

THE TEST OF TIME

For Eighteen Years the Work of Dr. Mehl Has Maintained Public Favor--Methods of Treatment, Scientific and Certain, That Have Come Through Experience and Knowledge.

Eighteen years of practice proves a physician's ability. If he is competent and actually produces the cures he claims to be able to perform, he wins the public confidence and his practice thrives. If he is incompetent and dismisses patients uncured and disappointed, scarcely a fragment of professional reputation will remain when the 18 years have passed. A medical practice, like most business, must be built upon reliability. Each cure accomplished brings new patients to be cured. Each failure to cure keeps others from coming. A steady growth of practice for a long term of years is the best recommendation a physician can have. It is positive evidence of superior skill. It is evidence of a continuous record of permanent cures. It means that those who have been cured have gone out to tell of their cures and have directed suffering friends to the physician able to cure. It means the confidence of the people won, through honorable methods, fairness and ability.

My specialty is the treatment of men's diseases. I have practiced this specialty for 18 years, for the past eight years in Oklahoma City, and each year has marked an increase of practice. I now treat more men than any other physician in the entire West. The reputation I have won as the most able specialist in my line is not a local one only. By reason of the several important discoveries I have made in relation to men's diseases, I am known among physicians throughout the country. By reason of the cures I have performed, patients have come to me from all parts of the United States, and because I have accorded all my patients every consideration and fairness and have made good all my claims and promises, I enjoy the friendship and favor of the thousands of men of our own city and vicinity who have found full and lasting health through my treatment.

My methods of treating men's diseases are as distinctive as are the results I obtain. They are such as no other physician employs. They are methods that are scientific and certain.

A GUARANTEE OF NOT A DOLLAR NEED BE PAID UNTIL CURED

SPECIFIC BLOOD POISON

My special form of treatment for this disease is practically the result of my life work and is indorsed by the best of physicians in this and foreign countries. It contains no dangerous drugs and forces out every particle of impurity. Soon every sign and symptom disappears completely and forever. The blood, the tissues, the flesh, the bones and the whole system are cleansed, purified and restored to perfect health and the patient prepared anew for the duties and pleasures of life.

My Best Reference is Not a Dollar Need be Paid Until Cured.

DR. G. P. MEHL

All persons coming to Oklahoma City for treatment are requested to inquire of any Bank Commercial Agency or Business Firm as to who is the best and MOST RELIABLE specialist in the city.

STRICTURE

My cure dissolves the stricture completely and removes every obstruction from the urinary passage, allays all inflammation, stops every unnatural loss of fluids and heals the bladder and kidneys, invigorates the organs and restores health and soundness to every part of the body affected by the disease. A speedy and restores health and soundness to every part of the body affected by the disease.

VARICOCELE

Under my treatment this insidious disease rapidly disappears; pain ceases almost instantly; the pools of stagnant blood are driven from the dilated veins and all soreness and swelling quickly subside; every indication of Varicocele soon vanishes and in its stead comes the pride, the power and the pleasures of perfect health and restored vitality.

NERVOUS DEBILITY Men whose manhood is diminishing—and there are thousands of them—owe it to themselves to take prompt steps to relieve a condition which ultimately leads to misery and helplessness. At no time in a man's life does he need more the services of a skilled specialist.

I give each and every case individual treatment, and my original perfected methods are safe and certain in bringing back strength and vigor. They build up the physical, mental and vital man, permanently stop all drains, emissions, invigorate the wasted sexual organs and soon restore the sufferer to ROBUST MANHOOD.

HYDROCELE My method promptly reduces the enlarged condition, and speedily and permanently restores the organism to perfect health and soundness. No pain or detention from business. A speedy and lasting cure guaranteed in every case I accept for treatment.

PILES AND FISTULA These diseases absolutely demand the diagnosis and treatment of a skilled specialist. I possess the knowledge of these diseases, which has been acquired by years of study and experience. I attribute my great success in the cure of the same to the fact that I remove the primary cause, instead of attempting first to eradicate the local symptoms. This is the reason surgery in the treatment of Piles and Fistula has been a complete failure to cure, because the knife does not remove the cause of the disease, and thousands throughout the United States have been left perfect wrecks after the use of the knife. I especially want those to consult me who have been treated with other physicians and have not received a cure and any physician who has a stubborn case under his care is invited to consult me by appointment.

SKIN DISEASES AND ULCERS I cure all acute, chronic or venereal ulcers without burning pastes or salves. Skin diseases, such as pimples, boils, eruptions or eczema quickly disappear under my special modern methods of treatment.

KIDNEY BLADDER AND PROSTATIC DISEASES I practice these diseases, because I have found them, my treatment goes direct to the root of the trouble, the proper remedies are supplied, the diseased conditions are overcome by prompt and effective measures and the patient is soon dismissed perfectly cured. Do not allow these terrible diseases to get the start of you; at the very first symptoms, consult a reliable specialist. Your very life may depend upon your prompt action.

JEW BEHIND THE PLOW

RABBI KRAUSKOPF'S EFFORT TO SEND HIS PEOPLE TO SOIL.

NATIONAL FARM SCHOOL

Hebrew Method of Conserving Applied to Agriculture Work Wonders. This Experimenter Believes.

Kansas City, Sept. 12.—A Jewish farmer is an anomaly. He is regarded in the same humorous incredulity as a coconut growing in Kansas. Of all the motley class of foreigners who engage in agriculture in the west, the Jewish race has perhaps the least representation. To the ordinary farmer, the word Jew suggests "business" and they expect to see him mowing alfalfa about the time a railroad is built to the north pole.

To teach the Hebrew people in the congested centers of population in the United States to turn to agriculture is the purpose of the national farm school, a Jewish institution in Bucks county, Pennsylvania, of which Rabbi Joseph Krauskopf, now in this city is president. Rabbi Krauskopf desires to point the way for the children of Israel into the promised land—the land of corn and pumpkins, wheat and alfalfa. He wants them to quit hawking carrots and cabbages in the streets, and go to raising them on the farm.

"For over a thousand years," Rabbi Krauskopf says, "the Jews have been barred from ownership of land. Why was it? Because the Jew by his thrift and perseverance put other farmers out of competition. He was forced into the trades, into commerce as a self protective measure. The soil was left to incompetent tillers and is the last occupation to which progressive thought has been applied. Put the Jew on the land and he will use the same methods which makes him prosperous in business. He will conserve soil materials. He will reclaim poor and worn out fields and devote himself to intensive methods.

"If the millions of acres of unused land in this country was settled with enterprising tillers, think of the vast increase in our national wealth and resources it would bring. Draw this population from the crowded cities and a twofold blessing has been ac-

chieved. It gives us a solution to the problem of foreign immigration. Scatter people about the country and it gives them a clearer insight into politics and religion.

"It is time that business ability and rural endeavor should get together. The farmer is the victim of dictation from other occupations. He pays the price asked for his necessities and receives what the buyer is willing to give for his products. This is all wrong. With the Jew in agriculture a revolution of methods is bound to come. And the purpose of the national farm school is to prepare the Jews to enter the contest and raise farming to its merited plane."

It is the opinion of many leading Jews that Rabbi Krauskopf has started a noble work. They see in his undertaking a means of lifting the stigma which has rested to a certain extent upon the race and placing the Jew in a sphere of equality with other people instead of preaching the doctrine "back to the soil" to haters who have no idea of ever turning a furrow, he has put in plan into practical application and is giving instructions to those who will profit by it. In the last year the college gave instructions to eighty-one pupils. The school has proved the Jews are capable of becoming good farmers.

A WOMAN'S APPEAL

To all knowing sufferers of rheumatism, whether muscular or of the joints, sciatica, lumbago, backache, pains in the kidneys or neuralgia, pains, to write to her for a home treatment which has repeatedly cured all of these tortures. She feels it her duty to send to all sufferers FREE. You cure yourself at home as thousands will testify—no change of climate being necessary. This simple discovery banishes uric acid from the blood, loosens the stiffened joints, purifies the blood and brightens the eyes, giving elasticity and tone to the whole system. If the above interests you, for proof address Mrs. M. Summers, Box R, South Bend, Ind.

Byrd, the Tailor, has moved his shop from Main street to the room occupied by the Postal Telegraph Co., two doors north of the First Natl. bank, on Washington street, where he is ready for business with a fall and winter line of woollens and at prices that knock competition. 19-2

Dyed.

Have you seen how beautiful Mrs. Jones dyed her plumes, flowers and lace and even her shoes and gloves with the SWEDISH dyes. They are so easy to use. Require no heat or water. For sale by T. N. Coleman, Druggist. 4-1m

COTTON MILL INDUSTRIES

MORE COTTON MANUFACTURED NOW IN SOUTH THAN NORTH.

VIRGINIA LEADS THEM ALL

In the Increase in the Consumption of Cotton—Oklahoma Ranks Second and Georgia Third—Industry Drifts Southward.

New Orleans, Sept. 12.—In his annual report on the cotton crop of 1907-08, issued tonight, Secretary Hester of the New Orleans Cotton Exchange quotes some very interesting figures in connection with the shifting of the seat of the American cotton milling industry to the states of the cotton belt. He says that these conditions have been more in evidence during the season just closed than ever before, the consumption of American cotton in the south, even under the most unfavorable conditions, has been in round figures 2,193,000 bales, while the 900 bales less in the increase in the consumption of cotton Virginia comes first, Oklahoma second and Georgia third.

Mr. Hester's report of the crops of the different states is given as follows, in thousands of bales, showing a decrease under 1906-7 of 1,939,016 bales and an increase of 225,978 over that of 1905-06:

Alabama	1,717 against 1,289 last year.
Arkansas	787 against 940 last year.
Florida	60 against 65 last year.
Georgia	1,394 against 1,697 last year.
Louisiana	673 against 999 last year.
Mississippi	1,496 against 1,541 last year.
North Carolina	649 against 663 last year.
South Carolina	1,026 against 957 last year.
Tennessee	335 against 472 last year.
Texas	2,221 against 4,050 last year.
Oklahoma	950 against 944 last year.

Mr. Hester puts the spindles in the south at 10,661,308, including old, idle and not complete, against 10,598,095 last year, and remarks

that this is the smallest increase reported in twenty years, but states that there are over 269,000 spindles in course of erection, which probably will come into play during the commercial year of 1908-09.

LANGSTON ON THE GRILL

BUILDING A FIRE UNDER LABOR FEDERATION SECRETARY FOR PERNICIOUS ACTIVITY

Oklahoma City, Sept. 12.—Is the executive board of the American Federation of Labor of Oklahoma preparing to "build a fire" under J. Luther Langston, secretary of the organization for alleged "pernicious activity in politics" and an attempt to use his position as secretary to promote the interests of the independence league candidates among the union labor voters of Oklahoma?

A meeting of the executive board of the state federation was held in Oklahoma City yesterday and although the strictest secrecy was maintained as to its purpose the rumor leaked out last night that the meeting was called for the purpose of investigating recent actions of the secretary.

Langston is known to have become identified with the independence party, and labor leaders of the state are said to suspect that it was through him that William R. Hearst secured the alleged document from which he quoted in his speech the other day charging Governor Haskell with helping to organize the Citizen's Alliance at Muskogee several years ago.

Another charge which is rumored to be held against Langston by the labor leaders is an alleged blue pencil of the resolutions commending Governor Haskell and the state administration, adopted by the state federation at the meeting in Ardmore last July.

Men who were in attendance at the Ardmore meeting and who helped to prepare the resolutions adopted there, claim that the resolution as it appears in the secretary's record does not contain all of the utterances commendatory of Governor Haskell which were incorporated in the original resolution.

It is also alleged that when Haskell's friends asked for a certified copy of the resolution to be used in answer to Hearst's attack on the governor, Langston was with difficulty prevailed on to furnish the copy and absolutely refused to certify to the same with the official seal of the federation.

Alaska refrigerators at very low prices. The season is closing and we have a few choice ones left. Bleng, Corha and Frenaley.

MORTGAGES ARE VALID

DECISION DECLARES LANDS OF INTERMARRIED MAY BE TIED PRIOR TO ISSUE.

Guthrie, Okla., Sept. 12.—A case of widespread interest to land men in the eastern part of the state was decided by the supreme court today, the rule being laid down that mortgages given on the land of an intermarried citizen before the patent was secured are valid. The case is that of Frame vs. Bivens appealed from Indian Territory. An intermarried citizen named Mulkey mortgaged his land to the defendant in error and later gave a deed to the plaintiff, Frame. The plaintiff contended that the removal or restrictions invalidated the mortgage.

The defendant interposed a demurrer and was sustained in the lower court whose ruling was affirmed today.

The court in another opinion, written by Judge Turner, reversed the district court of Comanche county in the case of the Herring Lumber company vs. Hazel township, Comanche county. Township trustees purchased lumber from the plaintiff company and the trial court held the contract was made without authority.

Chrysanthemums for the Fair.

To all desiring to procure chrysanthemums to grow for competition in flower exhibit, we wish to say that we shall extend the time for procuring plants until September 15. Let's have four or five hundred plants on exhibition in November. Do not forget that there will be a line of premiums for our common pink ones and the little white and yellow pom-pom. Watch the papers daily for information.

MRS. J. A. BIVENS
Chairman Board of Managers.

The Indian Fair being held at Dardington is attracting much widespread interest. Only Cheyennes and Arapahoes are allowed to exhibit, even the agricultural display being limited to their products. The fair is proving an object of the Indian's capabilities.

Don't be afraid to give Chamberlain's Cough Remedy to your children. It contains no opium or other harmful drug. It always cures. For sale by F. J. Ramsey and Hoffman Drug Co.

More people would enjoy seeing their relations if they could look at them through a long distance telephone.

THE CONTEST DOCKET IS FINALLY CLOSED

Edward Merrick, contest judge with the commission to the five civilized tribes, spent the past week in Ardmore closing up the contest business of the Chickasaw nation. J. A. Cotner, an eminent lawyer and real estate man of this city in speaking of these cases said yesterday: "All told there were filed in the Chickasaw nation nearly 4,000 contest suits; these were more important contests than any other of the five nations for the reason that contests were not allowed to be filed unless the contestant owned the improvements on the lands in question and the lands of this nation were more highly improved than the lands in any other nation of the five tribes. And these contests were more bitterly fought for the reason that the agricultural lands of the Chickasaw nation are the best in old Indian Territory. These suits for the possession of lands have held the attention of the best legal talent in the country for the past five years."

There will be no further contests instituted in the Chickasaw and Choctaw nations because the treaty with these two nations and the United States government of Sept. 25, 1902, provided that all citizens should have the right to file and institute contest proceedings during twelve months following their approval as citizens of the nations. No person has enrolled since March 4, 1907, that being the date upon which the rolls were finally closed by act of congress. The treaty provided that all filings made after one year from the date of the final enrollment of citizens should be made arbitrarily by the commission to the five civilized tribes, or their successors; consequently no filings have been made.

by citizens of the Chickasaw or Choctaw nations since March 4, 1908.

"The act of congress of May 27, 1908, provided that no contests should be filed after 60 days from the filing by the allottee, and as no filings have been made by allottees since March 4, 1908, there can now be no other contest suits filed."

"There are remaining at this time not more than fifty Indians who have not taken their allotments and they are persons who have tentative allotments; that is, they have filed upon the land formerly selected by persons who were at one time enrolled as citizens and who were stricken from the rolls by order of the secretary of the interior March 4, 1907; and whose cases are now pending in the supreme court of the United States. In case these persons are given the citizenship these fifty citizens who have tentative filings will be compelled to select other allotments. There is yet remaining unallotted in the Chickasaw and Choctaw nations about two million acres of land, and the disposition of these lands is yet to be determined by congress. It seems however to be the intention of congress to sell the remaining lands under sealed bids to the highest bidder. Congress at its next session will determine the disposition of these lands as well as the segregated coal and asphalt lands."

Danderine.

works wonders. It produces hair just as surely as rain and sunshine produce crops. It produces a thick growth of luxuriant hair when all other remedies fail. We guarantee Danderine. All druggists sell at 25c, 50c and \$1.00 per bottle. To prove its worth send this ad and 10 cents in stamps and silver and we will mail you a large free sample. Knowlton Danderine Co., Chicago, Ill. Df

HOT-WEATHER CONSTIPATION

People should be very careful at this time of the year not to become constipated, and if they do become constipated to attend to it promptly. Many people have a special tendency to constipation in hot weather, owing to the sudden change in food and to the fact that the natural moisture of the body that in winter remains within and helps to digest the food, leaves the system in the summer in the form of perspiration. And as the heat taints the food and the water, a constipated person is especially liable to a fever disease. It is, therefore, very important, in both young and old that in a constipation should be immediately relieved. The best way to do this is, as some suppose, by eating themselves sick with fruit and making the matter worse, nor by taking salts and laxative waters, which, as all who have tried them know, give but temporary relief, but, on the contrary, you should use a tried-and-true remedy like Dr. Caldwell's Syrup Pepsin, which acts quickly but mildly and which leaves permanently so that a steady and lasting cure results. A bottle can be bought of any druggist, in sizes of 50 cents and \$1.00, and this small sum will save you and your family a world of trouble. It is the best remedy you can take for any summer digestive trouble. You are guaranteed that it will do what is claimed. It will cure the constipation, clear the head, restore your appetite and sleep and make you feel like your old self again. Those who have not yet tried Dr. Caldwell's Syrup Pepsin, and would like to make a test of it, can do so free of charge by sending their address for a sample bottle to PEPSIN SYRUP CO., Monticello, Ill.
