Nice Shower Monday

M. Wisdom, the corn king of Carter county, was in the city today from Glenn. Mr. Wisdom reports that a good shower fell at his home yesterday afternoon. The ground has a fair season now. His corn is good, and cotton in that locality is doing well and there is a big acreage. Threshing is about finished, and the crop of wheat and oats was light.

NOTICE

Bible class No. 7 of the Broadway Methodist church will meet Wednesday afternoon at 3:30 o'clock with Mrs. W. S. Wolverton instead of with Mrs. Hayden, as first announced.

684 is The Ardmoreite's job department phone.

STREET STORIES

General Ansel Earp of Oklahoma City came down yesterday afternoon from the capital to vote in today's election. This is his first visit here since he was appointed adjutant general of the state by Governor Williams.

O. Antle, cashier of the Mannsville State Bank, was in the city yesterday making a fraternal visit with P. C. Dings who is a member of the state banking board. Mr. Antle says bottom corn has made a good crop out his way, and cotton is looking fine.

All city and county offices were closed today on account of the election, and the various candidates began early to see that their friends went to the polls and cast their ballots.

Lon M. Frame is here today from Oklahoma City. He came by way of Davis where he visited a short time. Mr. Frame has moved his voting place to Oklahoma City, but he can't stay away from a hot fight, therefore he came to a city where hot ones are pulled.

Noisy Streets.

The abatement of unnecessary noises is becoming each year a more serious problem in great cities. There has been an extension of quiet zones in the neighborhood of churches, hospitals and schools; but even with these, busy cities, whose pavements and traffic combine in the production of noise, find further relief important. New York, with the more general use of the motor car, is much noisier than it was in the earlier days of heavy horse-drawn trucks. This has caused a controversy as to which causes the more noise—the horse truck or the motor car. Investigators appear to agree that it is the former.

Francis M. Hugo, secretary of state of New York, believes that cities can only hope to become quieter by paying more attention to the improvement of streets. Perfectly laid wood pavements, he says, probably produce the least noise, with smooth, new asphalt next, roads made of hard stone or slag and covered with bluminous material are not far behind. Toward the other end of the scale must be placed inferior macadam, full of holes and bumps, while the noisiest of all is probably the poorly laid stone block. Mr. Hugo does not classify the concrete road, but it would probably be entitled to a place close to good macadam. The noise-producing road is not necessarily the hard-surfaced road, but the one which is full of bumps and ruts.

There are hundreds of automobiles now where there were dozens a few years ago. This expansion, in a way, should reduce city noises, if the theory is correct, for many horse-drawn trucks have been replaced by motors. But no vehicle can be noiseless when passing over a rough street. Streets in bad repair cost cities thousands of dollars each year in damage to vehicles, and at the same time the people are irritated and annoyed by the noise.—Indianapolis News.

DEUTSCHLAND TO SAIL WITH- IN 24 HOURS

CAPTAIN KOENIG TO DECIDE EXACT MOMENT FOR DEPARTURE OF SUBMARINE FREIGHTER FOR GERMANY.

Baltimore, Md., July 31.—The German submarine liner Deutschland will leave Baltimore on her return voyage to Germany some time within the next twenty-four hours, unless plans made today are altered. Information to this effect was received tonight from a trustworthy source.

The exact time of departure was said not to have been determined upon. Captain Paul Koenig, commander of the submarine freighter, himself will decide when his vessel shall be pulled into the stream from the pier to which she has been moored for three weeks.

Today was one of great activity at the pier. A large barge which blocked the entrance to the Deutschland slip was moved away to another pier. Aboard the barge was the ballast of the Deutschland, which she brought from Germany. It consists of pig iron and has been sold to a Baltimore dealer.

The tug Thomas F. Timmins, which met the Deutschland at the Virginia capes upon her arrival and which has stood guard over her ever since, took on as much coal as she could carry and took a position from which she quickly can put aside one small boat and cast a tow line to the submarine.

WON'T ACCEPT CONDITIONS

Germany Informs U. S. She Will Not Accept "Impractical Conditions."

Washington, Aug. 1.—Germany has informed the United States that on account of the "impracticable conditions imposed by Great Britain" on shipments of foodstuffs for the relief of the starving Poles, further negotiations for co-operation in the relief will be devoid of purpose.

Owing to the favorable harvest prospects, Germany says relief is unnecessary after October.

JEWISH PAPER IS VICTIM OF DYNAMITERS

BOMBS EXPLODED BENEATH BUILDING OCCUPIED BY JEWISH DAILY PRESS IN CHICAGO—BUILDING DAMAGED.

Chicago, Ill., Aug. 1.—Two bombs, believed to have been dynamite, were exploded this morning under the building of the Jewish Daily Press, whose publisher, A. M. Leiblig, was a star witness for the state in the recent trial of a score of labor leaders charged with conspiracy.

The building was badly damaged and the windows of adjoining buildings shattered.

FORTY-NINE BRITISH SHIPS WERE LOST

STATEMENT SAYS BRITISH SHIPS WITH TONNAGE OF FIVE HUNDRED AND SIXTY THOUSAND LOST DURING THE WAR.

Berlin, Aug. 1.—Forty-nine warships with a tonnage of 560,000, have been lost by England during the war, according to statistics given out today by the German admiralty. In the same period, the statement says, the Germans lost thirty warships with an aggregate tonnage of 162,900.

EMBARGO ON MUNITIONS

As Result of Explosion Effort Will Be Made to Stop Shipments.

New York, Aug. 1.—Representatives Egan and Hamel of New Jersey, after a conference of officials regarding the Black Tom Island munitions explosion, announced that they would go to Washington tomorrow and demand an embargo on the exportation of munitions from Atlantic coast ports.

Three Good Deeds.

A Cleveland man noticed an Irishman of his acquaintance coming along the street with a most beatific expression of countenance.

"Why are you so happy?" the Celt was asked.

"I have just done three good deeds" answered the latter, "and any man who has performed three good deeds has reason to be happy."

"He has, indeed," said the other. "And may I ask what the three good deeds were?"

"Well, as I was coming past the church this morning I saw a woman with an infant in her arms, crying that hard it would melt a heart of stone. She told me that for the want of \$3 to pay the fees she could not get the child baptized, and it was a sickly child at that and liable to die soon. I felt that bad for her, I pulled out the only \$10 I had in the world and told her to go and get the child baptized and bring me the change. She went inside rejoicing and soon returned, her face all smiles, and went away heaping blessings on my head. Now, ain't that enough?"

"That's good. Now, what were the other good deeds?"

"Others? That's all."

"I understood you to say you had performed three good deeds."

"And so I did. I dried a woman's tears—that's one; I saved a soul from purgatory—that's two; and, lastly, I got seven good dollars for a bad
