FRENCH GAINS ARE REPORTED ALONG SOMME

Berlin Admits the Loss of Clercy, Northwest of Peronne.

RUSSIANS CONTINUE TO WIN IN GALICIA

Rumanian Forces Are Said to Have Retaken Dobrudja Frontier.

WHILE their compatriots were busy Wednesday north of the Somme warding off German counter-attacks or engaged in artillery duels, the French south of the river drove their men further into the German lines for noteworthy gains.

In stubborn fighting over a front of four miles between Verdun and Chilly the Germans have been forced to give up the northern portion of Verdun; while the French have occupied the outskirts of the railway junction town of Chaulnes and thrown forces along the railway running from Chaulnes to Roye, between Chaulnes and Chilly.

To the north the operations of the French with Barleux and ultimately Peronne as their objective also met with success. Southeast of Belloy-en-Santerre further German trenches were captured and most of the villages of Henry-en-Santerre fell into French hands. Paris says the number of prisoners taken apparently was large. Berlin admits the loss of Clercy, which lies a short distance northwest of Peronne.

Russians Winning. In Galicia on the front of the Zlota Lipa and Dniester rivers the Russians have driven the Teutonic allies from fortified positions and have taken 4,500 prisoners, among them about two thousand Germans. Berlin concedes a victory to the Russians in this region. Violent fighting continues around Brezany, southeast of Lemberg, but here, Berlin says the Russians suffered heavy losses and have made no advance. Russian attacks near Zborow, northern Galicia, and in Volhynia also failed, according to Berlin. Fighting is still going on in the Carpathians where the Russians claim the capture of additional heights.

Germans Claim Gains. In the Rumanian theater German and Bulgarian troops are still engaged with the Rumanians in the Dobrudja region. Berlin reports the capture of seven of the Turtukan works together with their armored batteries. The Rumanians claim that they have retaken all the Dobrudja frontier east of the Danube between Bulgaria and Rumania. The towns of Ialax and Kalsafat on the Danube have been bombarded by the Germans.

The Russians in Turkish Armenia continue their progress against the Turks near Ognott, inflicting heavy casualties on them, according to Petrograd. On the Macedonian front only bombardments are in progress. In Albania the Italian advance has been stopped, says Berlin, and the Teutonic allies have recaptured all positions taken from their recently east of Avlona.

At most of these double delegations were selected, so great was the number of those who wished to go as delegates. In addition to the delegates many visitors are expected and all of the hundreds of legislative and county nominees. It is announced that the nominees for corporation commissioner and for the supreme court and court of appeals will be here and that of the nominees for congress will come to confer about the campaign with the delegates and visitors from their districts.

SENATE IS HOPEFUL OF DANISH TREATY

ADMINISTRATION LEADERS BELIEVE MEASURE WILL BE PUT THROUGH.

Senator Penrose of the Republicans Believes that the Islands Should Be Purchased.

WASHINGTON, Sept. 6.—Administration senators tonight had hope of ratifying at this session of congress the treaty to purchase the Danish West Indies for \$25,000,000.

After several hours discussion in executive session there were clear indications that more than two-thirds of the senators favored the purchase. Senator Stone, chairman of the foreign relations committee, asked for a vote tonight, but yielded when informed that Senators Borah and Clegg, who were absent desired to discuss the treaty. A few senators, including Norris, Nelson and Thomas, said they thought the price to be paid was too high. Senator Nelson, however, said he did not think the price ought to prevent the purchase.

Among Republican senators who urged ratification of the treaty was Senator Penrose who declared the islands should be acquired by the United States at once and said the price was not too great to pay. Senators who favored the purchase included Penrose, Stone, Clegg, Capper, and others.

When the senate adjourned it was with the understanding that another executive session would be held tomorrow and a vote on the treaty asked. Several Democratic senators said they believed ratification would follow. Senator Stone would make no prediction.

WITNESSES SWEAR MURPHY WAS BOLD

Trial of Powell Brings Out Evidence that Dead Man Was Stickup.

PROSECUTION BITTER

One Witness for the State Says Powell's Partner Said "Kill the—"

PRELIMINARY trial of Detective Thomas Powell of the Tulsa police department on a charge of murdering W. J. O'Connell, alias Thomas Murphy, in the Frisco railroad yards two weeks ago, brought out little in the way of new evidence when it was opened in the court of H. B. Schaefer, justice of the peace, yesterday morning. Much of the testimony given before the coroner's jury at the inquest and before Judge Conn Linn of the district court during the habeas corpus proceedings to release the defendant from jail was repeated, but several of the witnesses examined before were eliminated and it is thought all of the evidence of both sides will be in a forceful way.

The most startling statement of the day was given by A. M. Webb, whose automobile was used by Detective J. W. Patton to pursue O'Connell, or Powell, as the latter was running in the direction of the railroad yard after escaping from the custody of the officers. He declared on the stand that he had heard Detective Patton say "Kill the—" The sentence was ended with a vile name.

Did Not Hear Threat. Charles Gilbert was called upon by the prosecution to corroborate the statement made by Webb, but could not do so. Gilbert occupied the same machine with Patton and Webb. Several other witnesses used in the two other hearings were called by the state. Most of these were men working in the yards of the Producers Supply company, where they could obtain a bird's eye view of the man under the car. The testimony of these varied as before when they were called upon to testify as to the position of the dead man when he was shot and whether he made any noise as if to resist arrest. The testimony of all as that as far as could be seen there was no noise of resistance, but that only a part of the man's body was visible.

Mother a Witness. One of the features of the day was when Mrs. James O'Connell, mother of the dead man, took the stand. As she walked to the seat by the bench a hush fell over the crowded courtroom and the greatest reverence was shown the woman in black who came to Tulsa from Kansas City to learn for the first time that the boy she had cherished through her life had committed deeds against the law. Her testimony was short and brought out nothing other than that she had last seen her son July 24 or 26 while he was at her home in Kansas City, where he took Thelma Erica and introduced her as his wife.

Four witnesses were introduced by the state. The only new testimony brought out was that of J. C. Naylor, who declared that he had known O'Connell for two years and that the latter held up and robbed him of \$25 while Naylor was driving between Dewey and Bartlesville a short time ago. Naylor was the fourth witness introduced by the defense since the arrest of Powell to testify of robberies committed by O'Connell. In each instance the witness has declared that he was afraid to have the robber arrested for fear the desperado would kill him.

WOMEN BATTLE FOR THEIR VOTE AS IN THE PAST

National Meeting Brings Out Some Stirring Debates.

DELEGATES OF MANY STATES ON THE FLOOR

Some Believe it Is for State, Some National, But Old Fight Will Go On.

ATLANTIC CITY, N. J., Sept. 6.—The National American Woman Suffrage association by an overwhelming vote today decided to continue its present policy of working for equal rights through both national and state legislation. The vote was taken after a long debate and no change in the regular meeting because of the announcement of the action ceased that a resolution was presented which threatens to again open the whole question tomorrow.

Virtually all the speakers declared for strict neutrality in the presidential campaign and to continue the non-partisan efforts of the association to bring about equal suffrage throughout the United States. Women from every state in the union are attending the forty-eighth annual convention of the association, which was called two months in advance of the regular meeting because of the announcement of the action ceased that a resolution was presented which threatens to again open the whole question tomorrow.

Two Amendments. The question of policy came before the convention in the form of two proposed amendments to the organization's constitution. One proposed that the regular national and state legislative and executive action be concentrated on the proposed amendment to the federal constitution. The other provided that the association cease its efforts in behalf of the federal amendment and confine its activities to getting women's suffrage by states. The amendments were defeated by a viva voce vote in which few affirmative votes were heard.

Action Is Attacked. Miss Laura Clay of Lexington, Ky., a staunch advocate of state's rights, immediately attacked the resolution as undemocratic and as nullifying the action just taken by the convention. The resolution was adopted by a vote of 1,000 to 500. The resolution was adopted by a vote of 1,000 to 500. The resolution was adopted by a vote of 1,000 to 500.

Senator Kern, majority leader, said he did not look for adjournment before Saturday. Senator Owen is keeping up a fight on the corrupt practices bill, but there is a general understanding among the leaders that no vote will be taken because that would result in calling back to Washington a quorum of the house and postponing adjournment indefinitely. None of the amendments will be taken.

Consideration of the senate amendments empowering the president to regulate against British interference with American trade and American mail had been discussed informally in conference. There was no disposition to eliminate any of the provisions, but the opposition in the house, stated that he would demand a quorum unless assured that he could defeat the amendments by such a step. Of this he had no hope.

PRESIDENT RIPLEY SAYS HIS ROAD WILL NOT COMPLY WITH LAW.

Claims That Congress Acted Under Threats and Law Is Advance in Wages.

TOPEKA, Kan., Sept. 6.—E. P. Ripley, president of the Santa Fe Railroad company, declared tonight in a formal statement that the Santa Fe does not intend to comply with the Adamson eight-hour law recently enacted by congress to avert a threatened railroad strike, until ordered to do so by the United States supreme court.

He declared the so-called eight-hour law was nothing more than an advance of 20 to 25 per cent in wages to the men who receive the most money in the railway service. His statement follows: "Congress hastily acting under a threat of four leaders of labor organizations enacted a so-called eight-hour law which is nothing more than an advance of 20 to 25 per cent in wages to the men who receive the most money in the railway service. It is only fair to the public and to our employees that the Santa Fe Railway company does not intend to comply with the law until ordered to do so by the court of last resort."

While the subject of the withdrawal of the American troops from Mexico and related matters, such as the formulation of a protocol to cover future military operations along the border, will be disposed of first, it appears certain that assurances by the Carranza government over the rights of Americans in Mexico will hold an equally important place in the eyes of the American commissioners. The American commissioners will study war aid state department reports as to the situation on the border. The Mexican commissioners also have at hand complete information on the subject brought with them from Mexico City.

DON MANN IN BAD OVER GIRL'S DEATH

Don Mann, alleged white slaver, was arrested in McAlester recently and was brought to Tulsa yesterday and lodged behind the bars of the Tulsa county jail until he is brought to answer the court for the death of "Cutie" Allen. Officers assert that Mann is morally responsible for the death of the girl, alleging that he took her to Fort Smith, Ark., where he compelled her to support him.

It is stated by the officers that Mann took the Allen girl to Fort Smith on June 29, where she committed suicide a few days later. Mann is held on a charge of transporting "Cutie" Wilson from Fort Smith to Muskogee and then to Tulsa only a few days after the death of the other girl.

Protection of Americans by Carranza First to Be Considered.

NEW LONDON, Conn., Sept. 6.—An exchange of views in which consideration was given to the growth, control and strength of the constitutional government in Mexico, marked the first formal conference here today by the Mexican and American commissioners appointed to bring about an amicable and permanent settlement of international difficulties.

A summary of the proceedings issued at the conclusion of the meeting alluded to the de facto Mexican government as having "every day stronger during the last two years in particular since the recognition of the government. The summary agreed upon by Luis Cabrera and Franklin K. Lane, chairman of the Mexican and American delegations, respectively, follows:

"This morning's session lasted three hours, from 10 to 1, during which Mr. Cabrera presided. The first matter of importance was the presenting of mutual credentials. In accordance with the Mexican form of opening conferences, Mr. Cabrera made a declaration of the purpose of the Mexican members of the commission, saying it was their duty to fulfill in their government the great responsibility cast upon them.

Have Hopes for Best. The commissioner sent to President Wilson and to General Carranza the following message: "The American and Mexican joint commission, in addressing itself to the task assigned to it, desires to send you our excellent most cordial greetings and to express the hope that its labors will be productive of results satisfactory to both countries."

"Their lives many have lost and never even in ancient times was there shown such generosity, such firmness of character—men like Victor Chapman, who died to rescue his American and French co-workers." "No tokens of friendship, of sympathy, or good will," the ambassador added, "have touched France more deeply than those coming from this republic, which renders in remembrance the Lafayette and his companions."

Mr. Bacon spoke of the friendship between the two countries and the courage of Lafayette.

OWEN'S PET BILL CAUSES A FIGHT ON HOUSE FLOOR

The Lie Is Hurlled When Suggestion of Copper Lobby Is Made.

OKLAHOMA SENATOR IN ON THE CHARGES

Senator Palmer Takes Hurl at Indian Senator for His Expenditures.

WASHINGTON, Sept. 6.—Elimination of all stamp taxes in the emergency revenue bill seriously objected to by the house, was agreed upon late tonight by the conference committee, house conferees yielding in exchange for this concession their demand for restoration of a tax on refiners of copper.

To make up for the loss of about \$2,000,000 revenue in sacrificing the stamp taxes, the conferees are expected to agree to a suggestion of house members that the net profit tax of manufacturing corporations be increased from 10 to 12 1/2 per cent. Owen the bill was waiting today on the revenue bill conferees, the Owen corrupt practices bill was taken up and made the vehicle for several hours of acrimonious political debate. Democrats and Republicans indulged in personal exchanges and regaled their fellow senators with accounts of campaign contributions and the rewards given some contributors in the past.

The vote to take up the bill was 22 to 14, with Republicans voting with the majority to consider the measure and Democrats voting against it. Senator Owen, its author, tonight cancelled a speaking engagement before the Ohio Democratic convention to remain here and fight for its adoption. It probably will be taken up again before noon tomorrow and the conferees are told how much to keep it before the senate until a vote is secured, or what is more probable, adjournment is forced by the leaders.

REFERS TO BRAINS

Senator Curtis of Kansas, Republican, and Ashurst of Arizona, Democrat, in a debate in the senate today, debated in an interchanging way, for a few minutes as if it might result in a personal encounter. The bill would restrict campaign expenditures for the presidential election, the house and for the presidency and vice-presidency to a greater extent than existing law. Senator Curtis argued that such a measure passed by the senate would be halfhearted and would not work against men who already have spent the stipulated amount. He advocated a more stringent law than that proposed and one that would restrict campaign expenditures to the amount of the salary of the congressional frank. He read a letter from Senator Ashurst to a constituent stating his record as a candidate for support and said he understood that Ashurst had been framed out of the privilege.

"If the senator charges that this is a violation of the law," said Senator Ashurst, "then he got the floor," he has sworn that he has not. He explained that his letter has been submitted and approved by the postmaster general and one of his assistants as being matter which could be framed or told how former President Taft when in the Philippines, and Secretary of War Root exchanged cablegrams at 52 cents a word, paid by the government, to discuss Mr. Taft's health and a hotbed side calling Senator Curtis the "Pharisee from Kansas," and brushing aside several chairs, he strode across the center aisle and shook his finger under Senator Curtis' nose. Senator Smith, seated just between the two, moved back in mock alarm as Senator Ashurst approached. Senator Curtis smiled, but kept his seat.

A little later Mr. Ashurst turned on Senator Penrose, who said he had noticed a "copper lobby" around the capital whose members had been talking with the Arizona senator.

Le Is Hurlled. "If," said Mr. Ashurst, "the senator means to charge that I have been influenced by a copper lobby or any other lobby, he lies."

Several senators objected to this language and Senator Ashurst after explaining he had said "I," agreed to withdraw his remark. Several senators told of large contributions to campaigns in various states. Senator Owen said former Representative A. Mitchell Palmer of Pennsylvania had stated that \$750,000 was spent in the Pennsylvania election. Senator Penrose in answer said that Mr. Palmer's statement had never been supported by evidence and declared he could give better proof that several hundred dollars had been spent in Oklahoma in the recent primary campaign, which resulted in the re-election of Senator Owen. Senator Penrose said Myron T. Herrick and the Myron T. Herrick voters league in Ohio spent more than \$21,000 in the Ohio primaries, which chose Mr. Herrick as the Republican senatorial candidate.

McAdoo Is Busy. Senator Curtis asserted it was well known the Democrats were in favor of the bill because Secretary McAdoo and other cabinet members already have raised all the money the Democrats need in this campaign. He said \$200,000 already has been sent into one state by the Democrats.

Several amendments to the bill were proposed. One by Senator Brady to postpone the effective date of the act until January 1, 1917, two months after election, was approved.

Two Floors Hurt. BUFFALO, N. Y., Sept. 6.—Major W. C.
