INCREASING DEMAND FOR COTTON.

The American Sugar Refining company of New Orleans, has written a letter to Tyler & Simpson Co., their customers here, that from this time on they will discard jute as a material for sugar bags and will use cotton. This movement will result in using thousands of bales of cotton where none has been used heretofore.

The cotton emergency that is before the public at this time has resulted in bringing to the surface many plans for handling cotton and also many plans for increasing the consumption, and none of the plans will amount to as much as the substitution of cotton for bags that have formerly been manufactured of jute.

SOLVING SOUTH'S PROBLEMS.

The Rock Hill Buggy company of Rock Hill, S. C., has issued a circular to its customers all through the south offering to take cotton for its accounts. This company alone has arranged to take 5,000 bales of cotton. That means that \$250,000 worth of cotton will be held by these people.

The Rock Hill people go further and state that there is a demand for a reduction in cotton acreage. They employed a strong constitutional lawyer to map out a plan of reduction which they are recommending to the different legislative bodies of the cotton states.

acre above eight acres to the plow. In the opinion of the company such a law would restrict the planting of cotton to eight acres to the plow, and would materially reduce the 1915 crop.

RETIRING COTTON.

The Swift Specific company of Atlanta, Ga., which is one of the largest wholesale houses in the United States handling proprietary medicines has announced to all its customers that it will take in payment of its accounts cotton at ten cents a pound.

Stenographers Affected by War.

"If the female stenographers in New York City now out of work paraded two by two up Broadway, the line would reach from the Battery to a point near Forty-Second street," declared a representative of one of the big typewriter exchanges.

Cruce Revokes Many Pardons.

Oklahoma City, Oct. 5.—Governor Cruce this afternoon issued an order revoking a majority of the paroles and pardons granted by acting Governor McAlester, and it is likely the matter will now have to be settled in the courts.

It is understood that habeas corpus proceedings were instituted in the district court of Pittsburg county today for the release of at least two prisoners who had received clemency at the hands of acting Governor McAlester.

DEMOCRATIC PRESS BUREAU Millions Saved.

Thirty-five million dollars is the sum saved to the oil men of the state of Oklahoma by reason of the vigorous, or somewhat unusual orders of the state corporation commission, according to Mr. M. C. French, a prominent oil man of Okmulgee.

A Small Matter—Explain.

While Judge John H. Burford, the republican candidate for United States senate, and John Fields, the republican candidate for governor, are discussing questions of economy and throwing brickbats at the state administration, we would like to ask Judge Burford to explain just one little matter.

Fields' Wooden Horse!

The Daily Husonian, edited by C. W. B. Hinds, one of the most interesting editorial writers of the state, prints an editorial calling upon Jim Harris, the big farmer boss politician of the republican party, to furnish information about the purchase of a wooden horse for the A. & M. college by John Fields when he was connected with that institution.
