**STREET STORIES**

The citizens' committee was in session yesterday, and closed three claims which the Santa Fe claim department failed to agree upon. The claims in every instance were materially reduced from the amount the claimants were asking from the railroad company.

It's a good thing that Ince or Griffin, the two great moving picture directors, were not in the city yesterday during the filming of the local movie play. Had they been here, a certain shoe store in this city would have lost a tolerably good clerk, and there is no telling what would have become of the heroine.

Up to last night, the Santa Fe claim department and the citizens' committee had settled 1750 of the total number of claims filed. The railroad company up to last night had paid out \$725,000 for forty fatalities, 405 personal injury and 1,305 property damage claims.

At the annual election of officers of the Yeomen last night, the following were chosen for the ensuing term: A. B. Hayes, foreman; R. E. Pellitier, M. of C.; M. S. Wolverton, M. of A.; C. C. Lynch, correspondent; Mrs. Effie Wilkes, chaplain; after the election the entire party were the guests of Mr. and Mrs. Lucien Cox at a theatre party at the Majestic.

**To Clean Porcelain.**  
For cleaning white porcelain sinks and bathtubs use a solution of one pint of turpentine thoroughly mixed with one-half cupful of salt. You will find this does not injure the smooth surface in the least.

**Family Record Hard to Beat.**  
A family record that is hard to beat is that of a man who has died recently at Iketshall, Suffolk, England, aged ninety-six. He belonged to a family of 25 brothers and sisters. He is survived by two sisters, aged ninety-four and eighty-two, and one brother, eighty-four. He had nine children, fifty-one grandchildren, fifty great-grandchildren, and two great-great-grandchildren.

**Arctic and Antarctic Icebergs.**  
It is not generally known, even to sailors, that there is a marked difference between icebergs in the Arctic and Antarctic circles. Those of the Arctic ocean are irregular in shape with lofty pinnacles, cloud-capped towers and glittering domes, whereas the southern icebergs are flat-topped and solid-looking. The former touch the shore by narrow leads, but the formation of the latter is more regular. The northern are neither so large nor so numerous as those met with in the southern ocean. In 1855 an immense berg was sighted in 42 degrees south latitude, which drifted about for several months, and was sighted by many ships. It was 300 feet high, 60 miles long, and 40 miles wide, and was in shape like a horseshoe. Its two sides inclosed a sheltered bay measuring 40 miles across. A large emigrant ship ran into this bay and was lost, with all on board. Only about one-ninth of an iceberg is visible above the water. There are several well-authenticated accounts of icebergs 1,000 feet high having been sighted in the southern ocean. This would make their total height 9,000 feet, or nearly two miles.

**AT THE THEATRES**

SEE YOURSELF IN THE MOVIES TOMORROW

Mr. Goldsmith, to the Camera Man: "Mister, won't you please play 'Silver Threads Among the Gold'?"

The "fire scenes" and final pictures for the home talent movies were taken yesterday afternoon, and they are good. A large crowd was out to watch the proceedings, and, of course, they were taken, too. "Bob" Chambers made a spectacular rescue of the heroine, Marie West, from the flames, and all who see these pictures will be surprised and pleased, as all who took part in the production acted their parts to perfection, including Judge Harrelld, Guy (Choc) Price, Bob Bullock, Edgar Payne, and the many others who were cast in the different roles. These pictures will be shown at the Palace tomorrow (Wednesday), and at the Royal Thursday, in order to give everyone an opportunity of witnessing this very unique kind of entertainment. In order to secure a seat, you'd better be on hand early.

**WEST MAIN ST.**  
**E. B. LUKE EST. 1895**

of this brilliant and popular young star during the past half year. In succession she has appeared with exceptional success in The Warrens of Virginia, The Captive, Stolen Goods, The Clue, The Secret Orchard, and The Case of Becky. She now approaches the finest and best characterization of her career, a double role in which she appears at twin-sisters in Margaret Turnbull's "The Secret Sin."

For masterly photography, attention to detail, beautiful scenes and a deep, heartrending story, "The Secret Sin" is in a class with the finest of Lasky productions.

Twin sisters, Grace and Edith, form the center of this interesting photoplay. Circumstances make it necessary for them to earn their living, as their father is poor, and Grace, unable to withstand the physical hardships of menial work, becomes a victim of drugs, and a frequenter of Chinese opium dens. This is the secret sin.

**WORK BEGUN ON  
ODD FELLOWS'  
BUILDING**

EXCAVATING HAS BEEN FINISHED AND THE FOUNDATION WILL BE LAID AT ONCE. WILL BE FINISHED IN THREE MONTHS.

Work of erecting a new Odd Fellows building has begun and the excavating in the rear of the present structure has been finished, and the foundation will be laid at once.

The work is under the supervision of Joe Pate, and the plans for the new structure were drawn by J. B. White of this city.

The building will be 50 by 90 feet, and lower floors will be used as business houses. The upper floor will be devoted to the lodge rooms, banquet hall and property rooms, the main hall will be 40 by 50 feet, and the plans call for a very handsome front. The entrance will be from the front, but there will be a stairway at the rear as well for emergencies.

The Odd Fellows have a very desirable piece of property, centrally located and will always be in demand by substantial tenants.

The lodge hopes to move into their new quarters in about three months.

Pretty little Margarita Fischer is featured in a Mutual Masterpicture at the Majestic today. The title is "The Miracle of Life," and it tells the story of a young wife, very much taken up with social affairs and loathing the thought of motherhood and attempts to thwart it. Then comes the crowning miracle. See the picture, and see how cleverly this question is handled by an all-star Mutual cast. It is one every man and woman in Ardmore should see.
