Ardmore, Monday, July 6, 1903.

The scandal recently unearthed in the agricultural department in connection with the free distribution of seeds is undoubtedly a case of scandal going to seed.

Now an artist says an American girl is the most beautiful girl in the world. And each young American who is in love knows just which girl he refers to.

The president says he will send it, and the czar says he will not receive it; so that petition of Americans for religious liberty in the far East is likely to make history.

Prominent Kentucky educators have formed an association. It is to be hoped that the association will cease teaching the Kentucky young idea how to shoot and teach it how to be good.

Just to let the matter down easy, the petition to Russia concerning the Jews will be forwarded to the United States charge of affairs at St. Petersburg with instructions to ascertain from the Russian government if it is willing to receive the petition, and if not, to drop the matter.

Secretary Corbelyou of the department of commerce has been called into the postoffice department inquiry. President Roosevelt will have an opportunity to demonstrate what he meant when he said that the new cabinet officer would be of chief service by securing publicity for the evils which might come under his direction.

It has recently developed that the interview of Cleveland by the correspondent of the Dallas News was done at the instance of that paper in an attempt to check the Parker sentiment in Texas and thereby strike a blow at the Houston Post, the one paper in Texas which has the edge on the News. Colonel Johnson of the Post, assisted by other prominent Democratic journals in Texas, has caused the Parker movement to take the nature of a boom, which seemed to be sweeping over the state. It was then deemed advisable by the News that an interview should be secured with Cleveland the object of which was to get from the ex-president a statement that he was not a candidate for the presidency and that he would not accept the nomination. This was to be done that the Parker movement might be checked and Gorman given a chance. It was admitted by all that the threat of Cleveland must be removed or Bryan and his friends would select and instruct the delegates to the next national convention from the Lone Star state. From the indications they would select men favorable to Parker and those who were known to be hostile to Gorman. Mr. Cleveland failed to give out the interview, which he announced that he did not. It was necessary for the correspondent to give it out for him so that the scheme of his paper might be carried out. The Parker following throughout the state has been considerably strengthened by the denial of the interview by the ex-president.

## GREAT ENTERPRISE.

Yes, this is an age of big enterprises.

The Pennsylvania company is getting ready for its new terminal station in New York. That means the wreckage of entire blocks of buildings; churches are to be torn down; warehouses, dwellings by the hundred, great stories—all are doomed to destruction. In a short time buildings worth more than \$7,000,000 will be reduced to piles of brick and old lumber, while thousands of persons will seek new quarters.

This going into the heart of a city and sweeping aside block after block of buildings is big, even in a time of big enterprises.

And the terminal station that is to cover the ground made vacant will be a world wonder. To build it and its connecting tunnels millions upon millions will be expended.

It is a good business sign. There are shrewd men at the head of the Pennsylvania company. They are in business to make money. The fact that they are investing fabulous sums at this time is evidence of their belief in continued business prosperity and the future stability of commerce. They spend now to reap their financial reward later. The attention of some of the timid ones, who seem to love the word Calamity, is hereby directed to the splendid optimism of this one concern.

## SOUTH McALESTER KILLING.

One Man Shot to Death and Two Others Badly Wounded.

South McAlester, I. T., July 5.—William Wilson of South McAlester was shot and killed and William Frazee of Coalgate and John McShane of McAlester were badly wounded by some unknown men at the Krebs baseball park at sundown this evening.

McShane and Frazee state that the trio were riding in a buggy when some parties drove up behind them and began shooting into the buggy without a word of altercation or any warning.

Wilson was shot just below the heart and died instantly. The other two men received body wounds and one of Frazee's fingers was shot off. Wilson, whose mother lives here, worked on the Katy railroad.

The unknown men did not stop to see the result of their shots, but drove on. None of them were identified, but deputy marshals have gone in search of them.

## The Territory Brigade.

At Okmulgee last Saturday organization of the First and Second regiments was perfected. The contention elected Ira L. Reeves brigadier-general. Ben H. Colbert was elected colonel of the First regiment and B. V. Henson of Ardmore, lieutenant colonel. The First regiment will be composed of material from the Chickasaw and Choctaw nations.

C. B. Douglas was elected colonel of the Second regiment and C. C. Rambo, lieutenant colonel. Material for the Second regiment is to be found in the Creek, Cherokee and Seminole nations.

## Both Will Hang.

The ropes had black caps for the execution of Charles Barrett, a white man, and Dora Wright, a negro woman, have arrived at the marshal's office in South McAlester. The ropes are made of the best hemp and are five-eighths of an inch thick and about eighteen feet long. The execution will take place at South McAlester on the 17th instant under the immediate charge of Chief Deputy General.

## OLD AND NEW WAY.

Hymel the Latest Scientific Discovery for the Cure of Catarrh.

The discovery of Hymel has wrought a wonderful change in the treatment of catarrh.

Prior to three years ago the medicines ordinarily employed in the cure of this disease were nauseating drugs and worthless tonics. In some instances they benefited, but the improvement was not lasting.

With Hymel you take into the air passages of the throat and head a balsamic air that goes to the minutest cells, effectually killing all germs and microbes of catarrh. It enters the blood with the oxygen, killing the germs in the blood and restores health to the whole system. Many astonishing testimonials have been received from those who have been cured by Hymel.

N. G. Durham, 23 Wellington St., Boston, Mass., writes: "I have suffered from catarrh for a number of years. I tried Hymel and found it the only cure for this disease I have ever used."

Perhaps the strongest evidence that can be given to doubters, is the fact that the City Drug Store has so much faith in Hymel that it sells every package under a positive guarantee to refund the money if it does not cure.

Now is the time to begin the use of Hymel.
