

FLAME FIGHTERS DISCOVER "PLANT"

Thousands of Dollars Worth of Liquor Is Found When Fire Breaks Out Near Place.

Sergeant Tom Howard and Officers Zabinsky and Hings worked all night Thursday night counting, assorting and classifying several thousand dollars worth of whisky and liquors secured in one of the most successful raids ever conducted by the local police department.

The raid was made Thursday morning upon a house at 1-2 South Detroit, after attention had been called to the house by a fire of unknown origin.

The fire department made the run at 10:45 o'clock and succeeded in putting the fire out after slight damage. During the course of their labors the firemen stumbled upon the plant which has for so many months eluded the search of the department.

The police were immediately notified and Officers Brown, Pilkington, For, Pinkston and Zabinsky made the trip.

Three trips were made by the police patrol to haul the liquor to headquarters. No arrests were made, as no one gave any evidence of belonging to the place after the fire started.

Sergeant Howard and two officers began their count early last evening. At midnight they had counted more than eight hundred half pints of one brand of whisky. Thirty gallons of pure alcohol, beer, gin and other commodities completed the haul.

The list included: William Patterson, Jr., 1-2 pints, 24¢; Old Saxon, 1-2 pints, 34¢; Cascade, 1-2 pints, 30¢; Cascade, quarts, 8¢; Old Hermitage, quarts, 6¢; Yellowstone, quarts, 40¢; Yellowstone, 1-2 pints, 64¢; Chesterbrook, 1-2 pints, 1¢; Bond and Lillard, 1-2 pints, 110¢; J. Taylor, 1-2 pints, 1¢; Hank and White, quarts, 4¢; Hale and Halz quarts, 1¢; Gordon Jib, quarts 2¢.

Mexican-American Commission Moves Into Many Long Reports.

NEW LONDON, Conn., Sept. 7.—While the American commission appointed to evolve a settlement of border disputes was not in session today, real progress was made by the American commissioners toward a fuller understanding of the task before them. They spent several hours in studying data on conditions along the international line and in Mexico, provided by the state and war departments. They also postponed at length Special Agent James Linn Rodgers, brought north from Mexico City for that purpose, and Stephen H. Bonsel, also attached to the state department, as to their personal knowledge of affairs beyond the border.

Secretary Lane later said the American commissioners had found many hopeful suggestions. Conditions

"See How That Corn Comes Clear Off!"

"GETS-IT" Loosens Your Corns Right Off. It's the Modern Corn Wonder—Never Fails.

"It's hard to believe anything could act like that in solving a corn. What I just tried that corn right off with my finger nail. 'GETS-IT' is certain, wonderful!"

"It's Just Wonderful, the Way 'GETS-IT' Makes All Corns Go 'GETS-IT'."

Yes, "GETS-IT" is the most wonderful corn-cure ever known because you don't have to peel and putter around with your corns. It's a "get-it" in your fact. The corn, callus or wart will loosen from your foot off it comes. Glory hallelujah! "GETS-IT" is the biggest selling corn cure in the world. When you try it, you know why.

"GETS-IT" is sold and recommended by druggists everywhere. Each bottle is sent with a receipt of price by E. Lawrence & Co., Chicago, Ill.

Sold in Tulsa and recommended as the world's best corn remedy by Rexall drug store, Quaker Drug company, Tulsa Drug company, Plymouth Drug company, Shackie Drug company—Adv.

STOMACH AILMENTS THE NATION'S CURSE

Mayr's Wonderful Remedy Quickly Restores

There is no ailment causing more woe and misery than Stomach Trouble. Often Gall Stones, Cancer and Ulcers of the Stomach and Intestines, Constipation, Acid Indigestion, Auto-Intoxication, Yellow Jaundice, Appendicitis and other serious and fatal ailments result from it. Thousands of Stomach Sufferers owe their complete recovery to Mayr's Wonderful Remedy. It is unlike any other remedy. It sweeps the poisonous bile and catarrhal secretions from the system. Soothes and allays Chronic Inflammation. Many declare it has saved their lives and prevented serious surgical operations. Try one dose today. Watch its marvelous results. Contains no alcohol—no habit-forming drugs. Book on Stomach Ailments FREE. Address Geo. H. Mayr, Mfg. Chemist, Chicago. Better yet—obtain a bottle of Mayr's Wonderful Remedy from Rexall Drug stores or any reliable druggist, who will refund your money if it fails.—Adv.

TULSA BOYS SHOW CITY HOW TO FARM

Makes a Profit of \$150 on a Small Lot in Residential Section.

Putting in odd hours which he snatched while holding a regular position with a dairy, Malcolm Cullen, aged 16 and a pupil in the eighth grade of the Lincoln public school, made a net profit of \$146.65 during the summer by means of a truck garden.

Malcolm turned his full systematized report yesterday to Delmar Baker, who has charge of the active work in the city beautiful contest. The boy entered in this competition and is likely to swell his profits with a prize in the contest.

The lad was interested in the work last spring by the contest and entered. He secured a small lot near his home in Bellevue, fifty feet front and one hundred feet deep. He secured the use of it free provided he kept it in good shape.

Planting a variety of garden vegetables about the first of April, the lad took good care of his project during the hard summer months. Guidance of Mr. Baker, who made regular inspections of the city, helped him.

He Had System. When it came time to market his vegetables the boy made a systematic survey of his neighborhood and secured a regular market. His unusual crop soon gave him a surplus and with his first \$50 he bought a pony. The pony enabled him to better market what vegetables he could not dispose of to stores and regular markets.

About July first, he cleaned his ground and planted tomatoes and cabbages. He is now realizing on these and already totaled his profits to \$146.65, according to his report.

Part of this money was used by him to purchase a lot a short distance away which he intends to use for further adventures.

As soon as he consummated the deal for the lot, he planted sweet potatoes and soon will be getting a goodly income from them.

All the time he has performed his regular duties for the dayman and managed to take a week's fishing trip at that.

His entire expense for the summer, including the horse and new lot, was slightly more than \$30. This amount includes his labor and all materials.

N. Y. STREET CARS RUN ON SCHEDULE

Labor Leaders Admit Lines Are Not Badly Hampered—Will Fight to End.

NEW YORK, Sept. 7.—Subway and elevated transportation lines on Manhattan island were being operated to-night on what officials of the Interborough Rapid Transit company said were virtually normal schedules, although it was admitted that service on the surface lines of the New York Railways company was seriously affected by the traction strike called last night.

Officials of the Amalgamated Association of Street and Electric Railway Employees who are conducting the strike conceded that schedules on the subway and elevated lines were not seriously hampered, but reiterated their determination to fight to the end. Theodore P. Shontz, president of the Interborough, issued a statement late today in which he said the strike was a failure and that if police protection continued as good as it had been throughout the day the city was assured of normal transportation facilities.

SCHUNEMAN IS FREE AFTER HARD FIGHT

Tulsa Is Acquitted on Charge of Robbing Bank at Sedan, Kansas.

After 14 hours of deliberation the jury in the case of the state against Sam Schuneman, the Tulsa man on trial for bank robbery at Sedan, Kan., Thursday returned a verdict of not guilty. Schuneman was charged with robbing the bank of Peru, Kan., on May 11. He was arrested in Tulsa several days later when he called upon his lawyer, J. M. C. A. Has, who was charged with the robbery of the bank at Red Fork.

The case went to the jury Wednesday afternoon at 4 o'clock after two days of a legal battle which was hard fought on both sides. The jury returned to the courtroom and handed in their verdict at an early hour Thursday morning.

Schuneman was represented by John J. N. Sikes of this city, who led the bitter fight for the man's freedom. Undersheriff Carl Lewis of Tulsa county was one of the chief witnesses for the prosecution. Schuneman returned to Tulsa yesterday.

MINERS SEEKING WAGE SETTLEMENT

First Report Is That Agreement Is Far Off—Later One Denies It.

KANSAS CITY, Sept. 7.—Following an announcement at noon that a disagreement would be reported, the subcommittee considering the coal miners contract decided late this afternoon to make another attempt at a settlement. The call for the general conference was hastily revoked and the subcommittee resumed its session. No indication was given as to the reason for the change and whether it portended a solution of the difficulties which threatened a strike of the miners in Missouri, Kansas, Oklahoma and Arkansas. The request was made by Ira J. Fleming, president of the Southwestern Interstate Coal Operators association, who said the operators wished to confer further among themselves.

PICKLED BAIT FOR BASS FISH

Soaked in Alcohol It Results in Big Catches.

The big black bass mystery has been solved. It is now just clear as the water in Long Pond, Mass. The problem has been in the pickled bait.

All summer persons who never caught a fish before in their lives have been bringing in big strings of black bass from Long Pond; on the other hand, experienced fishermen have had poor luck, being unable to land more than a two-pound specimen.

Further than this, fish have been leaping out of the water onto the beach, turning somersaults and doing other remarkable stunts which ordinary fish are not supposed to do.

It appears that Nicholas & Atkins, a firm of clothiers of Harwich Center, carry a large assortment of fishing tackle as a side line. Their assortment, by the way, includes everything from

WHEN YOU WAKE UP DRINK GLASS OF HOT WATER

Wash the poisons and toxins from system before putting more food into stomach.

Says inside-bathing makes any one look and feel clean, sweet and refreshed.

Wash yourself on the inside before breakfast just as you do on the outside. This is a tasty and important because the skin pores do not absorb impurities into the blood, causing illness, while the bowel pores do.

For every ounce of food and drink taken into the stomach, nearly an ounce of waste material must be carried out of the body. If this waste material is not eliminated day by day it quickly ferments and generates disease, gases and toxins which are absorbed or sucked into the blood stream, through the lymph ducts which should supply only nourishment to sustain the body.

A splendid health measure is to drink, before breakfast each day, a glass of real hot water with a teaspoonful of limestone phosphate in it, which is a harmless way to wash these poisons, gases and toxins from the stomach, liver, kidneys and bowels; thus cleansing, sweetening and freshening the entire alimentary canal before putting more food into the stomach.

A quarter pound of limestone phosphate costs but very little at the drug store but is sufficient to make anyone an enthusiast on inside-bathing. Men and women who are accustomed to wake up with a dull, aching head or have furred tongue, bad taste, nasty breath, sallow complexion, others who have bilious attacks, acid stomach or constipation are assured of prompt and pronounced improvement in both health and appearance shortly.—Adv.

GIRL IS BANK MANAGER

When Opportunity Knocked, Miss Pearl Beavers Was Ready.

There is a bank at Jefferson, S. D., that has a young girl for its manager, and she is making a success of the undertaking. Miss Pearl Beavers, from all appearances, is just an ordinary, attractive girl, who enjoys a good time and a frolic outside of business hours.

As she grew up it was not the life of a society butterfly that appealed most strongly to her, nor did the usual "teaching school" hold her interest. She wanted to be a banker. Two years ago she went to Sioux City with this fixed purpose in mind and with a determination to win out if work and perseverance could bring success. She fought her way through a business training school.

After she had completed her course opportunity knocked, and it didn't have to knock twice to arouse this girl with an ambition.

There was an opening for an industrial young person in the Sioux City Trust and Savings Bank. Miss Beavers got the position and at the same time a chance to prove that her ambition was backed by a determination. She made good. Gradually more and more trust was placed in her ability.

Then a few weeks ago the big opportunity came. The state bank at Jefferson needed a temporary manager, and its authorities had enough confidence in Miss Beavers to place her in this responsible position. She has the distinction of being the only woman in the Dakotas who is managing a bank, and she is only 22 years old.—New York World.

THE GERMANS DON'T LIKE HIM

Dutch Cartoonist Has Aroused the Wrath of the Teutons.

M. Louis Raemaekers, the Dutch cartoonist, has won world-wide fame with his pencil in drawing cartoons on the European war. Like many other citizens of the land of windmills, he is bitterly anti-German, and has succeeded so well in expressing his feelings in his pungent drawing that he has aroused the ire of the whole German nation, and incurred the undying hatred of the official class in that country.

Strenuous efforts have been made, it is said, to prevent the publication of his cartoons on the alleged German atrocities in Belgium. He was threatened and cajoled, but would not be deterred. His cartoons, which appear in a Dutch daily paper, are reproduced all over the world. Naturally they have a wide circulation in the allied countries.

Recently a full set of 129 of the first proofs of Raemaekers war cartoons, presented to Lady Northcliffe by the artist, were sold for the benefit of the French and British Red Cross societies. They were purchased by Lord Furness, are now on exhibition at the Fine Art society's gallery in London.

It is interesting to know that before the war M. Raemaekers was a landscape artist and devoted all his energies to that class of art. His strong conviction on the great catastrophe found expression through his pencil. The appearance of the first cartoon won him fame.—Cincinnati Enquirer.

Was His Humor Conscious?

A young woman in Pittsburgh was recently looking at material in one of that city's leading dry goods stores in an attempt to select what would make an attractive skirt for the seashore. The clerk rather stonily suggested the availability of several patterns.

BEST PHONE VOICES IN U. S.

Doctor Points at Vocal Qualities Lacked by British.

An American physician visiting in London has discovered that the American voice is better adapted to the use of the telephone than the British voice. To this defect in the British vocal chords he ascribes the

much maligned telephone service of London.

"Americans have not pretty, soft voices, but their vocal chords are tuned correctly for telephoning," said the doctor. "British voices are not. They seem to lack the timbre necessary for carrying over the wires."

"It is often remarked that American women are given to talking loudly in restaurants and other places. As a matter of fact, they do not talk any louder than their English sisters, but their voices have a carrying quality which is sometimes rather trying. However, it makes telephone using a pleasure for Americans, whereas for Britons the phone is always more or less an instrument of torture."—London Globe.

Requires Finesse.

The situation needs careful handling when you want a woman's graphophone at your party but don't want her.—Louisville Courier-Journal.
