UNOFFICIAL REPORTS SAY CARRANZA WILL STAND BY ORIGINAL ORDERS

PRIVATE ADVICES FROM MEXICO CITY SAY CARRANZA IS DETERMINED TO STAND BY ORDERS TO TREVINO TO ATTACK AMERICANS.

If this Report is True, No Way is Seen to Avoid a Break Between United States and Mexico—One Faction of Carranza's Cabinet Said to Favor More Defiant Attitude and Wanted to Include American Reply a Demand for Immediate Withdrawal of all American Soldiers in Mexico—Advices Do Not Indicate Carranza Answer May Be Expected to Reach Washington—Lansing Informs South American Ambassadors that United States Has Nothing to Mediate with Mexico.

Washington, D. C., June 30.—Private advices reaching Washington from a reliable source in Mexico City said that Carranza and his advisors are determined to stand by the orders to Trevino to attack Americans moving in any direction except north, and that no way is seen to avoid a break with the United States.

One faction of the Carranza cabinet, it was said, urged a more defiant attitude and wanted to include in the American reply a new demand for the immediate withdrawal of all American soldiers in Mexico.

The advices did not indicate when the Carranza answer may be expected.

The unfavorable private reports had reached Washington in time for the cabinet meeting this morning and practically no new developments in the Mexican crisis were to be considered.

Should the Mexican reply follow the line indicated and be defiant to the United States, however its meaning might be wrapped about with diplomatic language, there is no indication that the administration would waver in its determination to continue the protection of the border by military operations. President Wilson will probably lay the whole matter before congress immediately.

Won't Accept Mediation.

Washington, D. C., June 30.—The Washington government still awaits compliance with its demand by Carranza, and is without any advices as to when a diplomatic reply may be expected. Pending receipt of a satisfactory answer, the United States will continue to hurry troops to the border and to take every necessary step in preparation for carrying out its purposes by force of arms. Information that Carranza intends to back up his orders issued to Trevino to attack American troops moving in any direction other than the border, Washington officials are fully prepared for such a reply, but expect reaffirmation of Carranza's position to be made in a note free from hostile language and continuing the discussion of the advisability of withdrawing the American soldiers. Secretary Lansing made it clear to Ignacio Caldero, minister from Bolivia, yesterday, that until Carranza's reply is received, no offer of mediation will be accepted by this country.

It is announced that the right to pursue raiders into Mexico will be maintained and exercised without interruption and if the border can be properly protected only by temporary military occupation of Mexican territory adjacent to the line, this will be the course of the United States.
