Police Court News.

The police drag net caught one "snicker" in the shape of a poor Mississippi Choctaw, who had imbibed too much of the spirits. Poor Lo had to donate \$8.00 to the treasury of the city, which he did not have about his jeans, and as a result will work for a few days in helping the street gang put the streets in good shape.

Intruders' Court Session.

The intruders' court is grinding merrily away endeavoring to get at the facts in about 70 cases where people have squatted on the lands of Indians. Judge Bennett stated that in all probability the court would wind up its business in this city Saturday at noon, when the cases would be transcribed and a decision rendered by the court.

of the World will consider the matter tonight of purchasing a lot on which they will build a permanent home.

The present membership is 340 and the leaders of the organization feel that they command sufficient financial strength to own their own lodge room.

They will consider the matter of the purchase of the Cumberland Presbyterian church property on B street, S. W. This property is offered for \$4,000. Other propositions will also be presented.

LADY'S TRUNK OPENED

And Several Articles of Wearing Apparel Missing—Common Occurrence and Steps to Be Taken to Prevent Further Deprivations.

For the past several months, even for the past several weeks, some one has been in the habit of opening trunks at the local station and taking therefrom clothing and other things. It is supposed that whoever is doing the work is a government official and in search of forbidden goods. You can imagine the chagrin of a lady or gentleman when arriving in this city after a trip to find that their trunks have been opened and everything in a topsy turvy condition together with a number of articles missing.

Last night Dr. and Mrs. Frank Tull of Los Angeles arrived in this city to spend sometime as the guests of Dr. Phillip Stephens, having left Los Angeles last Tuesday and coming through without a stop. However, when the couple made an examination of their trunks, found that they had been opened and a number of articles missing including a seal skin coat, two suits of gentlemen's clothing and several articles of wearing apparel.

It is hardly probable that the work was done any other place than in Ardmore. The matter of examining trunks under protest will be reported to the department at Washington and an investigation asked for.

So far very little has been said, but clearance seems to be a virtue and the road will be used, as ladies are weary of having their trunks examined by hoodlums, whether officials or not.

FINISHED IN FIVE YEARS.

Easy View of Kansas Congressman of Work on Canal.

Kansas City, Mo., March 28.—Representative Charlie P. Scott of Iowa, Kans. one of five party of congressmen who recently returned from a trip to the Yukon, arrived here last night, and said:

"People on the isthmus believe the Panama canal will be finished in five years. It is plausible, I don't say the work will be done with that length of time, but at the rate the diggers are being carried on, it could be. It will certainly not take a much longer time than five years."

Moved to New Quarters

We are in new quarters on second floor of Bankers' National Bank building, entrance on A street Phone 50. We write fire, tornado, accident and health, plate glass and live stock insurance. Our live stock company has paid losses in past twenty years amounting to about \$750,000, and has \$1,000 deposited with Indiana state department to guarantee its policies. No patron of our office has ever lost or been in his dealings with our company. Fourth year of rapid growth for this agency.

and business men of Sulphur, was in Ardmore Thursday for a short time on business. Mr. Webster is one of those young men who have come to this section and built up an empire from a wilderness. When asked as to what he thought the people of Sulphur section would do in voting for the ratification of the constitution, he expressed himself as believing that the constitution would be ratified by both republicans and democrats by an overwhelming majority.

"I do not feel that there is any danger of the constitution not being adopted, and will be carried by a vote of two to one."

"Well, what is Sulphur doing?" He replied, "What is Sulphur doing? We are growing like wild, and already the fame of Sulphur Springs are spreading beyond the borders of the state of Oklahoma and visitors are already coming in to our resort. The hotel has been finished, the sewerage system about completed, as well as the water works. The Artesia hotel will be ready for guests next week. The railroads have been good to us and have done a good work in advertising our resort. People are already writing for room reservation for the season. We are making big preparations to entertain visitors this summer and the amusements this season will be on a much larger scale than ever before, and better. We are organizing a base ball team and will meet the Ardmore team on the diamond."

The management is arranging a series of games with Paris, Denton, Greenville and other teams. The uniforms have been ordered and will be here next week. The Ardmore colors are white and blue. The shirt will be blue trimmed with white letters across the breast, Ardmore, and the stockings will be white with a blue stripe. The caps will be white and of the latest pattern.
