GOVERNOR ASKS FOR VOLUNTEERS

Robertson Sends Out Request for Men to Operate Mines.

GOVERNORS TO MEET

Gardner Issues Call for Executives to Gather Today in Chicago.

TROOPS RUSHED TO KANSAS

Eighteen Hundred Ordered to Fields to Aid in Starting Operations.

OKLAHOMA CITY, Nov. 29.—Following a meeting of the state council of defense today Gov. J. B. A. Robertson issued a call for volunteers to operate coal mines in Oklahoma.

The governor promises protection and asks for men to supply fuel on the basis of not taking sides in the strike, but simply to alleviate the situation.

Dorset Carter, president of the Oklahoma Coal Operators' association, announced at the meeting of the state council of defense that Oklahoma coal operators would throw open their mines at once to non-union labor and would finance the call out of the state guard to protect non-union workers in event the state's request for federal troops was refused.

Carter told the council of defense, which had met to further discuss the coal situation after yesterday's announcement that volunteer labor would be called for to operate Oklahoma mines, that a meeting of the full membership of the operators' association would be held at McAlester, Okla., Monday to appoint a committee to co-operate with the state in operating the mines. This committee will be empowered to open offices at the state capital building to operate directly with the state council of defense.

No reply had been received today by Gov. J. B. A. Robertson to his message of last night asking Secretary Baker for federal troops to protect Oklahoma miners desiring to work in Oklahoma mines.

A state canvass of all men available for work in Oklahoma mines was being conducted today by the defense council under orders from Chairman J. A. Whitehurst. Transportation was promised all volunteers.

GARDNER MEETS GOVERNOR TODAY. JEFFERSON CITY, Mo., Nov. 29. Governor Frederick Gardner left here this afternoon for Chicago, where he has called a meeting of the governors of Illinois, Ohio, Iowa, Kansas, Oklahoma, Tennessee, Kentucky and Indiana to discuss the coal situation tomorrow.

Governor Gardner originally called the meeting for St. Louis for tomorrow, but he changed his mind and decided to follow his inclination of last night to hold the meeting in Chicago.

EIGHTEEN HUNDRED TROOPS IN KANSAS

TOPEKA, Kan., Nov. 29.—Eighteen hundred state and federal troops have been ordered into the Kansas coal fields in connection with proposed plans to re-open the mines next week under a state receivership, it became known tonight. Six hundred of the troops will be regulars and 1,200 are state guardsmen. It was said Governor Allen late today issued the necessary proclamation calling out the state troops.

The federal troops, 300 from Fort Riley and 200 from Fort Leavenworth, are expected to arrive in Pittsburg, center of the coal district, late tonight. The state troops will begin entering tomorrow.

Attention should be called to the fact that this is in no sense a movement of aggression against the striking miners. Governor Allen said in a proclamation to the officers and men of the guard, "and you will caution your men to maintain peace, patience, firmness and forbearance. These union miners should be made to feel that this is the unavoidable action of the state which has taken over the mines for the purpose of producing coal for its people."

State officials said tonight anticipated work had been virtually completed tonight for beginning work in the mines Monday.

The federal and state troops, it was announced, would be used in mining property and the volunteer men would be used in other places.

Orders for the dispatch of the regulars were issued by Major General Leonard Wood at the request of Governor Allen, following a conference with the state council of defense.

At the regular business session Saturday, the convention moved to reconsider the association's proposed plan at the close of the general session Friday night and declared adopted.

Robertson Appeals for Men to Procure Coal for Oklahoma

OKLAHOMA CITY, Nov. 29.—For the sole purpose of procuring coal for fuel and not for the purpose of taking sides in the strike controversy it has been decided to call for volunteer workmen to man the strip pits and other mines in the state. It is the wish of the undersigned concurred in by the state council of defense that those able-bodied men in the state who are willing to assist in operating the mines notify G. G. Nesbitt, who has been designated to act in this capacity, at once by phone at Maple 2100 state capital, by telegraph, or otherwise, and all arrangements for transportation, accommodations as to place to go, and other details will be given.

It is suggested that squads of 10 or more volunteers be organized in a locality with a lieutenant to be chosen by the squad in charge and that they move as a body and remain together at the mine. It is the intention of the undersigned to distribute so far as possible the coal mined by volunteers to the county furnishing the workmen. Thus if your county furnished no men do not complain if you get no coal. The volunteers will be paid the regular scale plus the 14 per cent increase offered by the federal government. Housing and food will be provided in case of inability to obtain same otherwise. Full protection will be accorded workmen and mine owners for life and property. Do not start from home until all arrangements have been made with Mr. Nesbitt as aforesaid.

Special inducements are offered practical miners and steam shovel men. It is expected that several hundred men will report for duty not later than Monday, December 1.

This is a patriotic undertaking. Oklahoma expects you to do your whole duty in this crisis. Remember you are not going as strike-breakers. You are not required to take sides in the controversy between the miners and operators but as humanitarians and patriotic citizens you are expected to assist the state in alleviating the suffering that the present unnecessary strike has produced. Now is the time to act. We can operate the mines if you will help.

J. B. A. ROBERTSON, Governor.

I must heartily endorse the above.

JOHN WHITEHURST, President State Council of Defense.

TEACHERS DOWN THE POLITICIANS

Efforts of State Body To Make N. E. Ass'n Affiliate Killed.

FEE STARTS BATTLE

Delegates Refuse to Allow Administration President To Use Steam Roller.

Attempts at railroading and log rolling that surpassed the political tactics of a freshman class election was the spectacle staged by pedagogues of the northeastern Oklahoma educational association in a parliamentary battle which marked the tenth annual convention yesterday.

The fight on the floor of the final session which broke the tranquility of the two-day meeting of more than 1,200 teachers, was precipitated by the attempt to affiliate the district association with the Oklahoma state educational association recently reorganized to include the county unit plan of affiliation which has been a source of contention ever since the first organization was formed.

Another objectionable feature of the new constitution of the state organization was the designation of the organization to meet in place for the organization to be perpetually located at Oklahoma City. A resolution favoring affiliation with the state organization was finally passed after it carried with it two reservations.

Must Eliminate Politics. An amendment eliminating the central speaking place was the provision of the first reservation. Allusion of affiliation, except the six district units, was eliminated by the second reservation, declared "necessary to eliminate control by county units state districts and that the teachers' association be given the right of freedom of speech and freedom of action in becoming members of the said state association."

Return to the members of several hundred dollars in fines by the state association which the officers of the district organization had levied on the members without consulting them was also demanded by the resolution. The fee charged this year was \$2 which at the constitution of the district association provides for a fee of 15 cents.

Friday night saw the first move in the controversy. Although the printed program for the convention stated that the affiliation with the state association would be passed on at the business session yesterday, a resolution of affiliation was proposed at the close of the general session Friday night and declared adopted.

At the regular business session Saturday, the convention moved to reconsider the association's proposed plan at the close of the general session Friday night and declared adopted.

'LAST' MEXICAN DEMAND DRAFTED

Note Believed to Be Near Final One Is Being Written.

W. T. WALLACE SAFE

Gulf Official Reported Slain Unharmed—Seek to Identify Victim.

TREAT CASES SEPARATELY

Get New Information on Jenkins Case—Plan Action on Latest Outrage.

WASHINGTON, Nov. 29.—The Mexican situation marked time today, while the government continued to make inquiries of the Jenkins case and the murder of William T. Wallace at Tampico Wednesday. The identity of the murdered man had not been established tonight.

The Jenkins case and the Wallace murder are being treated separately. The state department already has directed the American embassy in Mexico City to make inquiries of the Carranza government and forward further information of the new phase of the Jenkins case raised in the Mexican note declining to accede to the request for the release of the criminal agent.

In the Wallace murder case the government has about all the information considered necessary and the interval is being used in framing the details of a concrete action.

Note Drafted. A note to Carranza, which some officials think will be about the last, was being drafted in the state department today but so far as could be learned, it had not been started on the way to Mexico City tonight.

Senators and representatives gathering for the reconvening of congress were showing active interest in the course of the situation, with some indications it might be discussed in both chambers Monday.

Up until tonight the government had received no official word or indication of an offer of mediation by Argentina, Brazil and Chile and some officials thought it doubtful it would be offered.

If such an offer came the opinion of most officials was to consider it as a definite refusal of mediation, which they thought Mexico would be unwilling to accept.

Issue Is Clean Cut. Reports direct from Mexico City discrediting yesterday's border rumors of an uprising with fighting on the streets, served to simplify the situation in that they removed one complicating factor and left the issue a clean-cut one involving only the alleged murder and molestation of Americans.

There was no outward indication of whether President Wilson would touch on the subject in his message to congress next week.

WILLIAM T. WALLACE IS SAFE AT TAMPICO

HOUSTON, Texas, Nov. 29.—William T. Wallace, vice president of the Gulf Refining company, a branch of the Gulf Refining company, headquarters in Houston, is safe and unharmed, according to Tampico officials received Saturday at executive offices here. He had previously been reported slain by a lieutenant in Carranza's army.

Emmanuel's Throne in Italy Tottering; Cousin May Succeed

King Victor Emmanuel

Duke of Aosta

ROME, Nov. 29.—King Victor Emmanuel today decided to abdicate in favor of his cousin, the Duke of Aosta, according to reports from the Italian capital.

The Duke of Aosta, who is a member of the royal family, is believed to be the most likely successor to the throne.

The abdication is believed to be a result of the political situation in Italy, which is currently in a state of crisis.

The Duke of Aosta is a member of the royal family and is believed to be a capable leader.

PROTECT UNIONS GARFIELD EDICT

Operators Warned Not to Break Down Labor Organization.

AWAIT MONDAY'S TEST

Coal Men Expect to See Many Back at Work Under 14 Per Cent Increase.

OUTPUT NEAR HALF NORMAL

Reports Show Production Nearing 50 Per Cent at End of First Month.

WASHINGTON, Nov. 29.—Developments in the government's efforts to insure an adequate fuel supply for the country awaited tonight the outcome of attempts of 900,000 operators to induce miners to return to work for a wage advance of 14 per cent and assurances of federal protection. Notices of this wage advance suggested by Federal Administrator Garfield were posted at the mines immediately following the Thanksgiving holiday. Resumption of work it might produce was not expected until next week, at the beginning of the second month of the strike, which technically was called off November 1.

Operators here expected Monday to see many of the miners, especially in southern districts not in the central competitive territory, back at work.

Standing firm on their announced intention to start neither operators nor miners who interfered with the operation of production to normal. Federal Administrator Garfield, Attorney General Palmer, advised developments to the mining centers. It was indicated no further steps by national authorities were contemplated while state and local officials handled the situation at the mines.

Protect Unions. Assurance that the government would not tolerate any attempt to destroy trade unions or the principle of collective bargaining was the part of employing interests wishing to "take advantage of the present situation" was given today by Doctor Garfield before leaving for his home at Williamsport, Mass., where he will spend the weekend.

"Report has come to me that the present crisis in the coal industry will be used to break down the labor union," Doctor Garfield said. "I wish to say that I am emphatically opposed to an attempt to destroy the principle of collective bargaining and the union of working men as I am to the effort of labor leaders to keep the coal industry in a constant state of unrest regardless of the public interest or to the effort of leaders in the industrial world to boost profits unduly to the hurt of the public."

"Any attempt to compromise the principle of collective bargaining at this time by seeking to destroy the union of the mine workers or the principle of collective bargaining will be resented by the public and opposition."

Production Near 50 Per Cent. Official statistics showed production to be approaching 50 per cent of normal at the end of the first month of the strike. Normal output was 29 per cent during the first week and 32 per cent the second week. The weekly report of the United States geological survey today showed that production of normal was being during the third week.

Doctor Garfield also issued today a detailed analysis of the figures on which he based his conclusion for a 14 per cent wage advance. He pointed out that the normal output of the coal industry had been reduced to 29 per cent of normal at the end of the first week of the strike.

Production Near 50 Per Cent. Official statistics showed production to be approaching 50 per cent of normal at the end of the first month of the strike.

U. S. SENATOR NEWBERRY IS INDICTED

Charge of Corruption Brought Against Him

RAILROAD STRIKE AT KANSAS CITY

Fifteen Hundred Yardmen and Trainmen Walk Off Job.

LEE SAYS IT'S ILLEGAL

Brotherhood Chief Wires That No Protection or Strike Benefits Allowed.

KANSAS CITY, Nov. 29.—Fifteen hundred yardmen and trainmen of the Kansas City Terminal and railroads entering the city, went on strike late today, early reports tonight indicated they crews left their work at 4 o'clock this afternoon and night crews coming on at that hour, did not go to work. Eight roads are affected so far.

Union officials of the trainmen said the national office of the Brotherhood of Railway Trainmen at Cleveland had no part in the strike.

A strike of trainmen here would be an unusual thing for a great part of the southwest.

Railroad officials after conferring with the national office of the Brotherhood of Railway Trainmen, today wired W. M. Corbett, governor of Missouri and Kansas asking them to apply to the federal government to supply troops to insure operation of trains during the strike.

All switchmen employed by the Kansas City Southern, the Chicago & Alton, the Wabash, the Missouri Pacific and the Missouri, Kansas & Texas and some of the crews of the Santa Fe were reported on strike.

The strike was not authorized by national officials of the Brotherhood of Railway Trainmen, according to a telegram received from W. G. Lee, local president by W. M. Corbett, federal railroad representative here.

The strike vote was taken last night without any demands having been presented to the railroads.

LEE DECLARES STRIKE ILLEGAL

CLEVELAND, Nov. 29.—W. G. Lee, president of the Brotherhood of Railway Trainmen, today wired W. M. Corbett, governor of Missouri and Kansas asking them to apply to the federal government to supply troops to insure operation of trains during the strike.

Mr. Lee fully upheld the warning issued to trainmen at Kansas City by H. A. Corbett, general chairman of the trainmen.

Theaters in Southwest District Denied Coal

ST. LOUIS, Nov. 29.—All theaters in the southwestern region all theaters in the southwest tonight were notified by the coal committee that no more coal would be supplied to any of them until the output of coal was greatly augmented. Candy stores and candy manufacturers also were included in the list of theaters that would be given to men engaging in illegal strikes at Kansas City or other points.

Mr. Lee fully upheld the warning issued to trainmen at Kansas City by H. A. Corbett, general chairman of the trainmen.

Fraud Is Charged in Election in Which Ford was Beaten

INCLUDE 113 OTHERS

Brother of Senator and Prominent Officials Must Face Trial.

CLAIM MILLION USED

Federal Grand Jury at Grand Rapids Submits Report of Findings.

CONSPIRACY CHARGED

Declare Affidavit Given by Newberry Part of Concealment Plan.

GRAND RAPIDS, Mich., Nov. 29.—Truman H. Newberry, United States senator from Michigan, was indicted by a United States grand jury today for corruption, fraud and conspiracy in connection with the election by which he obtained his seat in the senate, defeating Henry Ford, his democratic opponent.

With Newberry 113 other persons were indicted by the grand jury on the same charge. The names of all but 13 most prominent were withheld from publication by Judge Clarence W. Sessions, presiding until warrants could be served on them. Among those named were W. A. Hopkins of St. Clair, Mich., assistant secretary of the United States senate; John S. Newberry, brother of Truman H. Newberry, Detroit; and Paul H. King of Detroit. King was manager of the Newberry campaign committee.

Others Named. The others named were Allan K. Tompkins of Detroit, president of the Newberry campaign committee; Frederick Smith, Detroit, manager of the Newberry estate; Charles A. Floyd, Detroit; Mari P. McKee, Detroit; Judd Yolland, Escanaba, Mich.; Milton Gorman, Detroit, formerly county clerk of Wayne county; Harry O. Turner, Detroit; Frank McKay of Grand Rapids; James B. Bradley, Eaton Rapids, Mich.; and Gladstone Heattle, Pawpaw, Mich.

Judge Sessions indicated the evidence before the grand jury disclosed the fraudulent expenditure of between \$500,000 and \$1,000,000 in connection with the election.

Two blanket indictments were returned dealing with the primary and election. The sixth count to which Henry Ford was Senator Newberry's chief opponent.

The first indictment charged that both federal and state laws were violated in that such far in excess of legitimate expenses were used in the campaign. The second indictment cited the affidavits which Senator Newberry made while serving at the Grand Rapids, Mich., jail, for evidence before the grand jury disclosed the fraudulent expenditure of between \$500,000 and \$1,000,000 in connection with the election.

There were six counts in the first indictment. The first four were devoted to charges of excess campaign expenditures. The fifth alleged conspiracy to violate the federal corrupt practices act of October, 1917, which penalizes payment of money to voters. The sixth count to which Henry Ford was Senator Newberry's chief opponent.
