Triumph of Science.

Chemistry never achieved a more decided triumph than in the production of SOZODONT, which is a botanical preparation of wondrous efficacy in preserving and beautifying the teeth, rescuing them from decay, and rendering them as white as alabaster. It is a toilet luxury of which all should avail themselves. The unpleasant odor communicated to the breath by catarrh, bad teeth, etc., is entirely obviated by this fragrant and salutary antiseptic of which one bottle lasts a long time. Druggists and perfumers sell it. 23-26

"What will Tarrant's Seltzer Aperient cure?" ask the sufferer from a multitude of diseases. We answer: It will remove from the system the active cause of most of the diseases that flesh is heir to. It won't mend a broken limb, nor close a bullet hole; but it may be probably used in stomachic diseases. It will do no one any harm, and may do much good. Try it, and see if it won't suit your case. 25-27 BOLD BY ALL DRUGGISTS
