Congressman Hull Predicts the Hottest Presidential Campaign in History—Hughes of New York is Watched.

By Associated Press.

Des Moines, Iowa, Nov. 13.—Congressman J. A. T. Hull, chairman of the house committee on military affairs, said today after returning from Washington, where he had a conference with the president:

"Theodore Roosevelt will be renominated. He will be forced to accept the nomination and will be elected president for four years more. W. J. Bryan will be the nominee of the democratic party and the country will see the hottest presidential campaign in history.

"The trend of public sentiment is all toward Roosevelt, although the situation will be complicated if Hughes should carry the New York delegation and he is gaining strength every day. With Roosevelt out of the way, Speaker Cannon stands as good a chance as anyone for the nomination."
