In Face of Rapidly Rising Prices We Hold This Sale!

Everyone is familiar with the way that the prices have been advancing right and left on everything.

This Great August Sale was planned almost four months ago. We knew then that the prices would be on the increase and we bought accordingly. Consequently the reductions of 15 per cent to 33 1-3 per cent made during this sale mean more than what might be supposed at first glance.

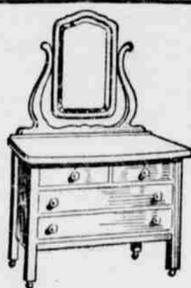

In addition to the tremendous purchases made for this sale months ago, we have included all of the odd pieces in our regular stocks of which we do not happen to have more than one or two of a kind.

Every odd display sample on our floors enters into this sale along with the other merchandise, which means that you are offered an opportunity that exceeds in value giving any previous sale conducted by this store. It is unquestionably the greatest selling event announced in Ardmore by a housefurnishing concern.

Can you read of the great saving opportunities we print below which are representative of our entire stocks and turn this page over without planning on taking advantage of this August Sale tomorrow?

You can't if you really want to make the most of your opportunities.
