Petroleum Exports

Mid-Continent Refiners Are Offered Ideal Facilities for Storing and Preparing Their Products for Export Shipment

Petroleum Import & Export Corp.

NEW ORLEANS, LOUISIANA

Is now operating the most modern and completely equipped plant of its kind in the country—on the Mississippi River at New Orleans.

The world's best can, case and barrel manufacturing plant will ship your products to your own customers. Expert chemists familiar with all export brands will compound your oils under your own specifications to meet any demand.

An opportunity not heretofore offered—we will unload, store and prepare your products for export shipment under your own trade mark brands, or load bulk shipments into tank steamers.
