FARMERS HAVE A CHANCE

Will someone who knows tell us why farm lands are so cheap in this country? An Ardmore business man stated recently that he had been offered some of the very choicest lands in the county at \$30 an acre. He also stated that lands could be bought for \$10 an acre, and there are many acres of the poorer lands that can be had for \$7.50 an acre.

There is apparently no reason for cheap lands in this country. Titles are good and lands are productive. The country is reasonably well provided for in the way of transportation and markets are always good.

There were two or three years here when on account of lack of rainfall farm lands did not pay a dividend. But those conditions were not local. There was a lack of moisture in a dozen different states at the same time.

These \$7.50 lands are productive lands. They will not grow big crops of corn and wheat but they will pay for themselves in one good cotton crop. The same lands will grow an immense amount of feed in Sudan grass, in peanuts and in kafir corn and kindred crops.

Oil investments may have destroyed land values for the time being. When an oil investment is made just right it yields a big dividend but an investment in agricultural lands is always right and always yields a fair dividend and especially will investments be good at this time when lands are so cheap.

Every farmer ought to take advantage of the opportunity to own a home. The state has a fund to help him in this good work.

High Price of Paper.

Publishers are up against the real thing. There is a scarcity of print paper and the price is climbing higher

REGISTER IF YOU WANT TO BE IN THE GAME

SECRETARY CARLOCK WILL KEEP OPEN HOUSE UNTIL MIDNIGHT SATURDAY FOR BELATED PATRIOTS.

If you are contemplating a race for any particular office in Carter county, it is well to remind you of the fact that you will be disqualified if you fail to register your name with the secretary of the county election board before midnight tomorrow night—the last date set by law.

There have been oversights in the past that caused candidates some embarrassment when they found that they had failed of this most important part of the campaign. It costs nothing but a little time, and unless your name is written there, you have no other chance of getting your name on the ballot.

and higher. The Terrell Daily Transcript comments as follows:

"Congratulating itself on the arrival of a carload of paper that was ordered in March, the Denton Record-Chronicle authorizes anybody to wager his or her last copper that it is going to economize in the use of print paper hereafter. The high price of paper would bring about good results if it should beget like good resolutions on the part of a good many of our exchanges. They are wasting good white paper by printing eight-page papers in four-page towns. Others are wasting by giving most of their first pages to scare heads. The really successful papers are those that print the news. Big display type where news ought to be deceives nobody, and it costs a lot of money at the present value put on white paper."

This is excellent advice. Fortunately is the publisher who found himself overstocked at the beginning of the war. America is a neutral nation, but Americans must pay their quota of the cost of war whether it be in Europe, Asia or Africa. Publishers and their patrons are paying it in the excessive cost of print paper and all other printing materials. No, their patrons are not paying it, because the paper prints as many pages as ever, and are put to an extra expense for everything that enters into the manufacture of a daily or weekly journal.—Fort Worth Record.

GOLF NOTES

The program for July Fourth at Dornick Hills is one that will be enjoyed every minute of the day.

Competitions as announced yesterday.

Arrangements have been made for meals both at noon and in the evening, but notice must be given by Monday noon.

Music afternoon and evening.

Fireworks and dance in evening.

Members are given the privilege of inviting friends.

We note with pleasure the appearance of several new lady players, and hope they will persevere in spite of sunburn, freckles, and blisters, until they graduate from the ranks of "giggle golfers," and join the hierarchy of real golfers. Mrs. Ransom, president of the Women's State Golf association, is very cordial in her invitation, and even insistent in her request, that at least six or eight Ardmore lady players go to the state tournament at Oklahoma City next year.

IOWA BANKER MADE FORTUNE IN OKLAHOMA

MR. VOORHEES SAYS WOODROW WILSON WILL POLL MORE THAN DEMOCRATIC STRENGTH IN HIS STATE.

J. C. Voorhees who has been here from Anita, Iowa, on a business trip, left yesterday afternoon on his return trip. He has not been here for several months but he has kept in close touch with the field. Mr. Voorhees made investments here several years ago, some of his lands happened to be in the producing area and he made a nice fortune at Healdton. He has other lands north of Wilson and unless he makes a deal with others to do drilling he and his partner E. A. Walker, of Oklahoma, will drill a test in township 4 south and 2 west between now and the first of the year.

While Mr. Voorhees made lots of money in oil lands he passed up a deal on which he could have made the neat little sum of \$250,000. He and his partner E. A. Walker, sold to the Ardworth company some lands in section 10-4-3 on which the Ardworth people made a profit of three quarters of a million and these men could have made that profit had they drilled instead of selling. But after all the owners used good judgment, they made a hundred times more than they ever expected to make out of their investment and they sold at a time when the lands were not in the proven area and they eliminated all risks by selling.

In speaking of Woodrow Wilson and the state of Iowa, Mr. Voorhees states that Mr. Wilson is very popular in that state and while the democrats cannot hope to carry Iowa, yet Wilson will get far more than the democratic vote of the state. There was some criticism early against the policy of Wilson with reference to Mexico but the people see the question now as the president saw it and they are admitting that Mr. Wilson was right.

GOVERNOR CALLS RECRUITS FOR FIRST REGIMENT.

Oklahoma City, Okla., June 29.—Calling attention to the fact that the First regiment, Oklahoma national guard, is now about 500 short of war strength, Governor Williams this evening made a public appeal to the citizenship of the state to aid in recruiting the guard to the required strength. Already a movement has been started for the organization of a second regiment in the state, but the governor urged that the First regiment be completed first, as the war department would not encourage the organization of a second regiment until the first one has the required number of men.

Under the direction of the war department the Oklahoma national guard recruiting officers have been called in. It will now be necessary, says the governor, for those desiring to join the militia to apply at Fort Sill, the United States army military post, or at Chickasha, Tulsa, Ardmore, Muskogee and Oklahoma City. Applications should be made to the adjutant general's office at Oklahoma City.

BANDITS' VICTIM BURIED

Murderers of Wm. Parker and Bride Still Are At Large.

Hachita, N. M., June 29.—The bodies of William Parker and his bride of five months, murdered by Mexican bandits in a raid upon their ranch southwest of here yesterday, were buried in the little cemetery here today. The mourners were largely women, practically the entire male population of the town being members of the posse searching for trace of the marauders.

Columbus, N. M., June 28.—Military authorities here tonight announced they were convinced that earlier reports that six Mexicans, believed to have been the murderers of William Parker and his wife on their ranch southwest of Hachita, had been captured and killed, were erroneous. Investigation indicated, it was said, that the report probably was an outgrowth of a fictitious encounter between Americans aboard a train between Douglas and Hachita.

SEVEN HURT IN AUTO WRECK.

Machine Does Double Somersault Near Dewey Okla. Bartlesville, Oklahoma, June 29.—Two of a party of seven Dewey young people were seriously injured and the others painfully hurt last night when

their automobile went into a ditch and turned over twice. The accident happened at a sharp turn in the road at a railroad crossing near Dewey.

Otho Jones and Miss Euna Fisch are not expected to recover. The others in the party were Misses Carmen and Margaret Kitch and Bertha Furman and Goode Noland and Linn Gilson. They range in age from 16 to 18 years.

POISON DIDN'T KILL CONVICTED DYNAMITER.

McAlester, Okla., June 29.—That W. D. Irwin, lifer at McAlester penitentiary, died a natural death, and that no evidence of poison was found, was the report of State Chemist Dr. Edwin Le Barr to the board of affairs Thursday after an autopsy examination of Irwin's body.

Irwin died in the penitentiary hospital. A post-mortem letter, saying Jeff Allen had nothing to do with the crime both Irwin and Allen were sentenced for, appeared. Story that other prisoners killed Irwin to

get Allen free and get money Irwin had "planted" caused an autopsy.

Irwin and Allen were convicted of dynamiting the home of negro children at Taft in a conspiracy to gain possession of their valuable property.

U. S. CAN BURY SOLDIERS

But the Expense Must be Borne by American Government.

Mexico City, June 29.—Minister of War Obregon today instructed General Trevino, the Mexican commander at Chihuahua, to inform Consul Garcia at El Paso that no impediment would be placed in the way of the American authorities if they desired to remove the bodies of the American troopers killed at Carrizal to American territory for burial.

The correspondence between General Obregon and General Trevino arose from a request of General George Bell Jr., commander of American troops at El Paso, that the Mexican government deliver the bodies for burial. General Obregon informed

General Trevino that the expense for the transfer of the bodies to the United States must be borne by the American government.
