

## RED CROSS JOB NOT YET ENDED

### Local Chapter Still Finds Work to do Connected With Army Life.

All kinds of service, from sending a deserter back to the army, to attempting to secure the release of a soldier from the army to care for his young bride, is being rendered daily at the Red Cross headquarters.

The army deserter who was induced by Mrs. Jennie K. Beam, secretary, to go back to the army, "went over the hill" about a year ago. His presence here was learned by Mrs. Beam, who, instead of turning him over to the authorities, convinced him of the treacherous character of his act and persuaded him to report to the nearest army post in uniform so that the full penalty of desertion will not be visited upon him. Mrs. Beam will send his young wife, whom he married while in the army, back to her home in Iowa to await her husband's release from the army.

On Monday Mrs. Beam made out affidavits for the release of a soldier who married a local girl while he was in the army. The girl, who has not yet had a twentieth birthday is at present unable to work.

The Red Cross report for the month of October is as follows:

Money loaned, \$68.75; money loaned and returned, \$269.75; number of families aided, 310; number of letters mailed, 10; number of office calls, 329; number of telephone calls, 60; information office calls, 75. This brings the total money collected for the Red Cross during the year up to \$13,022.51 and the total number of families aided, 3,895.

market activities in advance of the original cost prices of the materials sold.

"However," the report said, "the materialization of this one of fundamental conditions, insofar as the limited returns from the sale of these materials is concerned."

The report said that the "Bardie company" was trying to purchase under a blanket contract all supplies and stores of the fleet corporation and charged that one of the officials of this company was also "an adviser to the shipping board a cancellation and claims board."

The shipping board announced last night the sale of surplus material on the Pacific coast, valued at about \$12,000,000, to "Bardie Brothers, Inc., of New York."

Soft for Mr. Rogers.

As to building contract cancellations and hull removals, the report said that the shipping board entered into a contract with George F. Rogers to remove hulls which were on the ways in an unfinished state at the time the contract was signed, or to secure from the builders or the owners of the land on which the hulls and ways rested a release from further liability.

"For some reason," the report said, "the United States shipping board saw fit to make a contract with Rogers to pay him \$5,000 per hull for each hull removed by him. The result has been that in many cases the United States shipping board has paid an additional \$5,000 per hull to have Rogers sell the hull or give it away, in many cases the cost of the hull representing several thousand dollars. Rogers has found no difficulty in selling these hulls, at a very fair price, which revenues revert to Rogers, in addition to which he collected from the United States shipping board emergency fleet corporation \$3,000 per hull fee."

The report said the contract entered into with the American Lumber Sales company "should be gone into by this committee, because it presents some features that are questionable, to say the least."

The report then goes on to charge that the company was to some extent "composed of persons previously engaged with" the fleet corporation, and that it purchased materials from the corporation at a stipulated price and sold these materials at an advance price of more than 100 per cent over the purchase price and that in many cases it appeared that the company used the fleet corporation plants and equipment "to reap enormous profits from the sale of materials which had been purchased from the fleet corporation."

The contract with the Southern Scrap Material company, which, it was stated, had been negotiated, was criticized. It was charged that the contract was made by an agent of the board at New Orleans "with the knowledge of his home office," and that materials in many cases not declared surplus, were sold to the company at prices far below the market quotations at the time of the sale.

Thereafter further charges that the organization of the board's supply and sales department, particularly its port representative, was used by the company to sell material purchased from the shipping board and that in many cases the port representatives sold these supplies "for perhaps 100 to 125 per cent profit" to the company and that "certified checks for same were made out to order of the Southern Scrap Material company."

## Want Railroad to Pay for Oil Well Casing

Suit to recover judgment for \$1,470, the value of a car load of well casing, \$103 freight bill and \$500 for loss of profit, was brought in district court Tuesday by the plaintiff, Pipe and Supply company, against the Santa Fe railroad. The plaintiff alleges the pipe was lost by the railroad during transit from Kansas to Oklahoma.

## Bank Clerk Who Chased Robbers Is Shot Down

### Local Chapter Still Finds Work to do Connected With Army Life.

LAWTON, Okla., Nov. 9.—Merle Connor of Cache, Comanche county, was wounded in an encounter with two men who attempted to rob the Indian State bank at Lawton, this afternoon.

The robbers entered the bank at 1:30 o'clock, while George Klafsch, teller, was alone, ordered the teller to throw up his hands and forced him to open the door of the vault. When the door was opened, the robbers, who were armed with a revolver and a shotgun, entered the vault and attempted to open the safe within the vault. The teller, who was armed with a revolver, attempted to resist, but was overpowered by the robbers, who then fled with the money.

Connor pursued the men on horseback and alone. Near a farm at the foot of the Wichita mountains the men dismounted and fled. Connor, who was armed with a revolver, attempted to resist, but was overpowered by the robbers, who then fled with the money.

The robbers are believed to have gone into the mountains.

spread out on the table where Miss Sanders apparently had been telling her fortune. In the center, face up, was the card known as the "death card" among fortune tellers. A knife, which was in the center of it corresponded in size to the dagger with which Miss Sanders killed herself.

In a signed statement, made to the police tonight, Garver said Miss Sanders frequently came to Chicago and that one time he "loved her madly."

"I promised to marry her," he said, according to the police, "but she was high strung and temperamental and we quarreled every time we met. Two months ago I broke off the engagement, but Theodore refused to listen to me and repeatedly urged me to marry her. We were discussing the engagement when she killed herself. I stood up, intending to leave in order to avoid a scene, and as I turned away I heard her body fall."

According to the police, Garver's statement that he broke off the engagement two months ago, was not borne out by the letters found in Miss Sanders' possession. One dated October 22, referred to their plans for marriage. In it Garver said he had inquired from the court about his divorce and whether it was legal for him to be remarried. "Was struck dumb," when he learned that he had only been granted a separation and not a divorce.

Teacher and Society Girl.

LAREDO, Texas, Nov. 9.—Miss Theodora Sanders, who committed suicide in Chicago today, was born and reared here, and for several years was a teacher in the city schools. She came of a family of early settlers in this section and was popular in society circles.

Some months ago Miss Sanders sued a prominent business man for breach of promise, and after terminating the suit made a trip to Mexico City and later to Los Angeles.

## CHURCH PEOPLE PLEASED

### Dedication of Christian Church Is Success in Every Way and Is Encouraging.

SAND SPRINGS, Nov. 9.—The dedication services at the Christian church Sunday were well attended in spite of the inclement weather. They lasted throughout the day and during the three meetings there were 26 conversions. The amount of money raised passed the \$18,800 mark.

Rev. G. L. Sulvely of Lawton, Ill., conducted the services and was assisted by Rev. Earl Mitchell, Judge Gentry, and the people of the Methodist and Baptist churches. In speaking of the results of the series of meetings Rev. Mitchell said, "We are more than pleased. We have many new friends and added a number of new members to our congregation. The success of the whole affair is most encouraging to us, and we heartily thank everyone who assisted us in any way. We hope to repay by the good we can do in the community in God's name."

## MARKET FOR HOME PRODUCT

### Established in Interurban Office Building With Waiting Room.

SAND SPRINGS, Nov. 9.—There will be a market at the new interurban building for the employees of the Sand Springs Home interests within a few weeks, according to a statement made by an official of the line today. All of the products of the big farm will be brought to the door by the new building, and for that purpose and will be sold to the employees at cost. Besides the market, there will be a lunch room and reading room for the employees. Light lunches will be served at noon, and in the summer time buttermilk from the dairy will be sold at a minimum price.

It is the plan of the company to install a waiting room in the building for passengers and within a short time the front rooms will be completed for this purpose. The offices of the interurban have been transferred to their new quarters on the second floor and the company offices have been placed in the lower rooms at the rear of the building.

Simpson Dismissed Sticks.

OKLAHOMA CITY, Nov. 9.—The state supreme court today denied the application for rehearing of dismissal proceedings against Oscar Simpson, formerly county attorney of Grady county. Two months ago the court ordered Simpson dismissed from practicing law in the state.

## BANKERS TO AID CITY ON PAVING

### Committee Appointed to Facilitate Sale of Division Street.

Co-operating with the city administration in its efforts to pave Division street in West Tulsa, C. F. Hopkins, vice president of the chamber of commerce, Tuesday appointed W. E. Brown, J. M. Berry and T. J. Hartman, local bankers, to devise a way of meeting the city's need for money in paving immediately upon completion of the work.

Paving contractors, because of tight money markets, are reluctant to bid on any further paving projects unless they can realize on the street without delay. If they are assured that payment will be forthcoming as soon as Division street is paved, city officials believe there will be plenty of bidders.

The size of the West Tulsa job depends upon the success of the city in obtaining donations. If sufficient donations are forthcoming, the road will be paved with asphalt 24 feet wide.

The committee appointed Tuesday has not yet begun its work, and may give a report at the meeting of the chamber of commerce Friday noon.

## Want Women on Jury to Try Mrs. Peete for Denton's Murder

LOS ANGELES, Nov. 5.—Seven women and 24 men comprise the venire from which the jury to try Mrs. Louise Peete, charged with the murder of Jacob C. Denton, will be chosen in Superior Judge Willis' court, it was learned today.

While numerically speaking the chances for the women to become jurors are slim, it is understood that both prosecution and defense favor having as many women as possible to try the accused "enigma woman."

Mrs. Peete has held her first conference with Public Defender Walton J. Wood, who will represent her at the county jail. She is said to have urged Wood to rush the preparation of her defense so that it will be certain that her trial will start November 23. She is reported to be strongly against a continuance of the case for any reason.

## A Startling Test by One of the Greatest Experts in Modern Cookery

24 1/2 lbs. of potatoes fried in 2 lbs. of Mazola. Only 7 lbs. 14 oz. of potatoes fried in 2 lbs. of lard

THAT Mazola is the better and more economical fat has again been demonstrated. This time by Mrs. A. Louise Andrea, admittedly one of the greatest experts in modern cookery. Mrs. Andrea proved that 2 lbs. of Mazola fried 24 1/2 lbs. of potatoes. While 2 lbs. of lard fried only 7 lbs. 14 oz. of potatoes.

Tested with fish steaks, one inch in thickness, 2 lbs. of Mazola fried 25 3/4 lbs. while lard fried only 16 1/2 lbs. of fish.

Of doughnuts cut uniformly 2 3/4 inches in diameter, 2 lbs. of Mazola fried 20 1/2, while 2 lbs. of lard fried only 13 1/2.

Facts and Figures Prove Remarkable Economy

This proves conclusively that Mazola goes more than three times as far as lard for frying potatoes; almost twice as far for fish; and two-thirds farther than lard in frying doughnuts.

In each test 4 lbs. of Mazola and 4 lbs. of lard were fried down to 2 lbs.

This confirms the experience of seven million housewives who already use Mazola.
