### ROYALTIES ON LEASES.

Rating by the Department on Creek and Cherokee Lease Royalties.

The Indian agent is in receipt of instructions from the department as to the date when the annual advance royalty commences to run upon leases in the Creek and Cherokee nations.

Under the rules and regulations of the department, advance annual royalty on leases are to be paid as follows:

"Fifteen cents per acre per annum for the first and second years, 30 cents per acre per annum for the third and fourth years, and 75 cents per acre per annum for the fifth and each succeeding year thereafter, for the term for which the lease is to run."

The regulations further provide that should the payment of the advance royalty be neglected or refused for a period of sixty days after the same becomes due and payable, the lease shall, at the option of the lessor, be null and void and all royalties paid in advance shall become the money and property of the lessor.

Inasmuch as there has been some difference of opinion among lessees as to whether the lease runs from its date, the date of its approval, or the date of the approval of the bond, the department has held that the lease runs from its date; and that the approval by the department relates back to the date of the lease and validates the lease from the date of its execution, and royalty, therefore, should be paid from the date of the lease.

Lord's drug store (who is now in Denver, Colo.) He recommended a bottle of Snow Liniment. I got a 50c size, and it cured my leg. It is the best liniment in the world. W. B. Frame.

Mr. G. W. Fowler of Hightower, Ala., relates an experience he had while serving on a petit jury in a murder case at Edwardsville, county seat of Cleburne county, Alabama. He says: "While there I ate some fresh meat and some souse meat and it gave me cholera morbus in a very severe form. I was never more sick in my life and sent to the drug store for a certain cholera mixture, but the druggist sent me a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy instead, saying that he had what I sent for, but that this medicine was so much better that he would rather send it to me in the fix I was in. I took one dose of it and was better in five minutes. The second dose cured me entirely. Two fellow jurors were afflicted in the same manner and one small bottle cured the three of us."
