EAT LESS MEAT IF BACK HURTS

Take a Glass of Salts to Flush Kidneys if Bladder Bothers You.

Eating meat regularly eventually produces kidney trouble in some form or other, says a well-known authority, because the uric acid in meat excites the kidneys, they become overworked, get sluggish, clog up and cause all sorts of distress, particularly backache and misery in the kidney region; rheumatic twinges, severe headaches, acid stomach, constipation, torpid liver, sleeplessness, bladder and urinary irritation.

The moment your back hurts, or kidneys aren't acting right, or if bladder bothers you, get about four ounces of Jad Salts from any good pharmacy; take a tablespoonful in a glass of water before breakfast for a few days, and your kidneys will then get fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush clogged kidneys and stimulate them to normal activity; also to neutralize the acids in the urine so it no longer irritates, thus ending bladder disorders.

Jad Salts cannot injure anyone: it makes a delightful effervescent lithia-water drink which millions of men and women take now and then to keep the kidneys and urinary organs clean, thus avoiding serious kidney disease.

SCRIPTURE.

Jeremiah 17:5-14. Thus saith the Lord: Cursed be the man that trusteth in man, and maketh flesh his arm, and whose heart departeth from the Lord.

For he shall be like the heath in the desert, and shall not see when good cometh; but shall inhabit the parched places in the wilderness, in a salt land and not inhabited.

Blessed is the man that trusteth in the Lord, and whose hope the Lord is.

For he shall be as a tree planted by the waters, and that spreadeth out her roots by the river, and shall not see when heat cometh, but her leaf shall be green, and shall not be careful in the year of drought, neither shall cease from yielding fruit.

The heart is deceitful above all things, and desperately wicked; who can know it?

I the Lord search the heart, I try the reins, even to give every man according to his ways, and according to the fruit of his doings.

As the partridge sitteth on eggs, and hatcheth them not, so he that getteth riches, and not by right, shall leave them in the midst of his days, and at the end shall be a fool.

A glorious high throne from the beginning is the place of our sanctuary.

O Lord, the hope of Israel, all that forsake thee shall be ashamed, and they that depart from me shall be written in the earth, because they have forsaken the Lord, the fountain of living waters.

Heal me, O Lord, and I shall be healed; save me, and I shall be saved: for thou art my praise.

WHEN YOU SMELL THE GOOD FOOD COOKING

And It Makes You Sick, It is a Sure Sign that You Need Stuart's Dyspepsia Tablets.

It is a time to pay attention to your stomach when the sight or the smell of food makes you sick, for were this not the fact, the stomach would not cause such disgust upon the part of the sense or smell and taste when meal time comes around.

All the world has to eat. You men who walk to your meals like you do to a drug store for medicine, should at once realize that there is a relief for you. This relief is Stuart's Dyspepsia Tablets.

The Dyspeptic: "How can a man live in a smell like that?"

Taste, sight and smell all have an influence upon digestion. If one eats something that does not taste good, one retards the work of digestion, because the juices necessary to digest the thing eaten will not flow in correct proportion.

On the other hand, good food will always excite the taste through actual contact with the food in the mouth or through the sight or sense of smell, unless the stomach knows that it can not digest it.

We thus readily learn that the simple act of giving nature the digestive fluids she needs, will bring back all the joys of good eating, and tasting, smelling and seeing dainty dishes will excite a rousing appetite.

Stuart's Dyspepsia Tablets are composed of natural ingredients that a worn out digestion simply welcomes with a wild delight. They enrich the stomach juices quickly so that if you want to eat an out-of-the-ordinary-after-theatre sort of a dinner, just carry a Stuart's Dyspepsia Tablet in your pocket, take it after the meal and you will digest that meal.

Your druggist will supply you with a box no matter where you live. Price 50 cents.

HIGH SCHOOL NOTES.

Never before in the history of the High school since Superintendent Richards' connection with it, has there been such a determination on the part of each orator to win on the 20th of February. The classes too, are determined that their representatives shall win, one class (can you guess which?) has already begun to practice yells in earnest, and the spirit is ebullient in the other classes also, if we do not have a hard fight between the orators we will certainly witness one between the yell leaders.

Friday afternoon the students and a few patrons of the Ardmore High school witnessed a basketball game between the first team and the faculty. Interest was kept up throughout until the final score of 21 to 11 in favor of the students was announced. Did the faculty give the

During the cold spell on Friday the students were very comportsate. The freshmen-sophomore study hall was rather uncomfortable but in the auditorium the students could keep warm. Most of the other rooms of the building were well heated.

STODDARD'S NEW WORK.

Greatest Literary Achievement of the Age. Educational Opportunity Now Being Offered to the Public at Reasonable Price.

A profitable use of the great realm of literature, whose confines constantly grow more remote, was never more essential than it is today.

The spread of education has enlarged the reading public to such huge proportions that its choice of books decides the character and conduct of unnumbered millions. To read omnivorously and without discernment gives one mental indigestion. To choose poor, frivolous material impoverishes thought. To read too little starves the soul. Hence in the sphere of letters to discriminate and to select is of the first importance.

The author's plan has been to make a carefully selected library of literature, comprised in a small num-

ber of attractive volumes, which may be helpful to the average American family. This work, in fact, is specially designed to make it possible for those who have a fair amount of culture, and desire more, to own—and hence to read with pleasure and advantage at any moment when they wish to do so—a goodly portion of the best that men have ever thought and written.

Out of the fields of literature he has sought to gather many fadeless flowers, not to dissect them, scientifically, but to weave them into garlands, and diffuse their perfume. In the construction of this library care has been taken also to prepare its volumes with a view to satisfying the aesthetic tastes of its possessors. Beautiful thoughts are worthy of artistic presentation. They certainly lose nothing of their strength and value, when appropriately framed. The illustrations, to whose preparation in soft, pleasing colors great attention has been given, have been especially chosen, in order to familiarize the reader with the homes of many of the authors, quoted, or with some spots associated with their lives. All of the biographical sketches have been purposely made brief. Only the most important facts which every one would wish to learn, or to recall, have been concisely stated.

Another wish of the compiler of this work has been to offer some selections, less distinguished for their intellectual brilliancy than for a tender sentiment, which often after centuries, still moves the heart, and stirs its holiest emotions. There is in all good writing worthy of the name, a touch of human nature that makes kindred of us all. This he has tried to find, as the prospector seeks the vein of gold. A memorable thought connected with the preparation of a library like this is the enormous influence which it is capable of exerting. It is not one book, or a dozen books, but it is the carefully distilled quintessence of a thousand! It is a concentration of a tremendous intellectual and moral force—an inexhaustible spiritual dynamo—a compilation of the very

pages which have transformed lives, determined history, and decided destinies. Such literature is the priceless heritage of humanity.

The master works of literature are deathless in the psychic power; imperishable, while the men and women molded by them tread our globe; immortal also in that bright realm, to which our tiny planet is the anteroom, and death the curtailed door.
