NEWSPAPER RULINGS.

Issued by Postoffice Department Go into Effect Today. Washington, D. C., Sept. 2.—Two important new rules of the postoffice department go into effect today. One of them is of particular importance to newspapermen, while the other principally affects trade magazines and advertising periodicals. Under the first rule the postoffice department will refuse to transmit at newspaper rates any calendars, sheet music, patterns, cardboard spectacles, blocks of postcards, cut-out animal pictures, disks of soluble paint, outline drawings, etc., but will demand regular merchandise rates for them. Under the other decision all magazines, containing samples of papers, inserted in the magazines for purposes of advertisement, will have to pay fourth-class rate, instead of the cheaper second-class rate.

Constipation

is caused primarily by lack of certain elements in the food which tend to more or less imperfect digestion, and to make the liver sluggish and torpid.

The bowels carry away and discharge the fecal matter—that is the refuse matter of the system. If the bowels are constipated the fecal matter clogs and congests the natural passages the poisonous excretions are retained in the body. They set back like a stream dammed up, and are absorbed into the system and carried all over the body in the blood.

That's the reason your head aches, your tongue is coated, your mouth tastes like a garbage can, black specks float about your eyes, and you are generally unhappy. It's constipation poisoning.

California Prune Wafers are positive guaranteed to cure the most obstinate case of Constipation, Biliousness, Torpid Liver or Indigestion. 100 Wafers 25c.
