Young, late pastor of the First Baptist church, has returned from an outing through the country, accompanied by Mr. Ikard. They went by way of Brock to Red river, then followed the river up to the Rock Island railroad and on to Comanche. They visited eighteen towns on the trip, making a specialty of examining the condition of the cotton crop. Dr. Young says that on most of the farms one bale to three or four acres will be the output. In some places it will take ten acres to make a bale of cotton.

The corn crop is a failure, very little corn will be gathered and the farmers will have to get their home supply elsewhere.

Dr. Young took the trip thinking it would benefit his health, and he says that it has improved him a great deal.

### New Suits Filed.

### No "Salute" for Her.

A marriage license was issued this morning for William Washington and Agnes Gains, colored. The couple wanted to be married immediately. N. H. McCoy, deputy clerk, agreed to tie the knot. After the marriage ceremony had been performed in legal style, one of the clerks suggested that Mr. McCoy salute the bride, when she bolted for the door and ran down the steps, thus saving the blushing official the necessity of declining to "salute."

### SENSATION IN RELIGIOUS CIRCLES.

Rev. E. D. Cameron forsakes Methodism and joins the Baptist Church.

The Chickasaw Telegram says: The Methodist people were thrown into a state of consternation yesterday, at the close of the sermon by Presiding Elder Thurston, by the announcement that their beloved pastor, Rev. E. D. Cameron, had filed his resignation with him as minister of the Chickasaw station and filed his papers of withdrawal from the Conference. The congregation had had no intimation on the part of their pastor that he had even considered such action. The relations between pastor and flock have always been pleasant and the pastor has always enjoyed the complete confidence of his congregation. That he should quit so unceremoniously sorely grieved and disappointed the membership.

While the Methodist services were in progress yesterday morning, the presiding elder officiating, everybody wondered why Mr. Cameron was not present. All this time he was serenely in attendance at the Baptist church, and at the close of the morning service he was taken into the church. He was baptized in the afternoon.

Rev. Cameron preached his first Baptist sermon last night. An announcement that he would do so was made at the morning service and standing room was at a premium. In the course of his discourse he gave reasons for his action. We cannot do justice to the sermon in a condensed report. It was eloquent, argumentative and at times pathetic. Briefly, his reasons were, method of church government, in which he rebelled at the power of bishops and presiding elders. He made a strong argument for immersion as the only Biblical baptism. In general he defended his action on the grounds of duty to his conscience. He could no longer preach the Methodist doctrine and be an honest man.

## The Blood HEALTHY OR DISEASED

When there is a natural and healthy circulation of the blood, the entire quantity, estimated at one-eighth the weight of the body, passes through the heart every five minutes. This rapid flow of the blood through the system prevents the entrance of disease germs and impurities of every description. It filters out all that is not necessary or good for the growth and development of the body and nourishing and strengthening the muscles, tissues, nerves and bones. But, unfortunately, few persons can rightly claim an absolutely pure blood supply and perfect and unpolluted circulation, and in consequence are exposed to innumerable diseases. Contagious Blood Poison, the greatest enemy to mankind, enters the system through the blood, and Cancer, Scrofula, Rheumatism, Catarrh, Eczema, Salt Rheum, Psoriasis, Tetters—in fact the majority of human ailments—are caused by

### The Blood is the Source of All Strength

mon, especially among old people, whose blood naturally grows thin and pale because of the lack of the red corpuscles that give color and strength to youthful blood. Sallow complexions and rough, oily skins evidence some constitutional or blood trouble, which salves, lotions, powders nor any external treatment can cure. Diseases that originate in the blood, whether they manifest themselves as ulcers, tumors, itching eruptions, muscular or bone pains, require a tonic and blood purifier such as S. S. S., which not only antidotes and neutralizes blood poisons and humors, but possesses health-giving tonic properties that no other blood medicine does. It goes down to the very foundation of the disease and eliminates from the system everything of a poisonous character or that obstructs and clogs the circulation. It builds up and imparts new strength and vitality to the old innutritious blood, and when the arteries and veins are once more filled with new rich blood, the general health begins to improve, muscles grow stronger, and sores and eruptions of every kind disappear.

S. S. S. is the only guaranteed purely vegetable blood purifier, and the purest and most reliable in all blood diseases. It has been tested in thousands of cases during the past fifty years and is more popular today than ever. We will be glad to send you our book free, and if in need of medical advice write our physicians all about your case; this information will cost you nothing and comes from experienced and educated doctors. All correspondence is conducted in strictest confidence. THE SWIFT SPECIFIC COMPANY, ATLANTA, GA.
