

TULSA DAILY WORLD

VOLUME I, NO. 216.

THE TULSA DAILY WORLD, TULSA, INDIAN TERRITORY, THURSDAY MORNING, JUNE 7, 1906.

PRICE FIVE CENTS.

Tulsa and McAlester Will Meet in a Titanic Struggle for 3 Days. Now is the Time for the Oilers to Disprove that "Prophets are Not Without Honor Except in their Own Homes."

NEILL-REYNOLDS CONTRADICTED

MR. WILSON SAYS EVERYTHING
IS BEAUTIFULLY CLEAN.

CALLED DOWN BY NEILL

Would Have Committee Believe that
All the Dirt and Filth Was in the
Small Packeries.

Washington, June 6.—Mr. Wilson, of Nelson, Morris & Co., again took up the Neill-Reynolds report before the investigating committee and commented on its criticisms.

He said the floors of the pens were properly drained, and with regard to the dead hogs being on the platform, he stated that some mornings 50,000 to 60,000 hogs were received, and that there was nothing "revolting" about some of them being dead.

All the rooms, tables, trucks and utensils of all kinds were washed as clean as water and scrub-brush can make them.

Chairman Wadsworth read piecemeal the features of the report, and Wilson did not attempt to deny the odors from entrails and offal, but denied there was any from the wood or decayed meat.

He defended the practice of toilet rooms off the work rooms, and said they were not more unsanitary than the toilets of bed rooms in first-class hotels. He said the men all carried bunches of these cloth for towels.

He doubted the charge in the report that the carcasses of a hog had fallen from the carrier to toilet and had been picked up and placed with others. He called on Dr. Neill to state that it did not happen in one of the big packing plants. "It did happen in one of the big concerns," said the doctor emphatically.

Neill was requested to state which one it did happen in, by some of the committee, but refused. "But some of the very things that Wilson has just now denied," he said, "happened at Nelson, Morris & Co.'s place."

Commencement Tonight.

The Commencement exercises will be held tonight, beginning at 8 o'clock, in the M. E. church.

Program.

Presentation of Diplomas,
V. I. Shurtliff, President of Board.
"Calm Be Thy Slumbers," Sir H. R. Bishop,
High School Chorus
Benediction, Rev. Randolph Cook

OLYMPIA OPENS TODAY

FINEST PARLOR IN TERRITORY.

The Olympia in the New First National Bank Building.

The magnificent new ice cream and candy parlor in the First National bank building will open its doors for business at noon today.

There is nothing in Tulsa, and indeed nothing in this entire section, that will in any way equal the equipment, furniture and fixtures of this splendid place when it is entirely finished. Thousands of dollars have been spent in preparing it for the public, but it will not be completed by any means when it opens today, for much of the material ordered long ago has not yet arrived.

It will be sufficiently advanced, however, to show the people the really handsome place it is, and they will be able to form a good idea of what it will be when the grand opening is announced.

The stock of candies is immense in size and variety, and it is all home made. Every kind of cold drink, ice cream, soda, etc., will be dispensed from the finest fountain in the Territory today.

The Psihos Brothers are the proprietors of this very up-to-date place. They will manufacture all their goods in Tulsa and will do a wholesale as

THREE DEAD FROM HEAT.

Chicago, June 6.—This was the hottest day so far experienced this year, the mercury reaching up to ninety degrees. Three deaths and many prostrations have been reported.

well as a retail trade. They are practical candy makers.

Eli P. Alatzas will manage the parlor, cafe, or whatever it may be called. He is a highly educated Greek, speaks several languages fluently and is a graduate of the law school of the Athens University, of the class of '99. Mr. Alatzas has been several years in the United States and is a fine business man.

MOVING OFF THE BUILDINGS

Transfer of Old Townsite of Bliss to a New One.

Bliss, Okla., June 6.—Many of the buildings on the present townsite of Bliss are being moved off upon a new location, about one-half mile from the present site. This is the result of the successful effort of the Miller brothers of the 101 ranch, in obtaining title to a parcel of ground and laying out the new townsite. The residents of the old town could not obtain title and had erected temporary buildings along the right of way. It is possible to obtain titles to all lots in the new townsite.

An oil and mineral company has been organized here which will drill three wells near the location of the new townsite, in hopes of finding oil or mineral of some kind.

DOUBLE TRAGEDY IN A WEALTHY WIDOW'S HOME

ST. LOUIS MAN KILLS COUSIN AND HIMSELF.

THE WOMAN SCORPED HIM

Refused to Deed Property and Elope with Him, and Murder and Suicide Followed.

Findlay, O., June 6.—Herbert Ostrander, of St. Louis, Mo., shot and instantly killed Mrs. Annie McKee, and then killed himself, here this afternoon. The tragedy occurred at the McKee home shortly after Ostrander demanded \$10 of Mrs. McKee. Ostrander was a cousin of Mrs. McKee's husband, who died more than a year ago. It is said he wanted her to deed her property to him and return to St. Louis with him, which Mrs. McKee refused to do. Mrs. McKee leaves two sons and one daughter.

PLEASED WITH NATURAL GAS.

"Everybody Works but Professor Heitz, and He Sits Round All Day"
The natural gas supply of Tulsa pleases the carnival folk—or one of them, at least.

As is known, the New Parker Amusement company carries its own electric light plants, the big combination traction and stationary engine being in charge of Professor Heitz, who in winter quarters is the instructor of engineering at the Parker factories for those students who enroll themselves for service with the C. W. Parker enterprises. On the present tour of Texas and Indian Territory, Prof. Heitz has had to use all kinds of coal. In some towns it was scarce because of the strike, and the local supply was huddled close. In places he has had the good, in others the bad, but it was all smutty, dirty, smoky coal, and it kept him in overalls and jumpers all the time.

Not so in Tulsa. The professor of engineering is using natural gas. The connection was made to his engine on Cincinnati street, the burner was put in, and he now sits in an easy chair, smoking his pipe of clay. Everybody works but Prof. Heitz, and he sits round all day. He says if the New Parker people will just keep making natural gas

FATAL TORNADO IN WISCONSIN

ONE MAN KILLED AND SEVERAL
SERIOUSLY INJURED.

MANY TOWNS STORMED

Villages Near LaCrosse Suffered Heavy
Damage by Cyclonic Fury Late
Yesterday Afternoon.

The injured:
H. J. Halvorsen, fatally.
Miss Chris Schreck, hip broken.
Carl Schreck, crushed by timber.
William Jones, concussion of the brain.

Mrs. Louis Schreck, and her infant child, may die.

Julius Granke, internal injuries.
LaCrosse, Wis., June 6.—One man, H. J. Halvorsen, was killed and four were seriously injured and ten buildings were leveled by a tornado near Stoddard, Wis., tonight. The storm swept over LaCrosse.

The tornado passed about one-half mile east of here at five o'clock this afternoon doing heavy damage and probably a number of lives were lost. The storm is known to have destroyed at least three farm houses near here. Mrs. Mygran and Ben. LaGoo were badly injured. The village of Wyoming was also in the path of the storm. The home of Mr. Funk at that place was completely destroyed and some members of the family were hurt.

DEMOCRATS AGAIN FILIBUSTER

The House in Turmoil Through Roll Calls and Points of Order.

Washington, June 6.—The members of the minority of the house, believing that the majority had taken an undue advantage of them in limiting the general debate on the sundry civil law bill to one hour, today started another World Washington Bureau. The house in a turmoil. Later, when the sundry civil bill was taken up under the five minute rule, but few pages were completed, much time being given over to the discussion of the sale of the old custom house in New York city and the payment of the rental to the national city bank. This is a yearly occurrence, and some charges and denials were made.

Lion Tore Her Hand.

While a World representative was watching Princess Zoa last night performing her act in the cage of lions he saw one of the vicious brutes strike at her hand, and immediately she stepped out of the cage. He imagined something was wrong, and after the show saw the lady and found that the lion's claws had torn the back of her hand pretty severely. It was an ugly scratch, but she made light of the danger, and said, laughingly, "Oh! No! I'm not afraid. I'll try again tomorrow night."

ANOTHER SUPPLY HOUSE

THE PATTIN COMPANY LOCATES

Will Make Tulsa Headquarters for West of Mississippi.

Z. J. Bahlman is in the city, and yesterday secured a warehouse for the storage of gas engines, pumping powers and gas and oil well supplies.

This announcement means that the Pattin Brothers Co., of Marietta, O., are locating headquarters in Tulsa, from whence every point west of the Mississippi will be served with the goods they manufacture.

They now have branch offices in Chelsea, Bartlesville, and all over the Kansas field, but realize, with every one that Tulsa is the hub of the oil and gas universe in this section, and so make it their distributing point for

towns he will get white kid gloves, a broadcloth coat and high hat, and will hold hourly receptions at the most interesting place on the carnival grounds, the big engine and the dynamo wagon.

Washington, June 6.—Oklahoma and Indian Territory—Fair and continued warm on Thursday; brisk to high southeast to northwest winds. Friday, fair.

the Kansas and Indian Territory fields.

Mr. Bahlman is the manager for this strong concern, and for some time has been in charge of all their interests in the West. This is not his first visit to Tulsa by any means, and no man knows better the advantages this city offers for his line of business.

He is now seeking a good location for an office, and when he is successful the World will be in a position to inform its readers the addresses of both office and warehouse.

The coming of this firm to Tulsa means a good deal to the city's commercial interests. There are others here already and their influence has been felt all along many lines. They are good employers of labor and large shippers, and everything that increases the value of Tulsa as a distributing point is a gain to us all and a boast for the town.

BRYAN'S NAME LEAPS FROM LIP TO LIP

DEMOCRATS UNIVERSALLY EN- DORSING BRILLIANT ORATOR

ARKANSAS AND DAKOTA

State Conventions Yesterday Unani- mously Cheered for the Nebraskan

The ticket:
For United States senator—Jefferson Davis; Governor, J. S. Little; auditor, A. E. Moore; secretary of state, O. C. Ludwig; treasurer, J. L. Yates; attorney general; W. F. Kirby; superintendent of public instruction, J. J. Doyno; land commissioner, L. L. Kaufman; agricultural commissioner, Guy B. Tucker; associate justice, J. C. Riddick; railroad commissioners, southern district, H. L. Hampton; north-eastern district, J. W. Crockett.

South Dakota Also.

Yankton, S. D., June 6.—The Dakota Democratic convention, which was held here today, strongly endorsed Bryan for president in 1908, and every mention of his name on the floor of the convention hall brought forth a storm of applause. The platform also declared for municipal ownership of all public utilities.

Cheered Him in Indiana.

Indianapolis, Ind., June 6.—The Democratic state convention tomorrow will be largely attended. National Chairman Taggart expressed himself well pleased with the outlook, and enthusiasm manifested. The delegates were addressed at Tomlinson hall tonight by Representative Champ Clark, of Missouri. Clark, in his speech, which was heartily applauded, devoted considerable time to discussion of the tariff. His mention of W. J. Bryan's name was received with a wild outburst of applause and cheers.

Hot Springs, Ark., June 6.—The Democratic state convention went on record today for William J. Bryan as next Democratic candidate for president. Friends of William R. Hurst endeavored to stay Bryan's tide by asking that the proposition be sub- mitted to voters of the state at the next Democratic primaries, but the resolution endorsing Bryan was adopted by acclamation with marked enthu- siasm.

The enthusiastic young ladies of the Methodist Episcopal church are arranging a moonlight picnic for Friday night. These young ladies have entertained frequently and their social meetings are always looked forward to with much pleas- ant anticipation.

GREAT RUN ON THE MIDWAY

THE CARNIVAL IS NOW DOING
A BIG BUSINESS

THERE IS MUSIC GALORE

Zoological Eden, North America,
Electric Theatre, are All in Full
Blast, and Crowded Nightly

The carnival grows good on acquaintance, and there is a spirit of June blossoms, June sweetness, June brides and June pleasures in the city of Mirth and Merriment that is being conducted this week under the auspices of the Firemen's Relief association.

There carnival held by the New Parker Amusement company is different from other carnivals, because it is conducted on a different plan. There is more order. The racket of horns, the noise of unpleasant instruments and the throwing of confetti is absent, and this makes the pike or the midway or the trail, or whatever you may please to call it, depending whether you were at Chicago, St. Louis or Portland, an inviting place for ladies and children. The street along which the attractions are placed, is crowded every night and during parts of each afternoon, but it is not of the jostling, rough crowd so often noticed on such occasions, but it is a jolly good natured lot of ladies and gentlemen, and young folk and children, who are sharing with each other the cleanly amusements that are offered, and it is a delight to be of them.

The brilliancy of the Carnival City is a feature. At every conceivable point there is an electric light, and the place is so attractive one can watch the pleasure seekers as the wind in and out of the thoroughfare. And there is music galore.

The Royal band makes music, and there are all kinds of organs. The finest is the \$10,000 orchestra that plays for the Carry-Us-All. It is equipped with reeds, horns, pipes and drums, and classical as well as popular airs are executed with every care as to musical and artistic exactness. At the Katzenjammer Castle the organ plays "Hiawatha," until you carry the tune away with you, and there is another at the Electric theater that turns out music by the yard. And the shooting gallery has good marksmanship. There is a bulls eye that is inviting to a good shot, and when the bell is rung the organ plays a tune.

Last night the crowds were much larger than on Tuesday. The good reports of the many who visited the attractions the opening night had spread among the people of the community, and the pleasant words that were spoken in the World, reached a reading clientele that extends farther than any other recording medi-

CHILDREN'S DAY COMING

PROGRAM AT M. E. CHURCH

Services Will Be Turned Over to the Little Ones.

Next Sunday will be Children's Day at the M. E. Church and a very elaborate program has been prepared for the occasion. The services of the day will be turned over to the children of the Sunday school, who will delight with songs and short speeches. The general congregation will participate in the reading of the Apostles' Creed and in responsive readings, the collections will be for the benefit of Sunday schools in other places where money is not so plentiful as in Tulsa.

Children's Day has been a feature in nearly all the churches for a good many years. It is a beautiful custom and gives the children a niche of their own in church work. It makes them helpers in Sunday school work especially, and gives them an interest and enthusiasm which could not be imparted in any other way.

The World will print the program for the M. E. church services between now and next Sunday, and is empowered to ask a larger attendance of the members, so that the young people will feel that they are being encouraged and supported by their elders in the church.

STIRRING 'EM UP.

Indianapolis, Ind., June 6.—Every slaughter house and meat packing plant in Indianapolis is to be investigated immediately by the state board of health. The inspection will be thorough, and will cover both sanitary and pure food features.

um, and those who had heard and had read, joined in the gay throng for the evening of pleasure.

The delights of North America pleased again. There are some who do not fancy the acrobats, the experts who throw the long and sinuating lariat, do not admire the thrilling drama that shows the horse thief at the end of a rope, who fail to appreciate the expert movements of those who ride at full speed and pick up objects from the ground, but it is easy to find penny-a-line critics everywhere, and carping critics are not judges whom wise men should follow. The production is an entertaining one, and it has pleased.

The crowds are large at the animal circus every performance. The beauties of this big entertainment that has such elegantly trained animals, has been pleasing to the people here. The talking horse, Romeo, is a wonder. Those who go to see this performance marvel at the ability of the equine intelligence to correctly read the dial of a watch, to count those in the separate colored garments on the front row; to tell whether men or boys are in certain

SHIVERY DAY MARS COMFORT OF MONARCHIO

"CRIMPY WEATHER," SAYS EM- PEROR BILL TO EMPEROR JOE.

FOR SAFETY OF WILLIAM

Extraordinary Precautions Taken to
Keep Together Life and Limb of
Germany's Ruler.

Vienna, June 6.—Cold, rainy weather marred the first day of the visit of Emperor William of Germany to Emperor Francis Joseph. The projected ride round the imperial Thurgarten at Lainz was abandoned, owing to the impassible condition of the roads. Extraordinary precautions had been taken to insure the safety of the German emperor, the public being rigidly excluded from the northern station this morning, while the police lined the road between Pensung and Schoenbrunn Park. Gardens, and all approaches to the palace were guarded with a strong force of infantry in addition to the many police and detectives.

ENTERTAINED GRADUATES.

Four Young Ladies Honored by Tenth and Eleventh Grades.

The tenth and eleventh grades of the Tulsa schools entertained the four young lady graduates at the home of Miss Gayle Pettus, on East Sixth street, last night.

About forty young people were present, including the guests of honor, the Misses Dencie Stebbins, Fern Longwell, Ruth Trees and Florence Rike.

Music was furnished by Miss Lillian Shreck and Miss Louise Berry, and ice cream, cake and punch served to everybody. Those present declare they had a time they will never forget.

Jews Mourn Davitt's Death.

Kishinoff, June 6.—There was a large meeting of Jews here today to express their sorrow at the death of Michael Davitt.

Miss Fritz and sister, Miss Bernice arrived yesterday morning from Lenox, Ia., for a visit with their aunt and uncle, Mr. and Mrs. T. E. Shaw.

THOUGHT IT THE REGULAR THING

BUYER OF COAL SAID BRIBES
WERE USUAL PROCEDURE.

CONSCIENCE DIDN'T HURT

Pennsylvania Clerk Believed Himself
Following Custom in Accepting
Stock from Coal Companies.

Philadelphia, June 6.—That he accepted gifts of stock amounting to \$11,000 and money aggregating more than \$46,000 from coal mining companies during a period of about three years, was admitted today by Joseph Boyer, chief clerk in the office of A. W. Gibbs, superintendent of motor power of the Pennsylvania railroad. Boyer purchased the fuel coal used in the locomotives of the company, and the donors of the gifts were the coal companies which furnished the fuel for the railroad. Boyer named five companies which allowed him from three to five cents on each ton sold to the railroad. He declared that he had never asked for the allowance, but accepted it, because he believed he was following the custom of the department. In fact, one of the coal company officials told him that he had paid it before, and wanted to continue paying it to the witness. Boyer denied that he divided the money with any other official or employee of the railroad. He said he kept it all. A. W. Gibbs, Mr. Moyer's superior officer, on the stand, said he was unaware that such condition existed in his department.

Boyer said that he was at first disinclined to accept the money, but after thinking it over decided that he was doing nothing unusual.

Clement. The witness did not know. M. K. Reeves, the assistant to Vice President Hugh, admitted that he had accepted stock from Colonel George S. Huff and David E. Williams. Huff, he said, purchased some of his holdings in the Keystone Coal and Coke company, paying him \$30,000 for it. Reeves stated that he has known Huff since boyhood, and declared that the latter knew he was not in a position to favor him when the stock was presented.

CRAPSEY FILES AN APPEAL.

Churchman, Found Guilty of Heresy, Will Fight Case.

Rochester, N. Y., June 6.—The Reverend Algernon S. Crapsey, rector of St. Andrew's church of this city, who was found guilty of heresy after the trial by an ecclesiastical court at Batavia last month, today filed an appeal from findings of the court.

JEALOUS WOMAN'S DEED

A NEW KENTUCKY SENSATION.

Murder Occurred in Presence of Ten
Thousand People.

Richmond, Kentucky, June 6.—Mrs. Nannie Ruckers of Cartersville shot and instantly killed Mrs. Vianna Black of Conway at Berea college today. They were attending the Commencement exercises, and the shooting occurred on the common in the shadow of the new memorial chapel. Jealousy is said to have been the cause. Mrs. Ruckers was arrested. The shooting caused a panic among ten thousand people in attendance, and several were badly injured. Both women have large families.

ONE KILLED IN COLLISION.

Ten Injured in Wreck at Atlanta, Georgia.

Atlanta, Ga., June 6.—An Atlanta and West Point excursion train was run into by a Central of Georgia passenger train at the south end of the terminal station here tonight. Roy Cook, of Atlanta, was killed, and ten or more others were injured, some of them seriously. The Central of Georgia engineer claims no cautionary signals were given him.
