M'COY SAYS MAGAZINE IS O. K.

"Did not that jar you, citizens of Tulsa?"

I refer to the article published yesterday in your contemporary, "The Daily Democrat."

The writer of the article simply displayed that he is not acquainted with explosive powder or the methods of handling nitro-glycerine. That it is one of the most powerful explosives known to science is known especially among men who have followed the oil country for thirty-five years and it is the only explosive that can be used effectively in increasing the flow of either oil or gas or water. The reason for this is—that its power is so great and yet so limited as to distance. To illustrate, I will cite some instances of the effects following explosions. A wagon load of about 100 quarts exploded, annihilating the driver, wagon, horse, except the head of the horse and the bridle. The head lay in the road directly beneath where the horse was standing with bridle on it. The writer has been within a mile and a half of three nitro-glycerine factories containing thousands of quarts of the explosive and only felt a jar.

Within a month a magazine containing a large amount of this dreaded stuff exploded within a mile of Butler, Pennsylvania. A few panes of glass were broken, yet people within five hundred feet were not injured in the least.

The magazine complained of is two and one-half miles from the Frisco depot, with several hills intervening. It is in a ravine on the north side of a large hill which would throw the whole force of the explosion in a direction away from town.

Who inspired the article I cannot say; positively I can give a good guess. The motive for it I cannot guess. The magazine is there to stay unless the courts of the territory say it shall go after hearing the testimony of men who know all about nitro-glycerine and its explosive effects.

I will explode 500 quarts of glycerine at my magazine and pay for all damage done in the city of Tulsa if the writer of the article will pay for the stuff. I will further guarantee to stand at the A. B. Smith No. 1 well, 500 feet from the magazine, during the explosion.

As to the amount of glycerine in the magazine nobody is supposed to know, because it is nobody else's business.

I have had no kick from any person or from any quarter relative to the location of this magazine until the article in yesterday's Democrat. MACK M'COY.

Our holiday goods are going fast but we still have a good assortment, cheaper than ever. J. F. Ayars, Second street.

A BIG POLITICAL FIGHT

Odell Declares War and Is Organizing Forces.

New York, Dec. 21.—The greatest political fight since 1891 was begun by the declaration of Gov. Higgins yesterday for James W. Wadsworth, Jr., as speaker for the assembly. Mr. Higgins' part in this movement is assumed to be taken in harmony with the views of Washington. Ex-Gov. Odell's friends say it is the administration against State Chairman Odell.

Odell came to town from Newburg on the first train today to organize his forces for the speakership fight. In spite of the fact that Gov. Higgins, President Roosevelt, George W. Dunn and all the Platt element of the Republican machine are for Wadsworth, Mr. Odell is for his own man. Assemblyman Edward A. Merritt, Jr., of Potsdam, and he means to fight for him to the bitter end. He held numerous conferences today with Senator Malby, Assemblyman Merritt and others. He would not say a word for publication.

Despite all this, however, it seems clear that Odell and Merritt are beaten. Senator Platt has declared himself out of it and has gone to Hot Springs, Va. The administration and Gov. Higgins have most of his following.

LOOK AT THIS.
