WE HAVE ONE OF THE BEST PHONOGRAPHS ON THE MARKET

We want you to hear it. No other proof is quite so convincing as actually seeing and hearing an instrument. Anyone can make claims but seeing and hearing are proofs you cannot deny.

These instruments have been submitted to the severest tests. They have been submitted to artists and critics. They have been played in competition with the best machines of other makes.

We don't ask anyone to accept our word for the truth of these statements. All we ask is that you come in today or any time as soon as you can and make THE TEST and we are willing to rest the verdict on YOUR judgment.

A Few Salient Features of the LaSallephone

Three Point Amplifier Suspension

The amplifier is the part of the phonograph which takes the thread of tone created by the friction of the reproducer's point on the record and swells into a thing of beauty...

Powerful, Long Running, Silent Motor

Don't Take Our Word; Come and Hear It

We don't ask you to take our word for any of these claims. All that we ask is that you come and hear this wonderful instrument. Hear it, compare it with other makes, let them play side by side...

Plays Any and All Makes of Records

The SWEETONE reproducer is another distinctive LaSallephone feature. With the Sweetone it is possible to play any and all makes of records, whether these made to be played with steel needles, fiber needles, or jewel pointed reproducers...

OUR UNEQUALED OFFER!

NOTHING that we could say would so thoroughly convince you of the value of Chamberlain's Tablets as a personal trial. We can tell you of thousands who have been permanently cured of chronic constipation, indigestion, biliousness, sick headache and disorders of the stomach and liver, but this will have little weight with you as compared to a personal trial. That always convinces.
