PARIS, March 27.—The super-council of the president and premiers, now known as the council of four, divided its labors today between the "white house" and M. Clemenceau's private office, adjoining the war office.

The Franco-German frontier was the chief topic of discussion, this following upon an agreement reached last night on reparation for war damages. It is understood that this agreement includes the vital point of the total amount of indemnity, which will not be announced at present as likely to cause discussion and arouse hostility in enemy quarters.

JITNEY KILLS CHILD OF DETECTIVE WOLFE

Six-Year-Old Girl Runs In Front of Car on Admiral Boulevard.

While crossing the street in front of her home on Admiral boulevard, near Trenton, at 5 o'clock last night, Opal, the six-year-old daughter of Detective Frank Wolfe, ran in front of a jitney driven by J. J. Smith, of 212 South Rockford street and was instantly killed.

According to Smith and several witnesses, the car driven by Smith was going east on Admiral and just as it passed the child, it was stopped on the southeast corner of Trenton and Admiral, the Wolfe child ran from behind the standing car in front of the jitney.

At the time of the accident Smith claims that he was traveling at the rate of 12 miles an hour.

The body of the little girl was carried to its home at 1801 Admiral boulevard.

The driver of the jitney went to the police station directly after the accident and explained the circumstances to Chief Allen, who decided to let the driver go, as he said, the accident, and explained their circumstances.

DISTILLERS WILL MAKE ATTACK ON DRY LAW SOON

CHICAGO, March 27.—A decision to make an attack on the prohibition restriction effective July 1 was reached today at the close of a two-day session of the distillers' committee and about 75 officials of as many distilling concerns. Instructions to that effect were given to Lewis Haver, chief counsel for the committee.

The announcement that legality of the agricultural bill is being provided by prohibition until demonstration had been made, as passed by Congress November 21, would be attacked in an official announcement made by George J. Duerksen, of Cincinnati, secretary of the committee.

It was not disclosed where the action would be filed.

Mr. Haver had informed the committee that in his opinion the act exceeded the power of Congress and that its constitutionality, force, effect and interpretation were involved in serious doubt.

THE CROWN OF SERVICE

Never mind the heights of glory, never mind the distant goals. We may strive for them and miss them and we will not harm our souls. It's the many petty failures that should trouble every man. Are we failing to be helpful when we should and when we can? Never mind the mountain summit—A life's heavy load is there. All success is not in standing where we stand. And the things that ought to be as we journey on life's way. Are the kindly words of comfort and of cheer we've failed to say. It's the failures to be honest and the honesty that we could do. And our blindness to the many little deeds that we could do. That would smooth the way for others and would break the clouds of doubt. Not the big and selfish failures that we ought to fret about. We may never climb the mountain, we may never rise to fame. We may fail to win distinction, but earth's joys are ours to claim. And he who has the crown of service who has helped others, never failed in deeds of kindness, never failed to be a man. (Copyright, 1919, by Edgar A. Guest.)

CORRESPONDENCE IS SEIZED

Creel Makes Public Letters of Count Czernin Obtained by Edgar Sisson.

NEW YORK, March 27.—George Creel, former chairman of the committee on public information, made public here tonight a summary of the secret correspondence of Count Czernin, late foreign minister of Austria-Hungary, which was turned over to Edgar Sisson at Prague by the custodian official of the Hohenzollern government on January 24, last, one of the most sensational disclosures made that there was a German-Magyar conspiracy against the Archduke Francis Ferdinand, heir apparent to the throne of Austria, who was assassinated at Sarajevo on June 28, 1914, because he was considered a rival of the then Emperor William.

Translations Made.

Mr. Creel said Mr. Sisson accepted the privilege of using the correspondent in behalf of the United States government. Translations and a photographer in the service of the committee on public information were set at work to translate the documents for general publication in this country as the final public contribution of the committee, according to Creel. He declared one copy was sent to the Secretary of State Lansing for use of the peace conference commission investigating responsibility for the outbreak of the war, while another was to be sent to the committee at Washington for release to the press. He added that Mr. Lansing's copy undoubtedly was in his hands and that the copy for the press probably was on its way to this country.

In a report to Mr. Sisson on the scope of the letters, Capt. Hans Voska, U. S. A., head of the Prague bureau of the committee on public information, said:

"I sought freedom from Berlin. From one of the letters it is evident it will be shown that Francis Ferdinand was working on building up a strong Austria which would eventually emancipate itself from the influence of Berlin. This was blocking Berlin's plan to unite the east and the Berlin government came to an understanding with the Budapest government to offset the plans of Francis Ferdinand.

WASHINGTON, March 27.—Belgrade dispatches to the state department dated March 23 and received today said a last reports order was being maintained in Budapest. The foreign missions were unharmed at that time, but were not allowed to leave the city.
