Camel Cigarettes

are wide-open for comparison with any cigarette at any price! Most sensitive smokers appreciate the pleasure Camel quality offers. They prefer it to premiums or coupons! Freedom from tongue-bite and throat-parch is as welcome as is the absence of any unpleasant cigarette after-taste!

Camels are blended choice Turkish and choice Domestic tobaccos; you'll prefer their new flavor and mild-smoothness to either kind of tobacco smoked straight! That desirable, satisfying "body" is all there—without any come-back! No matter how many you smoke!

Camels are sold everywhere in scientifically sealed packages, 20 for 10c; or ten packages (200 cigarettes) in a glassine-paper-covered carton for \$1.00. We strongly recommend this carton for the home or office supply or when you travel.

R. J. REYNOLDS TOBACCO COMPANY, Winston-Salem, N. C.

The stamp placed over end seals the package, which keeps out air, thereby preserving the quality of the blended tobacco. By inserting the fingers as illustrated, the stamp easily breaks without tearing the tin foil, which folds back into its place.

WOULD REMODEL THE KIMONO.

Japanese Women Think the Present Form Not Suitable.

Tokio, April 19.—A movement has been started by a number of Japanese women to remodel the present form of the kimono. It is led by Mrs. Irisawa, the wife of Dr. Tsuneko Irisawa, a prominent physician. She thinks that the kimono in its present form is not suited for practical purposes.

"It is very inconvenient when at work," she said, "and it is rather unnecessarily expensive. The people of the middle classes and below have to spend one-third of their income for clothes, and the lowest class of people spend nearly all of their money for clothes.

"The number of rolls of cloth needed for a set of suits for a man or a woman in winter is on the average about 8; the length of thread needed to sew them about 339 feet, and the number of stitches about 30,000. The garments have to be made by the woman of the family by hand, not by machines, and it requires days to do the work. The women folk have to devote their time to it all the year round. For educated women to devote their time to such service is uneconomical from the point of view of the conservation of human energy.

"We propose to find some way by which all these unnecessary expenses may be eliminated."

Prizes have been offered for the best models of kimonos, and all sorts of kimonos for men, boys, and children at home, for visiting and for school use are to be included. An exhibition will judge the designs and award prizes.

One reason why many Japanese men wear western clothes today is that they find them less expensive than the Japanese dress. Different kinds of kimonos and other garments are required for various functions, and the tailor bill of a well-dressed Japanese gentleman is very high.

FORM AERONAUTIC DIVISION

Branch of Texas Naval Militia to be Formed at Houston.

Houston, Tex., April 19.—An aeronautic division, with headquarters at Houston, will be one of the branches of the state naval militia being organized and enlarged. This division however will be the last to be organized, as the deck and engineering divisions, and a company of marines will be the first perfected, in the order named.

Houston is expected to furnish a half dozen men for the permanent aeronautical base to be established in Galveston. The flyers will be given permanent instructions. Already forty are trying for places in the aerial corps.

It has been announced that the navy's summer cruise will be held July 15 to 29, and that New Orleans, Key West and Havana will be the points visited. The destroyer "Reid" has been assigned to the naval militia for this cruise, and her officers will act as instructors to the state marines.

The local company of the naval militia is being organized by W. K. Hawthorne.
