WOULD PREVENT LOT SALE

Suit of Paulner Against County Treasurer is on for final hearing.

Suit of J. P. Paulner of Bixby against W. W. Stuckey, treasurer of Tulsa county, in which the plaintiff asks a court order restraining the defendant from selling tax titles in two lots in Bixby for non-payment of a special sidewalk tax, began before Judge Owen in district court yesterday. It was continued to 9 o'clock this morning for final hearing.

During the past session of the Oklahoma legislature, a statute was enacted compelling the county treasurer to sell at resale on November 24, all tax titles held by the county on the regular tax sales made before 1918. Paulner seeks to prevent the sale of his lots upon which the special sidewalk tax was levied in 1918, on the ground that the tax is illegal.

MAKE RAID ON 'JAKE' JOINTS

Enforcement Officer From Sapulpa Arrests Former Policeman.

Charged with illegal possession of a firearm, an intoxicated, C. E. Pitcock, former policeman and now owner of three alleged drug stores and Henry Wade, proprietor of the Union drug store on East Second street, were arrested yesterday and released on bond of \$1,000 pending preliminary hearing of their cases before J. H. Wilkins, United States commissioner.

Acting under authority conferred recently by the passing of the war time prohibition act, by which any federal officers have the authority to make arrests for illegal possession or sale of any intoxicating beverages, Thomas A. Hubbard, enforcement officer of Sapulpa, made a quiet investigation of local drug

stores in this city and yesterday had warrants issued for Pitcock and Wade.

The Eric Santa Fe and H. and H. Drug stores, operated on First street by Pitcock, yielded several hundred small bottles of Jamaica ginger and 10 gallons of the flammable liquid was found in the store operated by Wade.

These raids, according to Hubbard, are the beginning of a campaign to stamp out as far as possible the sale of the highly intoxicating drink in this city by the use of the provisions of the federal statutes under the war time prohibition act which went into effect October 28.

IS NO PLACE LIKE TULSA

That Is What the Owner of Hotel Tulsa Declared Friday.

"Just heard how friendly and good things were in general, down in Tulsa and decided to come here for my usual dose of amputation."

This was the reason Wallace S. Robinson, proprietor of the Hotel Tulsa, told a World reporter on Friday for his visit here this week. He arrived here from Kansas City early Friday morning.

"There is really no place like Tulsa," continued Mr. Robinson.

"Somehow you can't be here an hour before you begin to feel the spirit of the place. It gets into your very bones and you like it. Whenever I feel myself getting a little old I just come down here to get rejuvenated."

Mr. Robinson was Tulsa's pioneer hotel man, having operated the old Astor hotel at First and Boston when it was the most palatial home for commercial travelers and cattle men in this section of the state.

An aerial mail service soon will be started between two important coast towns in the Kongo seaplane being used.

CHILLS, COLDS—FEVERISHNESS

Black-Draught Is Used by a Virginia Lady for Colds, Fever and Other Trouble With Fine Results.

ROCKY MOUNT, Va.—Miss Mae Chilwood of this place recently stated: "I have used Black-Draught for colds and stomach trouble and certainly have found it very satisfactory."

When I would feel bad and feverish, as though I was taking a fresh cold, I would make a good cup of Black-Draught tea and it would soon set me all right.

I can recommend it as a splendid laxative and gladly do so. You may publish my statement."

When you feel chilly, tired, feverish, headachy and fear that you are taking cold, take a good dose of the old, reliable, liver medicine you have heard so much about—Thedford's Black-Draught. It is made from purely vegetable ingredients, acts in a gentle, natural way, and by helping to drive out poisonous waste matter from your system, it will often, if taken in time, prevent a chill from developing into a cold.

Thousands of people, during the past 70 years, have found Black-Draught of benefit in such cases. Try it the next time you chill or sneeze—Advt.

Gluten?

That's the something which helps to make you thrive. Gluten is developed when wheat flour is mixed into dough. It is the life of the wheat—the most nourishing of all grains—and it carries a considerable portion of the muscle-building elements. Good bread is bread made of dough with a sufficient quantity of gluten.

There's plenty of gluten in MERIT Bread, and this bread, therefore, besides being good bread, is good food.

Bread deprived of gluten is lacking in the nourishing quality it should have, and in other qualities which go to make it perfect.

The bread-making process used for MERIT is a patented one which scientifically develops the gluten of the flour to the very highest point. The mixing, for instance, is done in big, cleverly-designed, high-speed machines which properly and thoroughly knead the materials and at the same time aerate the dough, by an ingenious method, with pure, fresh air. This method, developing the gluten to the utmost, aids in making the dough light without its remaining a long period under the action of the yeast, which works to a certain extent to break down the gluten we strive to preserve in the bread.

Isn't it worth while to buy bread that is made right—made not merely to be eaten but to nourish you, as well? You can buy that kind—
