

HUSBAND RESCUED DESPAIRING WIFE

After Four Years of Discouraging Conditions, Mrs. Bullock Gave Up in Despair. Husband Came to Rescue.

Cañon, Ky.—In an interesting letter from this place, Mrs. Bettie Bullock writes as follows: "I suffered for four years, with womanly troubles, and during this time, I could only sit up for a little while, and could not walk anywhere at all. At times, I would have severe pains in my left side.

The doctor was called in, and his treatment relieved me for a while, but I was soon confined to my bed again. After that, nothing seemed to do me any good.

I had gotten so weak I could not stand, and I gave up in despair.

At last, my husband got me a bottle of Cardui, the woman's tonic, and I commenced taking it. From the very first dose, I could tell it was helping me. I can now walk two miles without its tiring me, and am doing all my work."

If you are all run down from womanly troubles, don't give up in despair. Try Cardui, the woman's tonic. It has helped more than a million women, in its 50 years of continuous success, and should surely help you, too. Your druggist has sold Cardui for years. He knows what it will do. Ask him. He will recommend it. Begin taking Cardui today.

UNITED STATES MAY SEIZE AUTO PLANTS.

Negotiations have been under way during the last week for the purchase by the war department of some 1,800 motor trucks for use by the army in connection with the Mexican operations, and some contracts for the machines have been placed. Difficulty has been encountered in obtaining satisfactory terms of delivery, due to the fact that the motor truck manufacturers are largely engaged in filling European orders. The situation may result in the war department availing itself of the authority contained in section 120 of the army act of June 3, relating to the purchase of military supplies in time of actual or imminent war. Failure to fill orders as desired may lead, under the terms of this act, to seizure of a plant by the government and the manufacture under department supervision of the material that may be required.

It is proposed to purchase enough motor trucks to equip 52 companies, each company having 33 trucks—30 cargo trucks, one kitchen truck and repair truck and two gasoline supply trucks. The trucks are about equally divided as to capacity between the three-ton and one and one-half ton types. These and more trucks will be required on account of the increase in the military operations, and later on, if there is any extensive fighting, it will be necessary to acquire ammunition trucks. It is estimated that some \$10,000,000 will have been spent on motor transportation alone.—Motor Age.

UNITED STATES AT HIGH TIDE OF PROSPERITY.

New York, Aug. 1.—The foreign cataclysm, now entering upon its third year, finds the United States at high tide of prosperity. Bank clearances, bountiful crops, earnings of the railroads and industrial companies, the enormous output of steel and iron, a foreign trade balance for the fiscal year of \$2,136,000,000—these and countless other

signs point to the unparalleled prestige of the only leading nation of the world not at war.

The course of events in this country after peace shall have been declared continues to engage the attention of economists. In the small minority are those who declare that the need of the conflict will be followed by a tremendous inflow of foreign products, to the great detriment of home industries. It is assumed, also, that cessation of hostilities will inaugurate a heavy purchasing movement in our securities by foreign investors who deemed it necessary or wise to liquidate while war was raging.

This week is expected to bring developments of interest in the railway labor situation. Industrial conditions, more than ordinarily encouraging. Labor is reported to be undergoing further "liquidation" at some of the war plants, but wage schedules remain unchanged, except in instances where higher rates have been granted.

Miss Audreta Griswold and Miss Emily Hammus of New York have been chosen from a great number of applicants to spend a month in the

Ardmore living the "primitive life," to prove that women as well as men can live in the woods by their own devices and with what nature offers.

Liver Trouble.
"I am bothered with liver trouble about twice a year," writes Joe Dingman, Webster City, Iowa. "I have pains in my side and back and an awful soreness in my stomach. I heard of Chamberlin's Tablets and tried them. By the time I had used half a bottle of them I was feeling fine and had no signs of pain." Obtainable everywhere.

Miss Helen Keller, honorary vice president of an organization for aiding British, French and Belgian soldiers who lost their eyes in the European war, recently proposed that the scope of the organization be extended to include aid to Americans in case this country is involved in war.

Mrs. Selia Barton French, prominent in New York society, who has just returned from a 7,000-mile trip on which she started in behalf of the allied hospital work and Serbian relief fund, has applied to Secretary of War Baker for the organization of hospitals there.

THE CALL TO BREAKFAST

HAS A NEW APPEAL FOR THOSE WHO AWAKE TO A BREAKFAST OF

NEW POST TOASTIES

These new corn flakes bear a uniqueness because of their self-developed flavor and improved form. The flavor is the true essence of choice, ripe Indian corn. Unlike ordinary "corn flakes," the New Toasties do not depend upon cream and sugar for their palatability.

Try some dry—they're good that way and the test will demonstrate their flavor. Then try some with cream or rich milk. Note that New Post Toasties are not "chaffy" in the package; and that they don't mush down when cream is added.

New Post Toasties are known by the tiny "bubbles" on each flake, produced by the quick, intense heat of the new process of making. They come in a wax-sealed package that preserves their oven crispness and delightful flavor—the most perfect corn flakes ever produced.
