ONE WEAK SPOT

Many Ardmore People Have a Weak Part, and Too Often It's the Back

Many people have a weak spot. Too often it's a bad back. Twinges follow every sudden twist. Dull aching keeps up, day and night. Backache is often from weak kidneys.

In such case a kidney medicine is needed.

Doan's Kidney Pills are for weak kidneys.

For backache and urinary ills.

Ardmore people recommend the remedy.

Mrs. J. N. Lathrop, 112 Third Ave., S. W., Ardmore, says: "For over a year I suffered from backache that kept me from getting my proper rest at night. It had a constant pain across my loins and hips and I was miserable in every way. Doan's Kidney Pills did me a world of good. I have had no cause for complaint since. I know of several other people who have used Doan's Kidney Pills with benefit."

Price 50c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Lathrop had. Foster-Milburn Co., Props., Buffalo, N. Y.

to execute and deliver to the City of Ardmore, Oklahoma, a good and sufficient bond in the amount of thirty per cent (30 per cent) of the estimated costs of said improvements, said bond to be conditioned upon the full and faithful execution of the work, the performance of the contract and for the protection of the city and property owners against any loss or damage by reason of any negligence or improper execution of work by such contractor, his agents or employees. And shall also execute and deliver to the City of Ardmore a good and sufficient bond to be approved by the Mayor and Board of Commissioners, in the sum of 30 per cent of the contract price of the improvements, conditioned upon the maintenance in good repair of said asphalt pavement for a period of five years from the date of completion of said contract.

All such bids will be opened and considered by the Board of Commissioners at the City Hall, of said City of Ardmore, Oklahoma, at 8 o'clock p. m., on the 26th day of May, 1915.

It is further understood that the Board of Commissioners reserves the right to reject any and all bids.

Some Forms of Rheumatism Curable

Rheumatism is a disease characterized by muscles. The most common forms are: Acute and Chronic Rheumatism, Rheumatic Headaches, Sciatic Rheumatism and Lumbago. All of these types can be helped absolutely by applying some good liniment that penetrates. An application of Sloan's Liniment two or three times a day to the affected part, will give instant relief. Sloan's Liniment is good for pain, and especially Rheumatic Pain, because it penetrates to the seat of the trouble, soothes the afflicted part and draws the pain. "Sloan's Liniment is all medicine." THRIFT TALK—TAKE UP THE COST OF WASTE

AGRICULTURAL WASTE — MANY DO NOT REGARD FARMING AS A BUSINESS — COST OF SMOKE IN INDUSTRIAL CITIES.

"Men do not reap in the spring, my dear. Nor are granaries filled in May. Save it be with a harvest of former years. Stowed up for a rainy day."

"The seasons will keep their own true time. You can hurry nor furrow nor sod. It's honest labor and steadfast thrift that alone are blessed by God."

—Alfred Austin.

A prominent agriculturist says that many American farmers have not got down to farming as a business, and that the richness of their soil is the only thing that saves them from failure.

Speaking of the waste of fodder, he says:

"There are weeds enough in many corn fields to fatten a carload of sheep, allowing them to eat the down stalks, the lower blades, and the low-hanging ears that the farmer would hardly miss."

"We are great wasters of corn fodder. All through Ohio and Indiana, and even in New England one sees farmers busy taking down their corn shocks, all weather beaten on the outside, husking them out by hand, throwing the corn into piles on the ground, to be picked up again, and then tying up the fodder, leaving much of the valuable fodder outside to be weathered before it is fed to the stock."

"Even greater waste is that in the corn that is not harvested. Iowa, Illinois, eastern Kansas and Nebraska, and southern Minnesota had about forty million acres of corn last year, of which probably not more than one-fourth was harvested for the silo or the shock or for shredding. The rest goes to waste, and it amounts to over one-third of the feeding value of the whole crop."

But the city dweller, be he business man or manufacturer, can not afford to point the finger of scorn at the farmer as a waster, because waste is rampant in the cities likewise.

Lewis E. Thels, who has investigated the subject thoroughly, is authority for the statement that unnecessary coal smoke costs American industries and American cities a very great many millions of dollars yearly.

Black smoke consists largely of unconsumed coal particles thrown into the atmosphere by improper stoking. Smoke also contains acids of value which not only are usually wasted, but they are also destructive of everything they touch.

The pollution of our atmosphere with smoke places a heavy burden upon us. It greatly increases the death rate. It lowers our efficiency. Engineers have estimated that the cost to the city of Cleveland because of its smoking factories, is \$5,000,000 a year. The loss to Chicago is estimated at \$17,000,000 a year. The people of Pittsburgh suffer an annual loss of \$10,000,000 through smoke. The annual bill on account of smoking factory chimneys is reckoned at \$500,000,000.

One Pittsburgh manufacturing company alone has effected a saving of \$50,000 a year through the abolition of smoke in its chimneys by means of double steam pressure and mechanical stokers.

Installation of smoke consuming machinery and proper stoking, engineers claim, will prevent much of the loss now suffered from this source.

We are horrified by the stupendous waste being wrought by the destructive forces of war on the other side of the globe. Let us not overlook the fact that, individually and collectively, we Americans are responsible for an aggregate of waste which is almost if not quite as stupendous, and the fact that history's most devastating war is now in progress, should impel us to wage unremitting war on waste of all kinds in our own country.

Best Thing for a Bilious Attack

"On account of my confinement in the printing office I have for years been a chronic sufferer from indigestion and liver trouble. A few weeks ago I had an attack that was so severe that I was not able to go to the case for two days. Failing to get any relief from any other treatment, I took three of Chamberlain's Tablets, and the next day I felt like a new man."
