OIL MARKET QUOTATIONS

Table with 2 columns: Location (Pennsylvania, Canada, etc.) and Price per barrel.

Petroleum Club Would Lease New Headquarters

There is a fine opening for some one with money who desires to invest in real estate in Tulsa, namely as the Petroleum club in the market and will lease for a term of years a building suitable for its use...

A building for the club, such as the officials desire to lease, should be centrally located and in addition to the diningroom, kitchen and lounge rooms, it is desired that there be a recreation room for the guests and guests of members...

With the club thus equipped, there is no doubt in the minds of the members but that the Petroleum club, located in Tulsa, would take a leading part in all social affairs and would take its rightful place in the way of entertainment of distinguished guests who come this way...

The club itself was never in better repute, as it is being managed by E. Calvin, whose experience in club and hotel management amply fits him for the position. The diningroom is serving the best possible fare and Mr. Calvin is on the job to look after the comfort of the guests...

The members now patronizing the club are men who have a reputation for having the club's establishment beyond question, inasmuch as many who have been dropped for various reasons, including non-payment of dues, have given up and made room for a better class of oil men...

The present officers are E. L. Connolly, president; George Snedden, vice president; E. M. Rothwell, secretary; and H. S. Ralston, treasurer; and a better or more efficient set of officials could not be found...

The initiation fee of \$100, plus war tax, is the lowest of any club of equal importance in this country, and there is a charge of only \$50 a year for dues for resident members...

There is much of interest in the early history of the Petroleum club, which having been born following a get-together...

There is much of interest in the early history of the Petroleum club, which having been born following a get-together...

There is much of interest in the early history of the Petroleum club, which having been born following a get-together...

OIL AND GAS

Will furnish casing, rig, tools and drill a well for an equitable interest in good looking acreage. Give full description, with a flat proposition and we will investigate immediately.

PORTINA

"That Wonderful Porto Rican Cigar" Generously sized. Fragrant and Mild. 10c 15c 2 for 25c

ALUMINUM

Big Sale Tuesday Don't forget the sale of pure aluminum preserving kettles, rice boilers, sauce pans and roasters at our Main street store Tuesday. Ground floor. Come early.

It Pays to Trade at Hale's M.C. Hale & Co. 107 South Main

a visit with his old friend, Glen Braden, who is interested with him in the South American oil fields. Mr. Leonard is not the father of A. W. Leonard as printed in yesterday's World, being no relation whatever.

Thomas Lyons, of the firm of Rice Lyons, returned a few days ago from Washington and confirms the rumor that two of the cabinet officers are about to retire, which will make a change of great interest to the oil men inasmuch as it involves a probable change of policy in at least one direction that affects the oil interests...

L. R. McCollum, is spending the day in Tulsa, having arrived yesterday from Mexico, Texas via Eldorado, Arkansas. Mr. McCollum says that the Mexico field is the most interesting development in the world in the low price of crude. "One of the large companies," said Mr. McCollum, "informed me that they will be taking anywhere from 10,000 to 45,000 barrels a day within 90 days. There were five rotary machines being unloaded the day I was there, and it so happened that there were five more second-hand machines being shipped from Eldorado, Arkansas, the day I was in that field. They were destined for Mexico. The place is crowded to death, as is also Comarca, the nearest large town, and the only chance for one was to occupy a room with four others when I got over to Comarca at 11:00 p. m. Mexico is a regular boom town. Mr. McCollum, formerly a student at the University of Oklahoma, is visiting her brother Frank Murphy, who is in a Boston newspaper. She wired all her friends in Tulsa greetings.
