

OPERA SEAT SALE THROUGHOUT STATE

Various Communities Will Have Opportunity to Get Tickets.

EXPERTS ARE HERE

"Carmen" and "Il Trovatore" Advance Sale Will Branch Out.

Dozens of communities throughout the state of Oklahoma will have an opportunity to purchase tickets for the Tulsa Grand Opera season without having to write to Tulsa or make a trip to this city. The arrangements were completed yesterday for establishing advance sales in various cities and towns, beginning next week.

Mr. and Mrs. Stewart M. Hamilton of Chicago, experts in conducting advance sales for events of this kind, arrived yesterday to take charge of this end of the work. They were sent here by Charles N. Ellis of Boston, who is organizing the company of 175 that will present "Carmen" and "Il Trovatore" in Tulsa Convention hall on October 20 and 21.

In Local Charge.
Mrs. Hamilton will be in charge of local opera headquarters at the Chamber of Commerce. She will meet with the Hyeccha club, one of the organizations that is fathering the opera season, and with the executive committee in charge, and otherwise assist in exploiting the event and handling the ticket sale.

Mr. Hamilton, a well-known opera student and college professor, will confine his work to points outside of Tulsa. He will leave Monday on a tour of the state for the purpose of selecting the cities where advance sales are to be conducted. He will visit Oklahoma City, Guthrie, Enid, Chickasha, Ardmore, Norman, Sapulpa, Muskogee, McAlester, Vinita, Bartlesville, Pawhuska and other cities. Mr. Hamilton will appear be-

To Free Your Skin of Hair or Fuzz

(Boudoir Secrets.)

No toilet table is complete without a small package of delatone, for with it hair or fuzz can be quickly banished from the skin. To remove hairs you merely rub into a paste enough of the powder and water cover the objectionable hairs. This should be left on the skin about two minutes, then rubbed off and the skin washed, when it will be found free from hair or blemish. Be sure you get genuine delatone.—Adv.

fore musical clubs and other organizations and explain to them the enormity of the Tulsa undertaking and what it means to the music lover of the southwest.

To Get Choice Seats.
For each city where the seats are to be placed on sale in advance a block of tickets will be reserved. These tickets will be in charge of Mr. Hamilton himself, who will open the sale at some prominent store in the town and give the people of the community an opportunity to make their selections in person. Absolutely no favoritism will be shown any particular city or town in this respect.
Orders for seats are being received hourly at the Chamber of Commerce. Local people are particularly in evidence and the advance sale is progressing more rapidly than was anticipated by the most sanguine.

COUNTY FAIR WILL BE AN EYE OPENER

Agricultural Possibilities of This Section to Be Shown.

PRIZES ARE ALLURING

\$7,000 in Cash to Be Distributed; No Fee Is Charged Anyone.

The second annual Free Tulsa County Fair, to be held in the largest and most expensive county fair buildings in the state September 12 to 16, will be an eye opener to thousands of people. To those who have recently moved here and believe that this is exclusively an oil country the fair will prove a genuine revelation, for it will convince the most skeptical that Tulsa county is one of the richest agricultural sections of the state.

Nearly every farmer and his family in the county is figuring on coming to the fair, and most of them will have entries in the various departments. The father and his boys will take pride in their live stock and crop showings, while mother and the girls will enter exhibits in the culinary and domestic science divisions. There will be \$7,000 in cash prizes. No charge is made for entering. The county roots the bills.

For City Also.
"While the free fair is primarily to stimulate better farming," said Secretary N. R. Graham yesterday, "it is also for the city people. Anyone in town caring to enter for the premiums is entitled to do so."

Township fairs will be held a few days prior to the opening of the county fair. The cream of the exhibits at these community picnics will be sent to Tulsa for entry in the big contest. Seven large buildings will be filled with exhibits this year, practically every inch of available space having been already spoken for. The largest building of the group will contain the exhibits of local manufacturers and merchants and the better babies contest. This contest, by the way, bids fair to be even a bigger feature than last year. Mrs. C. E. Barnhart, who is receiving entries at the office of the county farm demonstrator in the courthouse, is kept busy issuing entry blanks. Mothers are permitted to enter their children over the telephone. The judging of the infants will take place in the kaffroon palace on every day of the fair. The fair will be open to the public on two nights, when elaborate fireworks will be staged.

Transportation.
Landscape experts have about completed their work of beautifying the fairgrounds. The Frisco will run shuttle trains to the very entrance of the grounds. No admission fee will be charged. It will be a free fair in every sense of the word.
There will be several open-air attractions, including a balloon ascension and parachute drop every afternoon by a well-known lady aeronaut. The fair will be open to the public on two nights, when elaborate fireworks will be staged.

Making It Fly.
"That aviator will take up a passenger 15 minutes for \$15."
"What of it?"
"My wife doesn't care to go up, but spending money at the rate of a dollar a minute has strong attractions for her."
Would Never Do.
"Why can't you wear that hat now?"
"It is trimmed with cherries, hubby."
"Well?"
"And cherries are out of season."

Alkali in Soap Bad for the Hair

Soap should be used very carefully. If you want to keep your hair looking its best. Most soaps and prepared shampoos contain too much alkali. This dries the scalp, makes the hair brittle, and ruins it.

The best thing for steady use is just ordinary mullet coconut oil (which is pure and greaseless), and is better than the most expensive soap or anything else you can use.

One or two teaspoonfuls will cleanse the hair and scalp thoroughly. Simply moisten the hair with water and rub it in. It makes an abundance of rich creamy lather, which rinses out easily, removing every particle of dust, dirt, dandruff and excessive oil. The hair dries quickly and evenly, and it leaves the scalp soft, and the hair fine and silky, bright, lustrous, fluffy and easy to manage.

You can get mullet coconut oil at any pharmacy, it's very cheap, and a few ounces will supply every member of the family for months.—Adv.
