lar need be paid until cured-

Diseases when neglected or improperly treated have been the means of blighting the most radiant hopes and making business a failure. If you are afflicted with any debilitating disease, you should not procrastinate, as delays are dangerous. The man who has youth in his heart, rich, pure blood in his veinst ambition confidence and nervous energy in his make-up, is worth more to himself, his family, his friends and to the world in general, than is the dyspectic millionaire with his wealth of gold. You must realize that the only way you can be cured is by securing the services and individual attention of a specialist of recognized ability, who is qualified to advise, direct and treat your case to a successful issue. I have cured hundreds of cases which have baffled other doctors—cases which have been aggravated and made worse by incompetent treatment from other specialists-because my vast experience enables me to detect the secret of the disease and apply the proper specific remedies to complete the cure promptly.
