YOUNG WHITE MAN MURDERED BODY FOUND THIS MORNING HIS HEAD MASHED BY TRAIN

**MYSTERIOUS CIRCUMSTANCES
SURROUND DISCOVERY.**

STEEL KNUCKS ON CORPSE

Coroner's Jury Return Verdict Against Party or Parties Unknown.

The dead body of an unknown man was found on a siding on the Frisco tracks, thirty feet west of the Ratcliffe-Sanders Grocer Co., this morning at 5:30 o'clock. The wheels of a train had passed over him, completely severing the upper part of the head from the body. The hair was torn from the skull and hung by a fragment of skin. The features were so disfigured it was impossible to tell what they originally looked like. The body lay rigid and straight, one hand in a pants pocket and the other stretched out by his side.

A phone ring at the police station at the hour mentioned notified George Erwin, sergeant, of the discovery of the body. He immediately notified Mowbray & Winterringer. The mangled remains were brought to the morgue and at 8 o'clock Mayor Mitchell and a jury of six commenced inquest proceedings.

As the body lay on the slab at the morgue it was attired in a suit of jeans, pants and jacket, and the feet were shod with a pair of working shoes. Dr. Fred Clinton examined the remains and gave it as his opinion that the dead man was between 17 and 20 years of age.

On examination of the clothing, a pair of steel "knucks," some matches and a small note book were found. On the front page of the latter was the name, "Louis Friedman," and the address, Fort Smith, Arkansas; on the inside of the back cover were the words, "Miss Kate Ford's book." About thirty feet from the body was found a purse, and it was examined and proved to contain a cent, a 2-1-2 cent check, a post office box receipt, made out by Postmaster Seaman to T. B. Goodwin, and a receipt for money paid to Mitchell & Nelson.

A World man, recognizing the name "Goodwin," volunteered to bring the owner before the jury, and Mr. Goodwin testified that his purse had been stolen from his room in the Campbell building during the night; that it contained \$51, a few cents, a collar button, a nickel check, and two receipts. He identified the purse and the articles on the table as his, and knowing nothing further, was allowed to go.

Sergeant Erwin's testimony was taken as to the finding of the body and the conditions surrounding it. He had found a boulder, or a lump of ballast, covered with blood, a paper also bloody, lying close to the feet and further west. Still further west was found a pool of blood. He testified that the body was lying stretched out, the head moved east on the rail about 15 inches.

Dr. Clinton testified to marks on the head and face that might infer a murder had been committed.

The jury went out to view the spot where the body was found, and after carefully considering all the facts in the case, and looking over the ground, returned the verdict that the deceased had met his death at the hands of some party or parties unknown, and that his body was placed on the rails afterwards.

The jury's verdict is endorsed by the many who viewed the remains this morning. The supposition is that the knucks were placed in the dead man's pockets after he had been killed.

City Marshal Baber is working on two clues which may lead to the arrest of the guilty parties.

COMPLAINT IS MADE.

Of Sewerage Conditions on First Street.

Complaints have been made to this paper, that from Detroit to Elgin, along First street, filthy water is allowed to escape from several of the

stores and find lodgment along the tracks of the Frisco railway.

The main sewer is on First street, but there are no indications of its advantages being realized by the residents of that part of the city. Yesterday the stench from the refuse heaps and slops, very probably impregnated with certain germs not conducive to good health, was floating in the atmosphere. Why not adopt a strict sanitary law that will preclude disease?

CHURCH SOCIAL.

"Since birds of a feather flock together, I can no reason see why this same trick shouldn't work twixt you and me. At Mrs. Riekey's on Frisco and Fifth street you'll find a nest all complete on Tuesday at the hour of seven; we'll make it interesting while you're there, and entertain you until eleven. Ten cents will admit you at the door, where you'll get a new style hat and refreshments galore. If you're quick at guessing the various games, you'll get a feather in your hat."

NOTICE, REBEKAHS.

Members of Hiawatha Rebekah Lodge, No. 103, are urgently requested to meet at the home of Mrs. Shaw, one door west of Christian church, on Tuesday afternoon at 2:30 to complete arrangements for the dinner to be given on Thursday, April 26.

ZOHAR TEMPLE INSTITUTION

DRAMATIC KNIGHTS OF KHORASSAN TO POSSESS TULSA

ACROSS THE HOT SANDS

Tyros of Indian Territory on Wednesday Will Pass an Ordeal They Will Forever Remember.

The order has gone forth that Zohar Temple, No. 130, Dramatic Order of Knights of Khorassan, will be instituted in this city on Wednesday, April 25, and on that occasion 200 tyros will cross the burning sands of the desert and find rest and comfort in the temple.

These tyros will hail from every part of the Indian Territory or Oklahoma, and the Knights will gather from many states to assist in stirring up the tiger and make the occasion one of the hottest ever seen in this old town or, indeed, in this entire section.

The work of instituting the temple and making votaries out of the class will be performed by the temple and degree team of Kansas City, Mo., which has the reputation of being one of the best drilled teams in the order. The paraphernalia of the Kansas City temple and the costumes of the officers cost \$6,000 and it is said that they are the finest extant. This order is to Pythianism what the Mystic Shrine is to Masonry and only members of the Pythian order are eligible for membership.

The journey across the desert will be one the tyros will fully appreciate and never forget. So deep is the impression it creates that many of those who accomplish it are found doing strange things afterwards. Some have been known to rush into

A DAY'S OUTING.

Yesterday a World man enjoyed a little recreation, and some much needed rest, and through the kindness of C. C. Sigler, was transported to his farm nine miles southeast of Tulsa, where a sumptuous dinner was spread that captivated the hearts and stomachs of all who were present.

The party was composed of L. D. Sleeper and family, Ross Sigler and family, Clarence Sigler and family, Mrs. W. O. Shaffer, Mrs. Cora Roberts, Mrs. J. F. McCoy, Miss Francis Sleeper, Miss Laura Inez Jackson, Miss Maud Shaffer and Clarence Sleeper, while Mr. and Mrs. L. M. Hubbard were host and hostess.

It was a beautiful day and a pleasant drive, and the repeat daintily spread in the shade of nature's beautiful trees on a high summit overlooking valleys carpeted with verdure where countless cattle graze, forming in all a panorama of exquisite beauty.

Mr. Sigler has a large farm and has many hundred fruit trees and a vineyard growing that will some day bring forth an abundant harvest, a foundation underway for a modern home, the building material of artificial stone, and the plans when completed will reveal a residence almost palatial.

A well stocked farm and crops well cared for to a marked degree, surely indicates that Mr. Sigler and his son-in-law, Mr. Hubbard, have worked long and faithfully to bring about this change from the natural conditions that existed.

After a pleasant day so agreeably spent the entire party returned to the city with kind words of appreciation of the royal manner in which they were entertained.

M. E. SOCIAL TOMORROW.

The ladies of the M. E. church will give a social tomorrow night at the residence of Mrs. Riekey, Fourth and Frisco streets. A delightfully enjoyable time is promised and a large attendance is earnestly and cordially invited.

FIRE ON MAIN STREET

OLD FRAME SHACK BURNED.

Good Work Done by Tulsa's Fire Laddies.

A painters' and carpenters' shop on Main street opposite the Robinson hotel and adjoining the Turner building, caught fire just before the paper went to press, and a strong west wind immediately fanned it into a large blaze which threatened the Turner building. The department was a little slow in getting to the scene owing to one of the check lines in the harness getting caught and the driver's consequent inability to turn the team at Second and Main. This was soon remedied, however, and when on the spot, in 5 minutes the fire was under control.

The boys did excellent and quick work and undoubtedly saved the Turner building. The city again has reason to be proud of its fire department.

The frame destroyed belonged to Ben Rice, but he is not shedding any tears over its destruction. A couple of hundred dollars will about cover the damage so far as is known.

"NATURE'S NOBLEMAN"

AT THE GRAND THIS EVENING.

In Aid of the Suffering in San Francisco.

Representatives of the Commercial Club and two bus loads of musicians from the Crawford's Comedians band, the Commercial Club band and the Grand orchestra, paraded the streets of the city today advertising the play at the opera house tonight in behalf of the San Francisco sufferers.

Everything is in readiness for the event, and everybody who attends will be repaid. "Nature's Nobleman" is one of the best bills put on by the Crawford Comedians. It is a good, clean production, as its name implies, and will please all who witness it.

The object, along should pack the theatre. The suffering and homeless in San Francisco appeal to all that is best in human nature. Were we overtaken by disaster, San Francisco, as she was, would have been among the first to try to our aid. She has always been generous; we

EMPTY COFFIN STARTS INQUIRY

FOUND FLOATING IN POND IN NORTH SIDE OF CITY.

A POLICE EXAMINATION

The Whole City Awaited Results With Great Anxiety and Now Feels Immensely Relieved.

Chauncey Owens was amazed this morning at finding a coffin over five feet in length floating in a pond some few hundred yards to the northwest of his residence. The coffin was empty, but its appearance in such a place filled him with apprehension and he naturally inferred something was wrong. So many tragedies happening make one suspect everything, and Mr. Owens came to town and wisely informed his honor, Mayor Mitchell.

Officer Houek was detailed to enquire into the mystery, and immediately went to the place where everybody felt convinced a corpse would be found lying at the bottom of the water, surrounded by crawling things and half imbedded in the mud.

The alert and active outside correspondents got busy and wired their papers that another awful mystery filled the air and terrorized the minds of the people of Tulsa, and the people in this city felt something was going to drop.

Officer Houek went armed with authority to drain the pond if necessary and while making preparations was informed that "Mr. Johnson's little boy owned the coffin and used it to paddle around in the pond". Mr. Johnson lives in that neighborhood.

N. J. Gubser, who has been taking depositions in Galena, Kansas, in an important case that will shortly be tried in the Western district, telegraphs that he will be here to meet inquiring clients on Tuesday.

RAINFALL THIS MORNING—SEWERS FLUSHED AND STREETS CLEANED.

WORKMEN ARE WANTED

Architects, Contractors and Laborers of All Kinds Asked to Participate in the Re-Making of the Romantic City.

Undaunted by the worst disaster known to American history, the stricken people of San Francisco have commenced in earnest to rebuild the romantic city of the Golden Gate. Contracts aggregating twenty million dollars are to be let this week, and workmen of all kinds are asked to come and help in the work. With the zeal and energy known only to the people of "God's Own Country" a short time will see this city, stricken in its pride, rise prouder and more beautiful than ever.

San Francisco, April 23.—A cold rain began at 1 o'clock this morning and continued until daybreak. All the smoldering fires were quenched and the suffocating dust was laid. San Francisco is already rising from the ruins. A temporary trolley system has been established which enables workers to live in Oakland in temporary homes pending reconstruction. Property values hold high. All offers for real estate at reduced values on account of the earthquake danger are laughed at. The clearing of down town streets is making rapid headway. Everybody who is competent can get work.

Workmen on the buildings and public works will be paid daily. Architects, plumbers, masons and carpenters are invited to come to San Francisco to participate in the rebuilding of the structures for which contracts totalling twenty million dollars will be made this week. The rain flushed the sewers and cleaned the streets and camps. There is not a case of serious sickness in the Golden Gate camp. The arrival of E. H. Harriman has stimulated the Southern Pacific forces.

SHOCKS IN OREGON.

Portland, Ore., April 23.—Sharp earthquake shocks were felt at 11:06 this morning at Grant's Pass and Glendale. No serious damage was incurred.

500 Dead, \$300,000,000 Loss.

After an inspection of the burned district the insurance men estimated the total damage at three hundred million, of which 175 millions is insured. The health officials estimate that 500 corpses have been buried. Sixteen dead wagons were employed today. James Phelan, ex-mayor, was elected chairman of the finance committee. Bricks from the ruins are stacked ten feet high along the curb lines. Lumber is beginning to arrive. The physical condition of the people and their spirits are excellent.

Legal Holidays Galore.
Numerous concerns have opened temporary headquarters in Oakland and assured employees they will provide for them until regular business is resumed. Governor Pardee has assured the bankers that he will proclaim legal holidays from day to day until the emergency has passed. Several banks have opened offices in Oakland.

Judge E. E. Harvey and family left yesterday for Wichita, Kansas, where his father lies seriously ill.
