

The Bismarck Tribune.

THE BANNER CITY

The river is stationary at Buford. John Quinlan advertises for a lost pony. The ground is now in excellent condition for fall plowing.

Dan Manning's oats averaged sixty-five bushels to the acre.

Watson received yesterday a fine lot of ladies' cloaks and fine sequoes.

D. I. Bailey secured the contract for putting the tin roof on the Union block.

M. P. Slatery is putting in a set of hay scales opposite his store on Third street.

Cheap John, the auction man, is having a rushing trade. He buys and sells everything.

George Peoples has his residence upon stilts. He is digging a cellar and putting in a stone wall.

Not a kernel of grain raised in Burleigh county this year will be graded below No 1 hard.

If you want to buy a good Winchester rifle, new, A. F. VanEpps, of the Tribune, has one for sale.

The Jerome marble hunting car and party are on their way to the North Pacific country for an animal hunt.

Geo. Peoples has secured a contract for grading on the Jamestown branch of the North Pacific.

Wheat at Jamestown brings but 83 cents; at Bismarck 85. An advantage of the Missouri slope is the markets.

The new eight-foot sidewalk now extends well up First street. Work will begin on Second street in a few days.

Steele, the county seat of Kiddier county is booming. Over \$2,000 worth of lots have been sold during the past ten days.

J. C. Cady has just received a fine assortment of wall paper. New designs from the cheapest to the best manufactured.

The Turtle Valley postoffice has been transferred to Washburn. Postmaster G. G. Rhude, continues in charge.

H. S. Parkin has taken the contract for carrying the mail from Bismarck to Fort Sully, commencing Sept. 1.

Hereafter the steamer Undine will only make one trip on Sundays, leaving Bismarck at 9:30 a. m. and Mandan at 5:30 p. m.

Why not begin the grading of streets immediately so that property owners can set out trees and otherwise improve their premises?

On the farm of J. H. Richards yesterday Ed. Sloan threshed from half an acre 21 bushels and 40 pounds of wheat—or 45 bushels and 20 pounds for the whole acre.

Oscar Ward yesterday brought in a load of vegetables, among which was a best weighing twenty pounds. His whole load averaged up nearly in that proportion.

The Pioneer says: "Mandan is to play Bismarck on Saturday a game of baseball for \$25 a side, on the grounds in Mandan." Wonder if this will be like the horse race?

Maj. Fuller, of the Bismarck green houses, is now furnishing a very superior quality of tomato. They are very large and as fine flavored as can be grown in any country.

Edmund Hackett brought with him from Turtle mountain a specimen of lignite, which indicates the existence of by no means a poor quality of coal in that country.

Betz, the Philadelphia brewer, has purchased the land picked out some time ago, about forty miles north of Bismarck. Large malt houses will be erected in Bismarck.

Col. King, president of the Minneapolis fair, writes the Tribune that he has a number of fine saddle ponies for sale cheap. Any one wanting a pony might write to him at Minneapolis.

Jake Hannauer has opened a second-hand store and junk shop. He buys and sells everything, and his office, as near as can be learned, is everywhere. Jake is bound to get rich.

Rly & Thompson will handle the hard coal business as well as the productions of their own mines this winter. Mr. Raymond has turned the agency of the Northwestern Fuel company over to them.

Charley Williams has begun the foundation for his new refrigerator cellar and bottling works on Third street. The cellar will be 25x40 and the building 25x60. Mr. Williams proposes to keep up the boom in Ph. Best's famous beer.

Fargo Argus: Eastern papers complain of the short summers in Dakota; but the farmers in New York state already have had their crops injured by severe frosts, while the Dakota husbandman has his crops all ripened and gathered, and is enjoying the best of weather for the threshing.

The Fargo Argus chips in the following just as a tickler: The Bismarck Tribune is making all that it possibly can out of the fact that Burleigh county carried off the prize banner from the Minneapolis fair. The cheapest and best land vacant to-day in large quantities are on the Missouri slope, and this year's crops have demonstrated their wheat growing qualities.

There is nothing snide in any part of the Union block, now nearly completed. It is solid throughout, and stands as a monument to the skill of the contractors and supervising architect. The tin roof is now being put on, but the galvanized iron for the front, owing to the overworked condition of the cornice makers in the east, will not arrive for a couple of weeks. The brick work in the meantime, however, will be finished.

Minneapolis Tribune: Twenty-eight carloads of cattle were unloaded at the Union stock yards yesterday, which had been brought from Bismarck, 474 miles, without stopping for rest, in 26 hours. This is the longest run yet made with cattle on the North Pacific, and the shippers were well satisfied, believing that the quick time had more than made up for the long run.

Should the night be pleasant, on Friday evening will be given a grand festival at the reading rooms. As Mrs. Smith, who has done such excellent work in the reading room society leaves Bismarck Saturday this festival should be made a sort of farewell testimonial to that lady. This free reading room institution, has done much for Bismarck during the past year and its success is largely attributable to the untiring efforts of Mrs. Smith, president of the Women's Christian Society.

It seems that Stoyell and Wallace practiced a little strategy on Lounsbury and McLean yesterday. They were all intending to go down to Jamestown on the afternoon

freight. Stoyell and Wallace went up to the water tank, boarded the train and got the conductor to pull out, leaving Lounsbury and McLean with their numerous proxies behind. It seems that Williams became anxious about the train and finally asked Agent Davidson how soon it would pull out. Imagine his surprise upon learning that the train had already gone, and worst of all carrying his opponents. An engine, however, helped the "left" delegates out of the dilemma and the freight was caught at Apple creek, after which it is presumed the lions and the bears continued the journey in the same cage.

Col. Wm. Thompson and J. A. Fields, represent Burleigh county's interests on the exposition car of North Dakota products, sent to St. Louis and other points by the North Pacific.

The festival at the reading rooms to-night should not be forgotten. Peaches and cream and other reasonable delicacies will be served, and a good time is anticipated in a social way. Go.

The Big Horn arrived at Stevenson at 4:10 yesterday on her way to Bismarck when she learned that the Rosebud had sprung a leak, whereupon she pointed her nose up river again and proceeded to the Rosebud's relief.

DeGraff will sell at public auction to-morrow, at the Benton Line warehouse, the furniture of the steamer Red Cloud. As will be seen elsewhere the stock is to be sold to the highest bidder, and some astonishing bargains may be expected.

The Miles City Press says: "Miles is erecting as many new brick blocks this summer, as Bismarck, and without a boom. During the next year it is expected a large number of substantial business houses and residences will be erected."

Purely Personal.

Col. Craw leaves for Fort Stevenson this morning.

Capt. Wm. Harmon returned from the east last evening.

Col. Lounsbury left last evening on a business trip to Billings.

Col. McLeod, of the northwest mounted police, is the happy father of twins.

John I. Steen, who is threshing out eighty bushels of oats to the acre at Clarke, is in the city.

Mayor Raymond arrived from the east last evening. He was one of the "combination" at Jamestown.

Mr. J. Cruppaugh objects to the Tribune calling him "Saulpaugh," as it did yesterday. His objection is sustained by this court.

E. A. Williams, John A. McLean and J. F. Wallace, returned from Jamestown last evening. Col. Lounsbury returned yesterday morning.

Messrs. Bellows, Carr and Selmes, of the Morton county delegation to Jamestown, arrived home last evening. They say they took cigars occasionally but this doesn't look reasonable, as they were obliged to stock up at the Sheridan house.

L. P. Harper, St. Paul; J. B. Langlois, Chicago; O. H. Goode, Minneapolis; D. H. Baker, Chicago; J. B. Lyon, Union Dale, Pa.; B. F. Forbes, St. Paul; A. L. Faribault, Fort Yates; M. P. Gilbert, St. Paul; A. E. Taylor, Brainerd; Wm. W. and Perry Junis, Rushville, Ind., are at the Sheridan.

Messrs. Winston and Lewis, of Fort Stevenson, arrived in the city yesterday on business connected with proving up on their land near the fort. Mr. Winston had in 400 acres of oats this year, from which he has knocked out over 18,000 bushels of grain. One hundred acres of the crop was on sod.

John A. Stoyell returned from Jamestown at 4 o'clock yesterday morning, and last evening he was still feeding on turnips at five cents each. This would seem to indicate that he intends to jump politics and go into the lecture field to tell what he knows about the juicy bagas, and the proper time to pick carrots.

The Artesian Well.

It will be remembered that about the first of August the artesian well had reached a depth of 315 feet. At this juncture the pipe collapsed, and a month's time was lost in waiting for a steel shoe and pulling up the pipe. Work is now progressing again, and to-day the pipe will be down to the old work. It will now continue to go down at the rate of from five to ten feet a day, and in a few days a night force will be put on and the rate proportionately increased. The work will be rushed as fast as possible and it is likely that water from this well will be used by the people of Bismarck this winter.

The Fargo Fair.

Tuesday, the first day of the Fargo fair, opened with a cold drizzling rain, which caused a shiver of apprehension and disgust to creep up the Fargo spinal column. The sky soon cleared, however, and the ground was soon a scene of great activity. The mechanical and agricultural departments are well filled, and the fair promises to be quite successful. Much interest was manifested in the races. The 2:32 contest was won by Bay Brino, whose best time was 2:30, and the running by Fly Dance.

The Rosebud Sunk.

News was received yesterday afternoon of the sinking of the steamer Rosebud, one of the champion steamers of the Coulson line. A dispatch to the Tribune from Stevenson last evening says she ran on a snag and sunk in three feet of water at Berthold, and that she can probably be raised. There were twenty passengers on board who were transferred to the Big Horn which is expected to-day. Capt. Maratta has gone up to Berthold to investigate the matter.

New Telegraph Line.

O. C. Greene, superintendent of the Western Union telegraph lines, arrived in the city last evening to celebrate the arrival of the new through wire from

Bismarck to St. Paul. This wire has been necessary for a long time, and the company is as pleased as the Tribune and its readers are over the event. Bismarck has become a telegraphic centre of great importance, and the new wire will be exclusively a Bismarck commercial line. The putting up of this wire has necessitated the general repairing of poles and the addition of cross bars during the entire distance from Bismarck to St. Paul, so that what used to be a rickety affair is now a first-class telegraph line.

Another Bow to the Combination.

The Mandan Pioneer says it bows to the combination.

It further says: "Burleigh county having in a measure righted the wrong done the regular Morton county delegation at Grand Forks, and thereby recognized the better element of our republican party, the Pioneer takes pleasure to hereby cordially indorse the nomination of Mr. E. A. Williams, feeling satisfied that a better era of goodfellowship between the two counties will grow out of yesterday's result. There should be harmony between the better elements on the Missouri slope, whose interests are identical, and Burleigh county having done her part by using her honest efforts to admit the regular Morton county delegation, the latter are ready to do theirs and do it cheerfully. Mr. Williams will have many opportunities to win for himself a warm spot in the hearts of his Morton county friends, none of which he will likely allow to pass unheeded. Morton county gladly welcomes the name of Hon. E. A. Williams on the legislative ticket, and will give a fuller expression by a rousing majority at the polls."

Telegraphic Ticks.

The Massachusetts democrats have nominated Ben Butler for governor.

John Strauss and L. Howard, of Boyne Falls, Mich., are under arrest for forging pension papers.

Officer Sprague, of Jamestown, N. Y., was fatally shot Tuesday night by a suspicious character whom he was trying to arrest.

The sovereign grand lodge, I. O. O. F., in session at Baltimore, elected Erie T. Leach, of Iowa, grand sire for two years.

A lady about 60 years of age fell from a night train on the Wabash railway, near Monticello, Ill., Wednesday night, and was killed.

The Scoville divorce case was called Tuesday, in Chicago. The default was set aside, and twenty days given respondent to file answer.

A great fire is raging in the western part of Nebraska, between the Platte and Republican rivers. A vast quantity of hay and grass is destroyed.

Wm. Hardin and son, of Columbus, Ind., fired on a party who were robbing their melon patch, Tuesday night, and instantly killed Thos. Kelly.

Senator Ferry tells a Chicago reporter that the republicans of Michigan will carry the state by 25,000 majority, notwithstanding the greenback-democrat fusion.

Deyo's tannery, Madden's cheese factory, and a number of other buildings were demolished, at Newburgh, Ont., Tuesday, by a hurricane. Much other damage was done.

Near Greenville, Pa., Tuesday, on the New Haven & New Hampton railway, a collision occurred between freight trains. Conductor Phillips was killed, and two brakemen badly mangled. The engine was a total wreck.

Geo. Devers, a farmer, was shot, and it is thought mortally wounded, at Georgetown, Ky., yesterday by Marshal George A. Cole. Devers had been flourishing a knife on the streets and resisted arrest, when he was shot.

An elevator in the store of Austin & Co., at Kansas City, snapped the wire when at the fourth story, and George Backus and B. Winters, who were aboard with a load of iron, went to the first floor and were killed.

A drunken tramp set fire to a vacant building at Grand Meadow, Minn., and an entire block was destroyed. Loss \$30,000; light insurance.

A. L. George, colored, shot Henry Duffy, also colored, through the abdomen in an affray, Wednesday morning, near Middletown, O. Duffy will die.

In anticipation of trouble in Utah during the coming campaign, Gen. Howard has sent two companies to reinforce the garrison at Fort Douglas, near Salt Lake.

A bank sneak thief stole \$2,800 in the Fourth National bank, St. Louis, which a young man connected with a mercantile house of the city had just drawn, and carelessly laid on a register while answering a telephone call.

Secretary Folger's Work.

WASHINGTON, Sept. 21.—The books of the treasury department show that under the administration of Secretary Folger, during the period of ten months from Nov. 1, 1881, to the first of the present month, the following reductions have been effected: Of the interest bearing debt, \$129,035,000; of the total debt, less cash in the treasury, \$126,608,294; of the annual interest charge, \$4,515,756.

Not a New One.

ROCHESTER, N. Y., Sept. 21.—Dr. Lewis Swift, director of the Warner observatory, is receiving messages from all parts of America claiming the discovery of the large naked eye comet now visible near the sun. The doctor says it's the same comet recently discovered in South America, is moving west, and is not the comet of 1812, nor identical with any known comet.

New York Monopolists.

SARATOGA, Sept. 21.—The Merchants, Manufacturers and Producers Association has denounced the anti-monopoly organizations of New York as irresponsible bodies, and declares that they will not support any candidate known to be inimical to the business of the state. It is claimed that over \$300,000,000 of capital is represented.
