

They Want Eleven Cents.
The executive committee of the State Farmers' Union was in session at Greenville all last week. E. A. Calvin of Paris, president of the union, stated that as a result of the meeting it was decided to recommend a minimum price of 11c a pound for this season's crop of cotton, and circulars have been sent to all state organizations outside of Texas asking them to co-operate in maintaining that price. The union, through its executive committee, reserved the right to make further recommendations as the gathering of the crop proceeds, and if present conditions continue and the crop should show further deterioration, a higher minimum price will be recommended.

Good Cigars are Grown, Not Made.
Different processes of tobacco culture ripen, cure and ferment the leaf, gradually and thoroughly maturing and blending it before making into the

ANNA HELD

Cigar—5c.

These processes—exclusive with the American Cigar Company—remove every last lingering trace of the original harshness that spoils the aroma, the bitterness that ruins the flavor, and the "eartheness" that makes the cigar burn unevenly.

The new fermenting and blending processes thoroughly combine the goodness characteristic of the various required tobaccos—thus insuring a rich, even, full-flavored, well-balanced, uniform smoke.

Sold by All Dealers in Good Cigars. Trade Supplied by PLATTER TOBACCO CO. DALLAS, TEXAS

This Triangle A on a box of "Anna Held" cigars, is the distinguishing mark of excellence. It identifies the product of this new system of making better cigars for the smokers' money, no matter what the price.
